It's okay now,
everything is fine...
Right?

I swear I never meant to say those things to you...
You're not junk...

You're the most beautiful thing I've ever seen... Remember?
I never forgot my first words to you...

Forgive me..
I just... I was
so scared...

squeakthewritepony asked: block answer

So Doc, how's Twilight? Is it a good idea to check on her?

dragons-and-sketches asked: block answer

Oh my.. Doctor, you should check on Twilight soon.. and start looking for those things, ignoring them will only result in you breaking down again and again, you can go back to your hole after you're done.

pvt-arkins asked: block answer

Seeds, eh? Sounds rough, you might want to make sure Miss Twilight is okay. Just because he hurt her once doesn't mean he won't do it again.

Anonymous asked: block answer

Oh no Miss Twilight! You must check on her

...YANA...

Twilight!!!

Twilight, are you alright?!

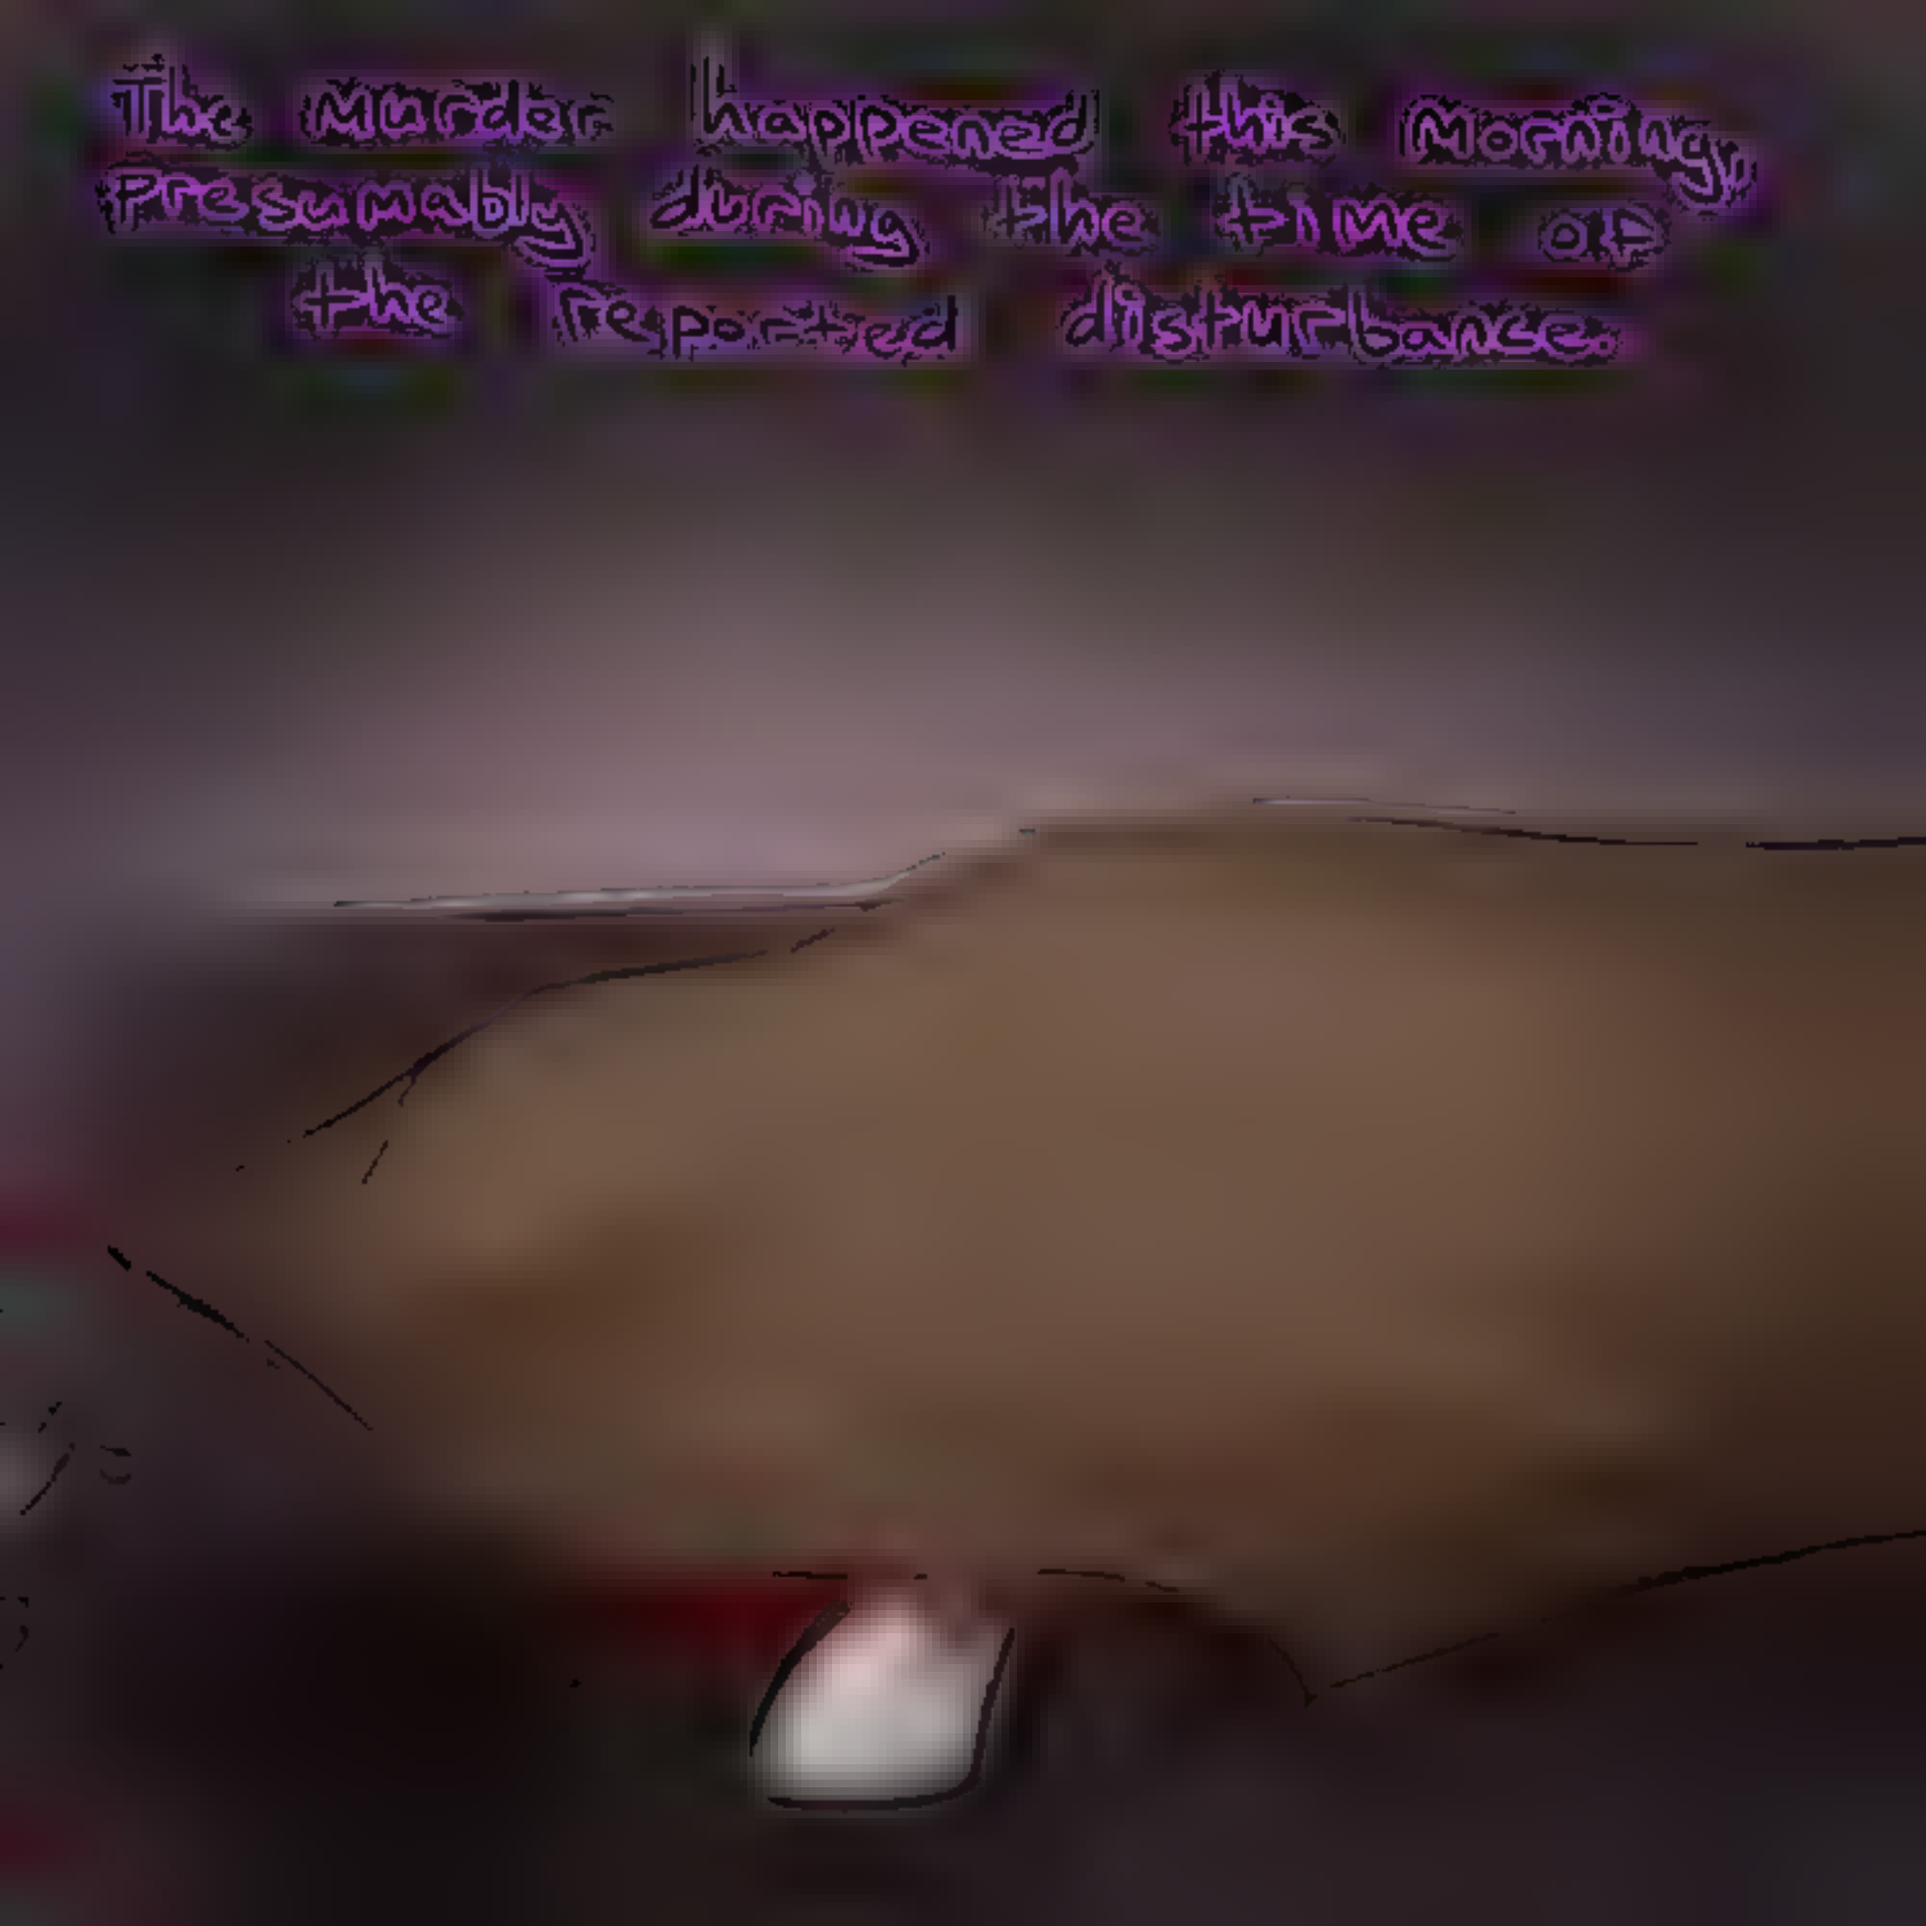
Yes, I'm alright, Doctor...
I'm glad you're here.

Marshmallow...
I-is something wrong?

You seem distressed lately, Doctor Have you considered taking a walk or fly around Ponyville? Just to clear your head?
C-can we go on a walk...? Please?
I don't mind...

What's this about, Doctor?
I just worry about you sometimes...
I have to...

You never know what dangers may be around the corner...



The Murder happened this Morning,
Presumably during the time of
the Reported disturbance.

If it made such a loud noise then why did the murderer bother to throw her out the window? They could have easily killed her in silence...

I think whoever did this wanted the murder to be discovered. This isn't just a murder, this is a calling card. A big 'Hello' from the killer.
How polite of them.

Excuse me, do you have any information on the victim?
Are the townspeople safe?
Do you have any leads?!

Don't worry, the case will be solved quickly.
All your questions should go to the station's PR.
Move along, please.

Mayor Mare should be able to answer your questions. Please vacate the premises.
...Him....

You two.
Here. Now.

SLAM

Beating mares isn't enough of a thrill for you anymore, is it, you monochrome bastard?

W-What in the hell are you talking about?!

YOU KNOW PERFECTLY WELL W-

That's enough, Warden. I'll take it from here.

You should talk with the mare outside, I'll deal with him.
Right.

Don't let him leave without getting some answers, Torin.
I know, I know.

Where were you this morning?
I was taking a walk...
Have you been with him all day?
Yes, since befor dawn...

Who was with you?
Has he shown any aggresive behavior lately?
Miss Twilight Sparkle...
Not that I know of...

How can We Contact you if needed?
Phone Number...
Has he ever... Hit you?
What-?! No! H-he would never!!

Come on, What's this about?

It's just
for an
investigation,
don't worry
about it.

You're telling me not to worry after dragging Twilight and me in to--
Wherever this is!

. . .
What is this place, anyways?

Slaughtercube
Corner.

O-oh, I meant 'Sugarcube Corner.'
Sorry, Similar cases—
Considering what happens to the horns...

What...?
Oh- Erhm... Forget I said anything, Doc. It's nothing.

Beware.
The Doctor lies.

What in the hell was that about?!
I... I don't know...

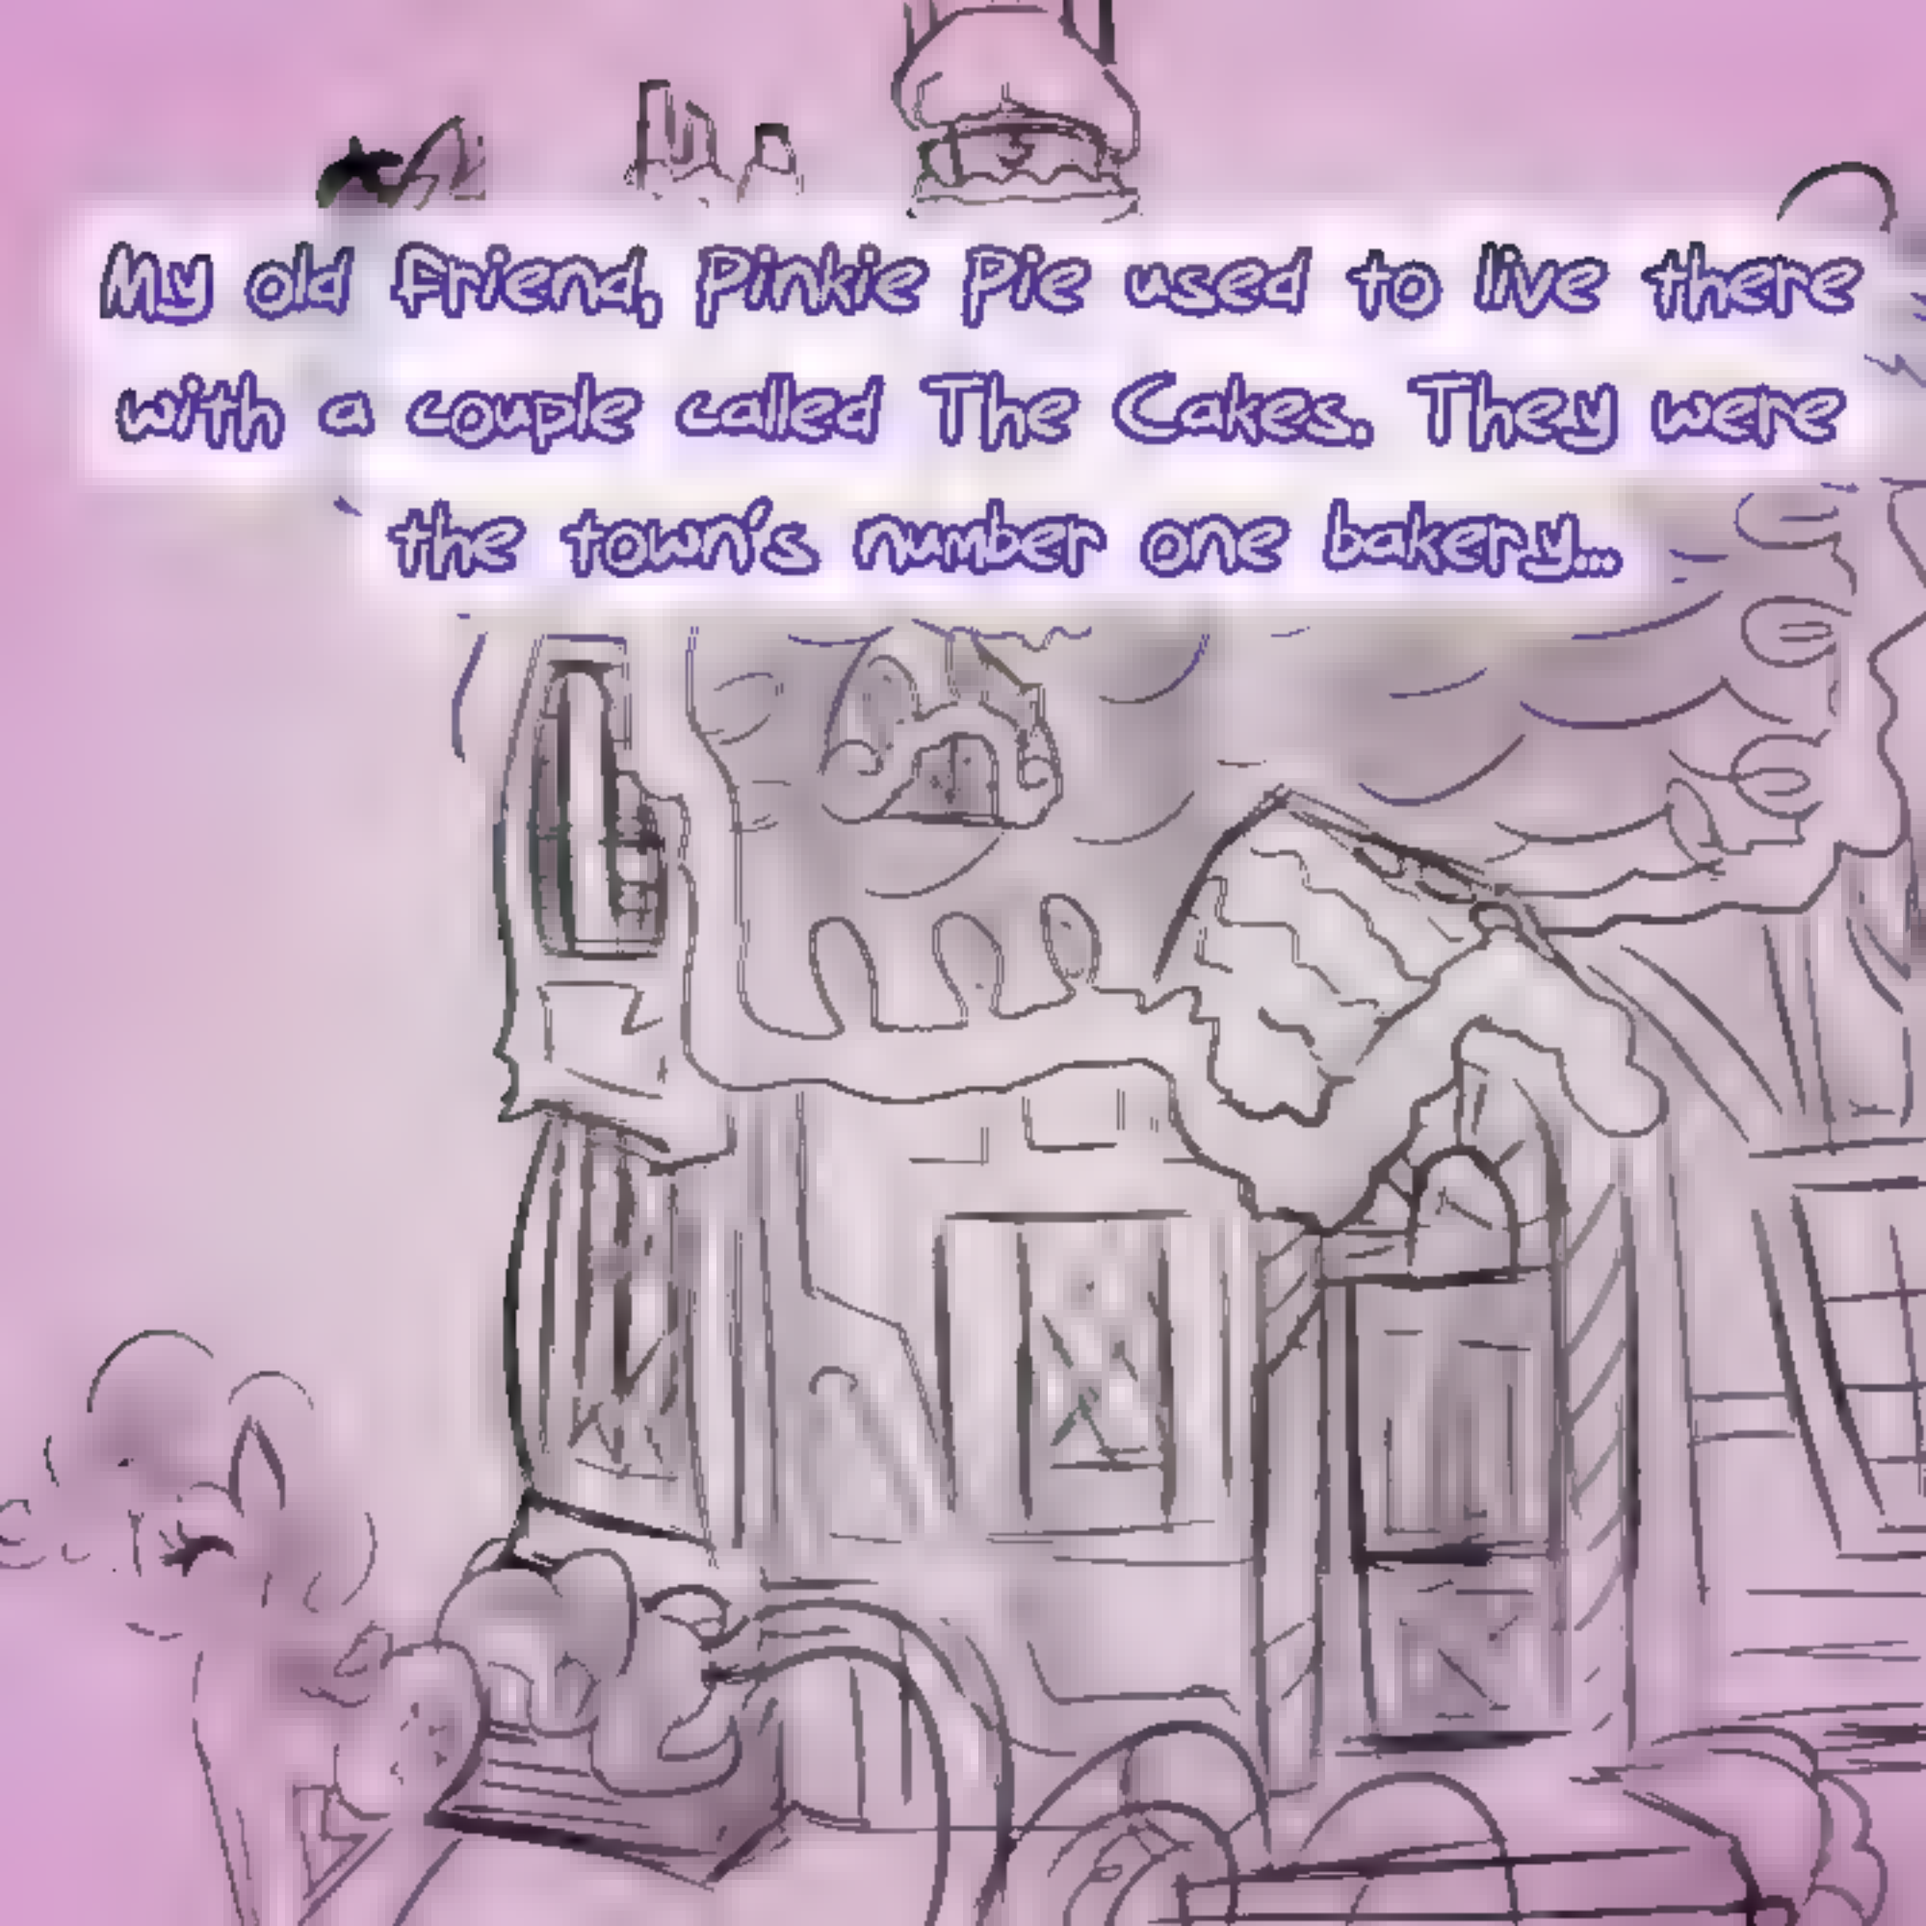
...What's wrong, Sweetheart...?
Th-That place... of all places... why that place...?

Sugarcube corner, you mean...?
Yes...

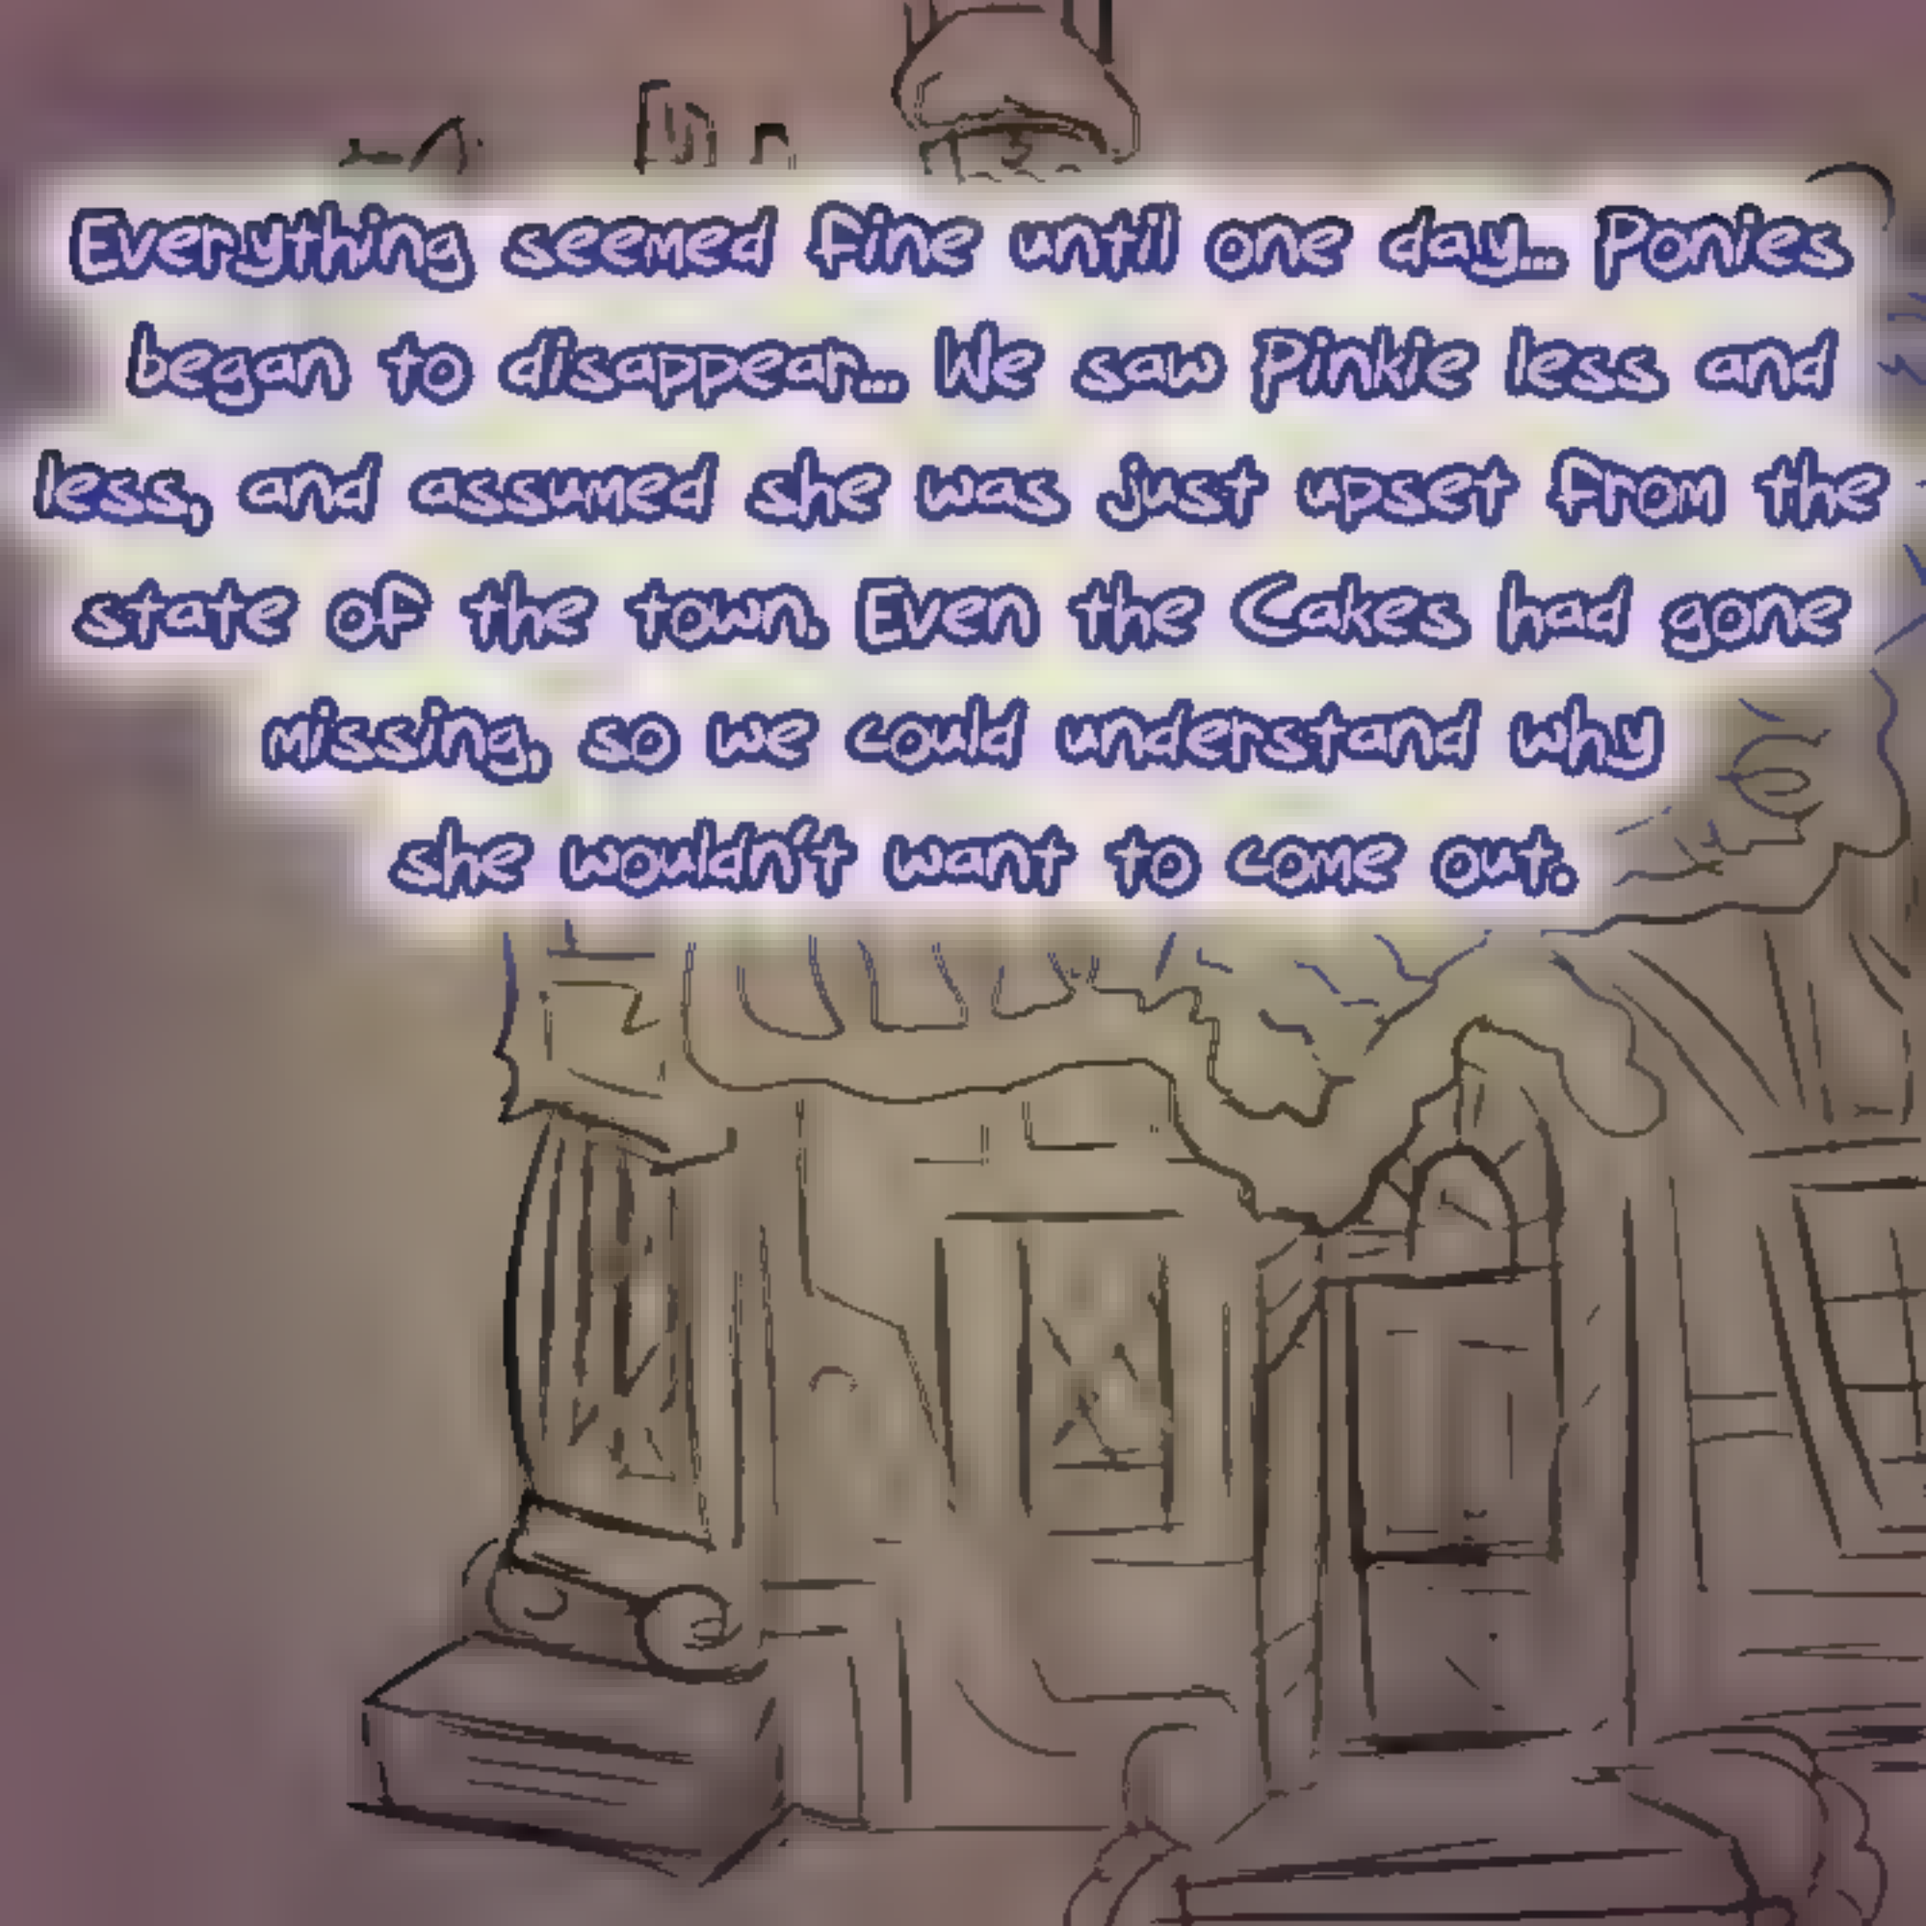
Please, tell me about it,
I'm here to
listen, baby...
Th... That
Place is...

It's the place where everything fell apart...

What do you Mean...?

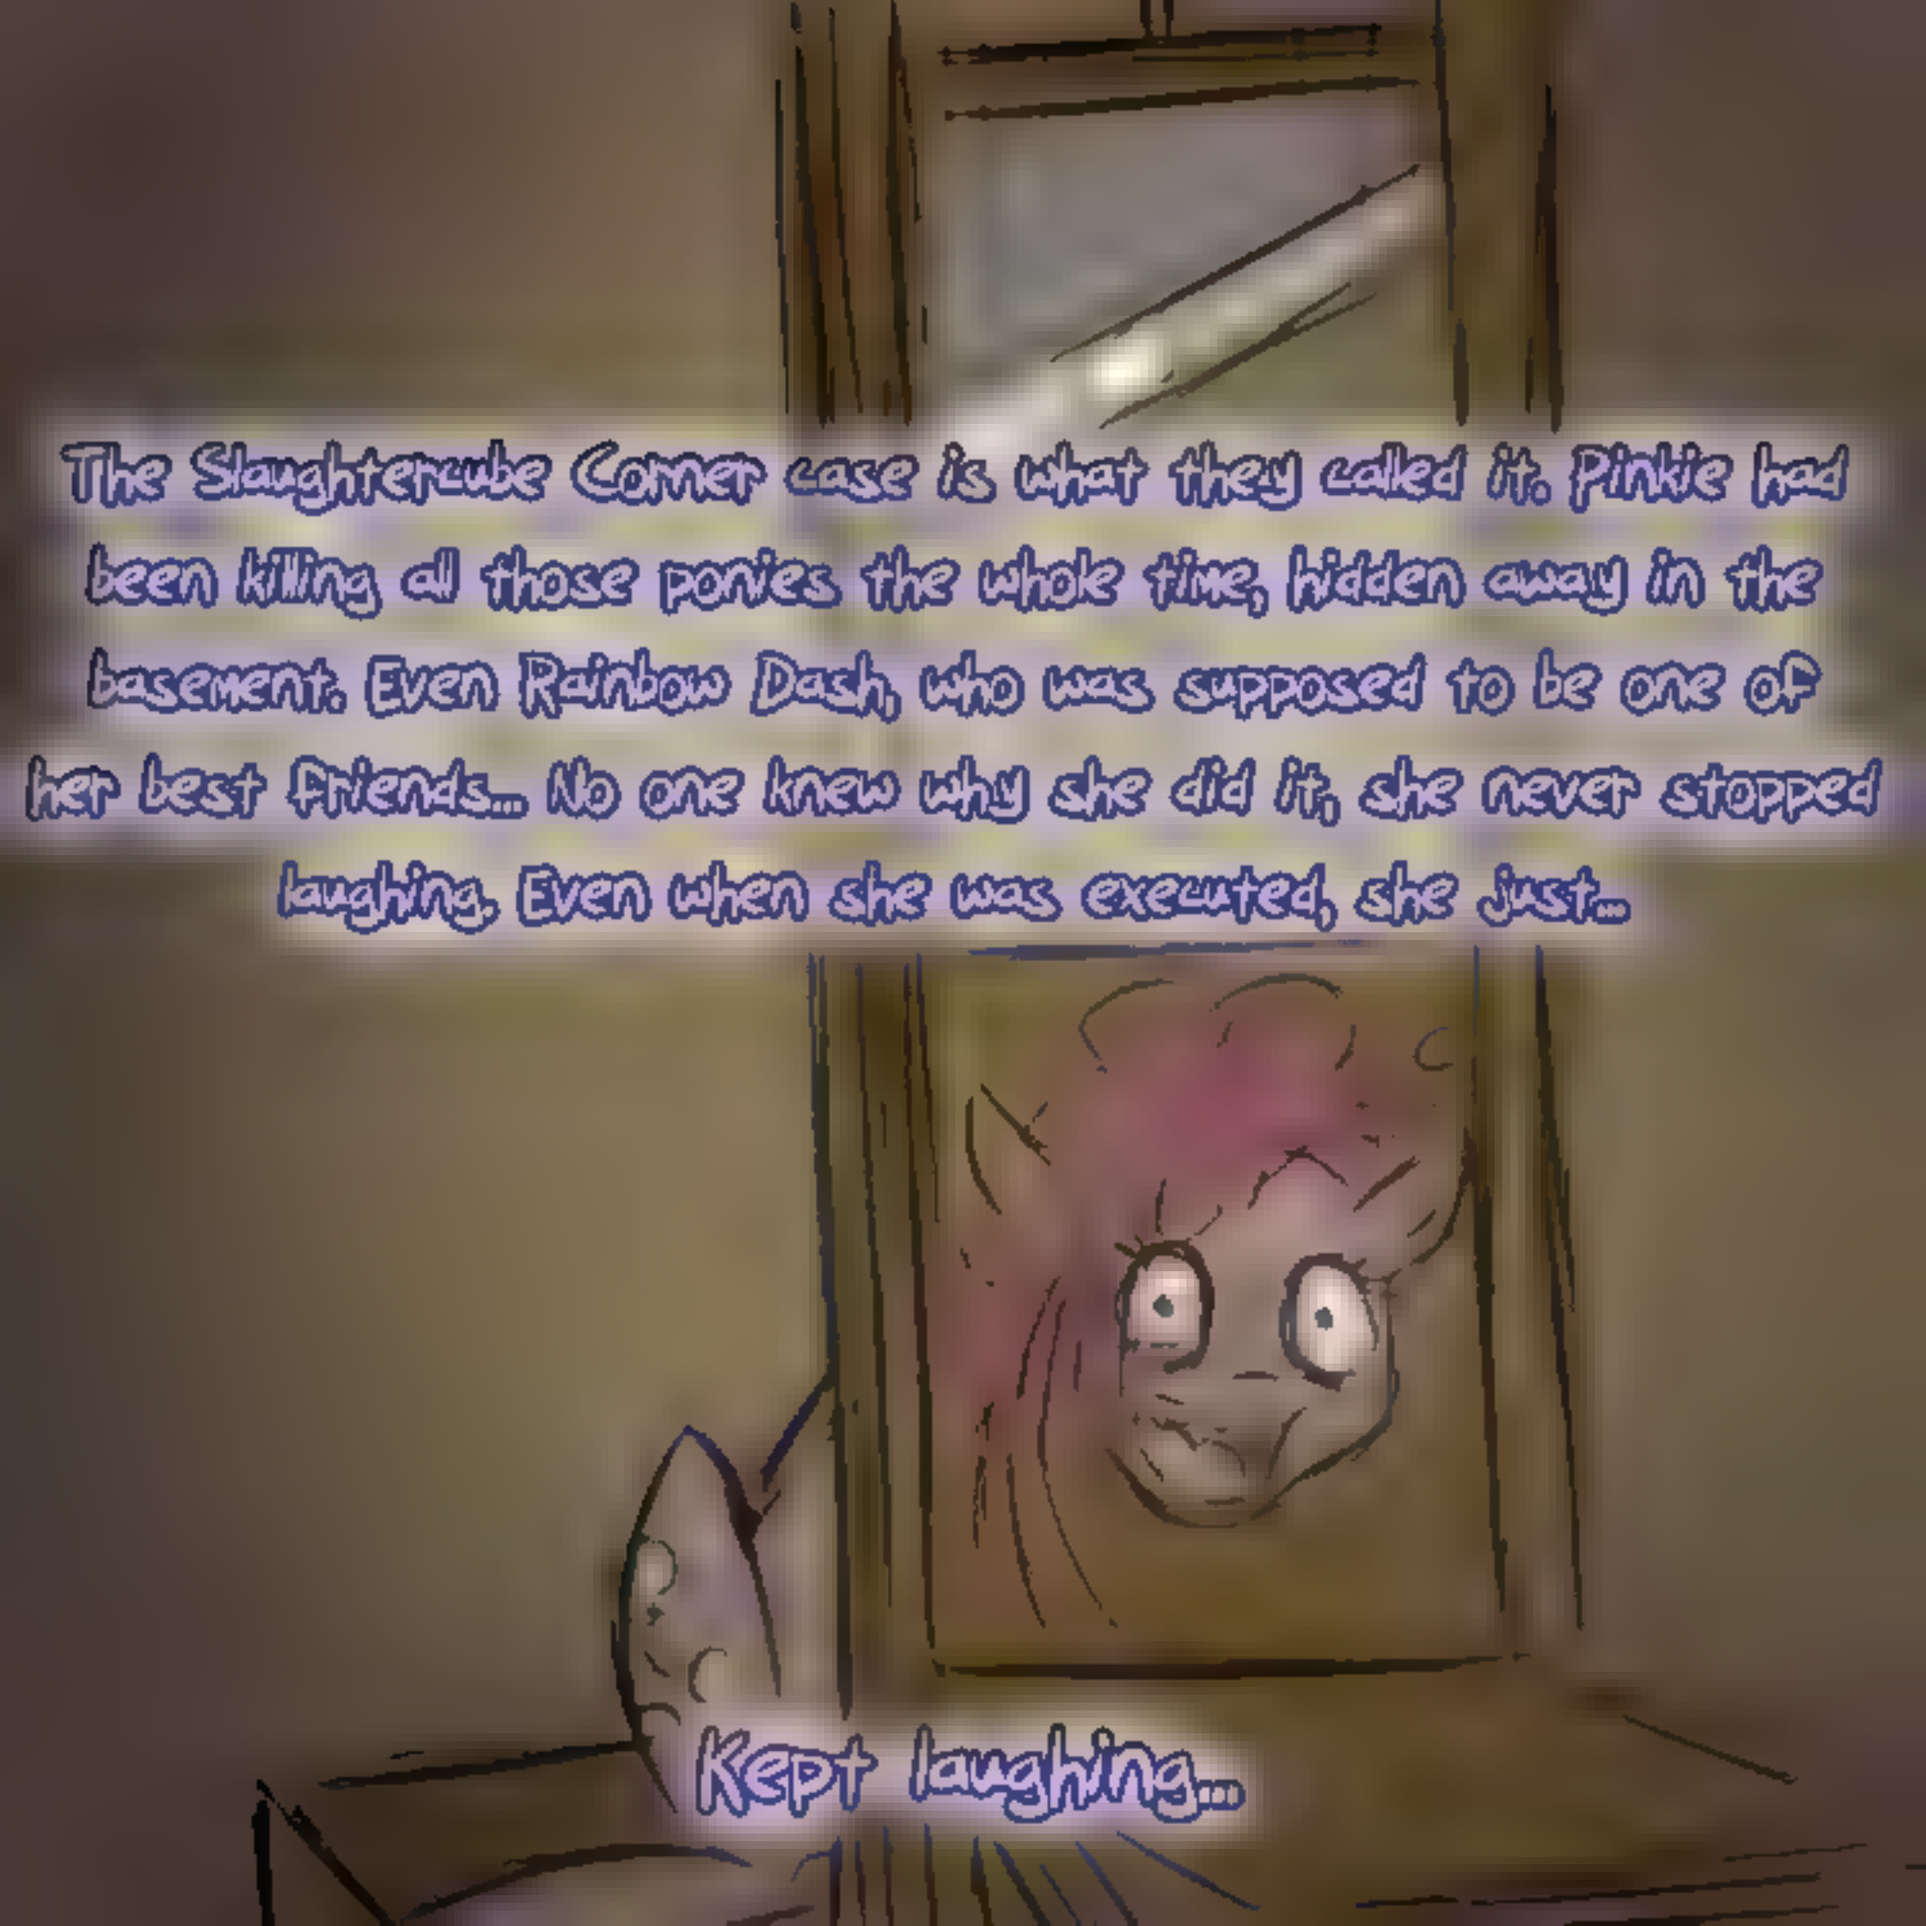


My old friend, Pinkie Pie used to live there with a couple called The Cakes. They were the town's number one bakery...



Everything seemed fine until one day... Ponies began to disappear... We saw Pinkie less and less, and assumed she was just upset from the state of the town. Even the Cakes had gone missing, so we could understand why she wouldn't want to come out.

And then, one day... Rainbow Dash went missing.
We were desperate to find her. And sometimes...
I wish we never had been...



The Slaughtercube Corner case is what they called it. Pinkie had been killing all those ponies the whole time, hidden away in the basement. Even Rainbow Dash, who was supposed to be one of her best friends... No one knew why she did it, she never stopped laughing. Even when she was executed, she just...
Kept laughing...

That...
I'm so
sorry--
I--

Oh, but it only got worse, Doctor...

Rainbow Dash was Fluttershy's best friend and support. After she found out what happened, she disappeared.

No pony knows what happened to her.

And poor Applejack... Her grandmother died and her brother moved away to support the farm after sales plummeted. No one wanted to buy from Ponyville after the incident. All she ever does now is drink, and I've seen Applebloom with bruises but she wont tell me anything...

Rarity locked herself away after the incident.
I'm not sure what had happened to her. The last I saw her, her face was covered in scars and—

She was... She...

No, no, that didn't happen
that was probably just
a really bad dream.

A-Anyways, she's
In a coma right now
last I heard. IM not
sure anymore...

Th-there's nothing I could do...!
I've been trying so hard, but everything is just falling apart! The mayor is resigning, parents are too scared to let their foals go outside or sent them away from town, and just when it seemed like things might be calming down those investigators showed up!

I'm so scared, Doctor!!
Wont this ever end?!

I... I wont let anything
hurt you any more, I promise...

What is this...?

I can't always be here, so I'm giving you this...

If you ever need me... All you need to do is hold the Pendant and Concentrate a little of your Magic on it.

It will send a signal to me,
no matter where I am.
And I swear to you I will be by your side as soon as I can.

Twilight... Youre the only thing left in this universe I want to protect...

Are you just going to leave her again?
I don't want to, but I have to.
POLI

Where did you get that necklace?
Where did you get a signal pendant that operates on magic?
Oh, that's easy. I'm The Doctor, and I'm brilliant.

That was very sweet of you, Doctor How would you receive the message, though? On the psychic paper?
I have it linked to the Psychic Paper and the TARDIS, and both I can sense telepathically.

Doctor are you worried about all of the strange events that have been happening around Ponyville?
I admit they are concerning...
Yes... Not right...
Not right at all...
And if I'm right, which I usually am, there was a murder very recently of a unicorn.

The necklace is a good way to make her FEEL safe doctor But the best way to remedy something disastrous is to prevent it happening at all Perhaps you should go behind the-scenes and find out about who could be behind the murder ? Better safe than sorry right, Doctor?
Hey Doc. wouldn't Twilight be safer if you found out who the killer was? There's no guarantee you'd get there in time if he snuck up on she'd never have time to gather a spell She'd be gone in an instant

It starting to look like your starting to care again Just like you were before
. . . .
Twilight...

Doctor I have to admit I am rather surprised to see that you aren't interested in the recent trouble going around Ponyville nowadays, rather disappointing Although I will ask you this, you're curious aren't you? It's that curiosity that The Doctor I know would use to get himself into trouble but STILL come out on top What happened to that Doctor?

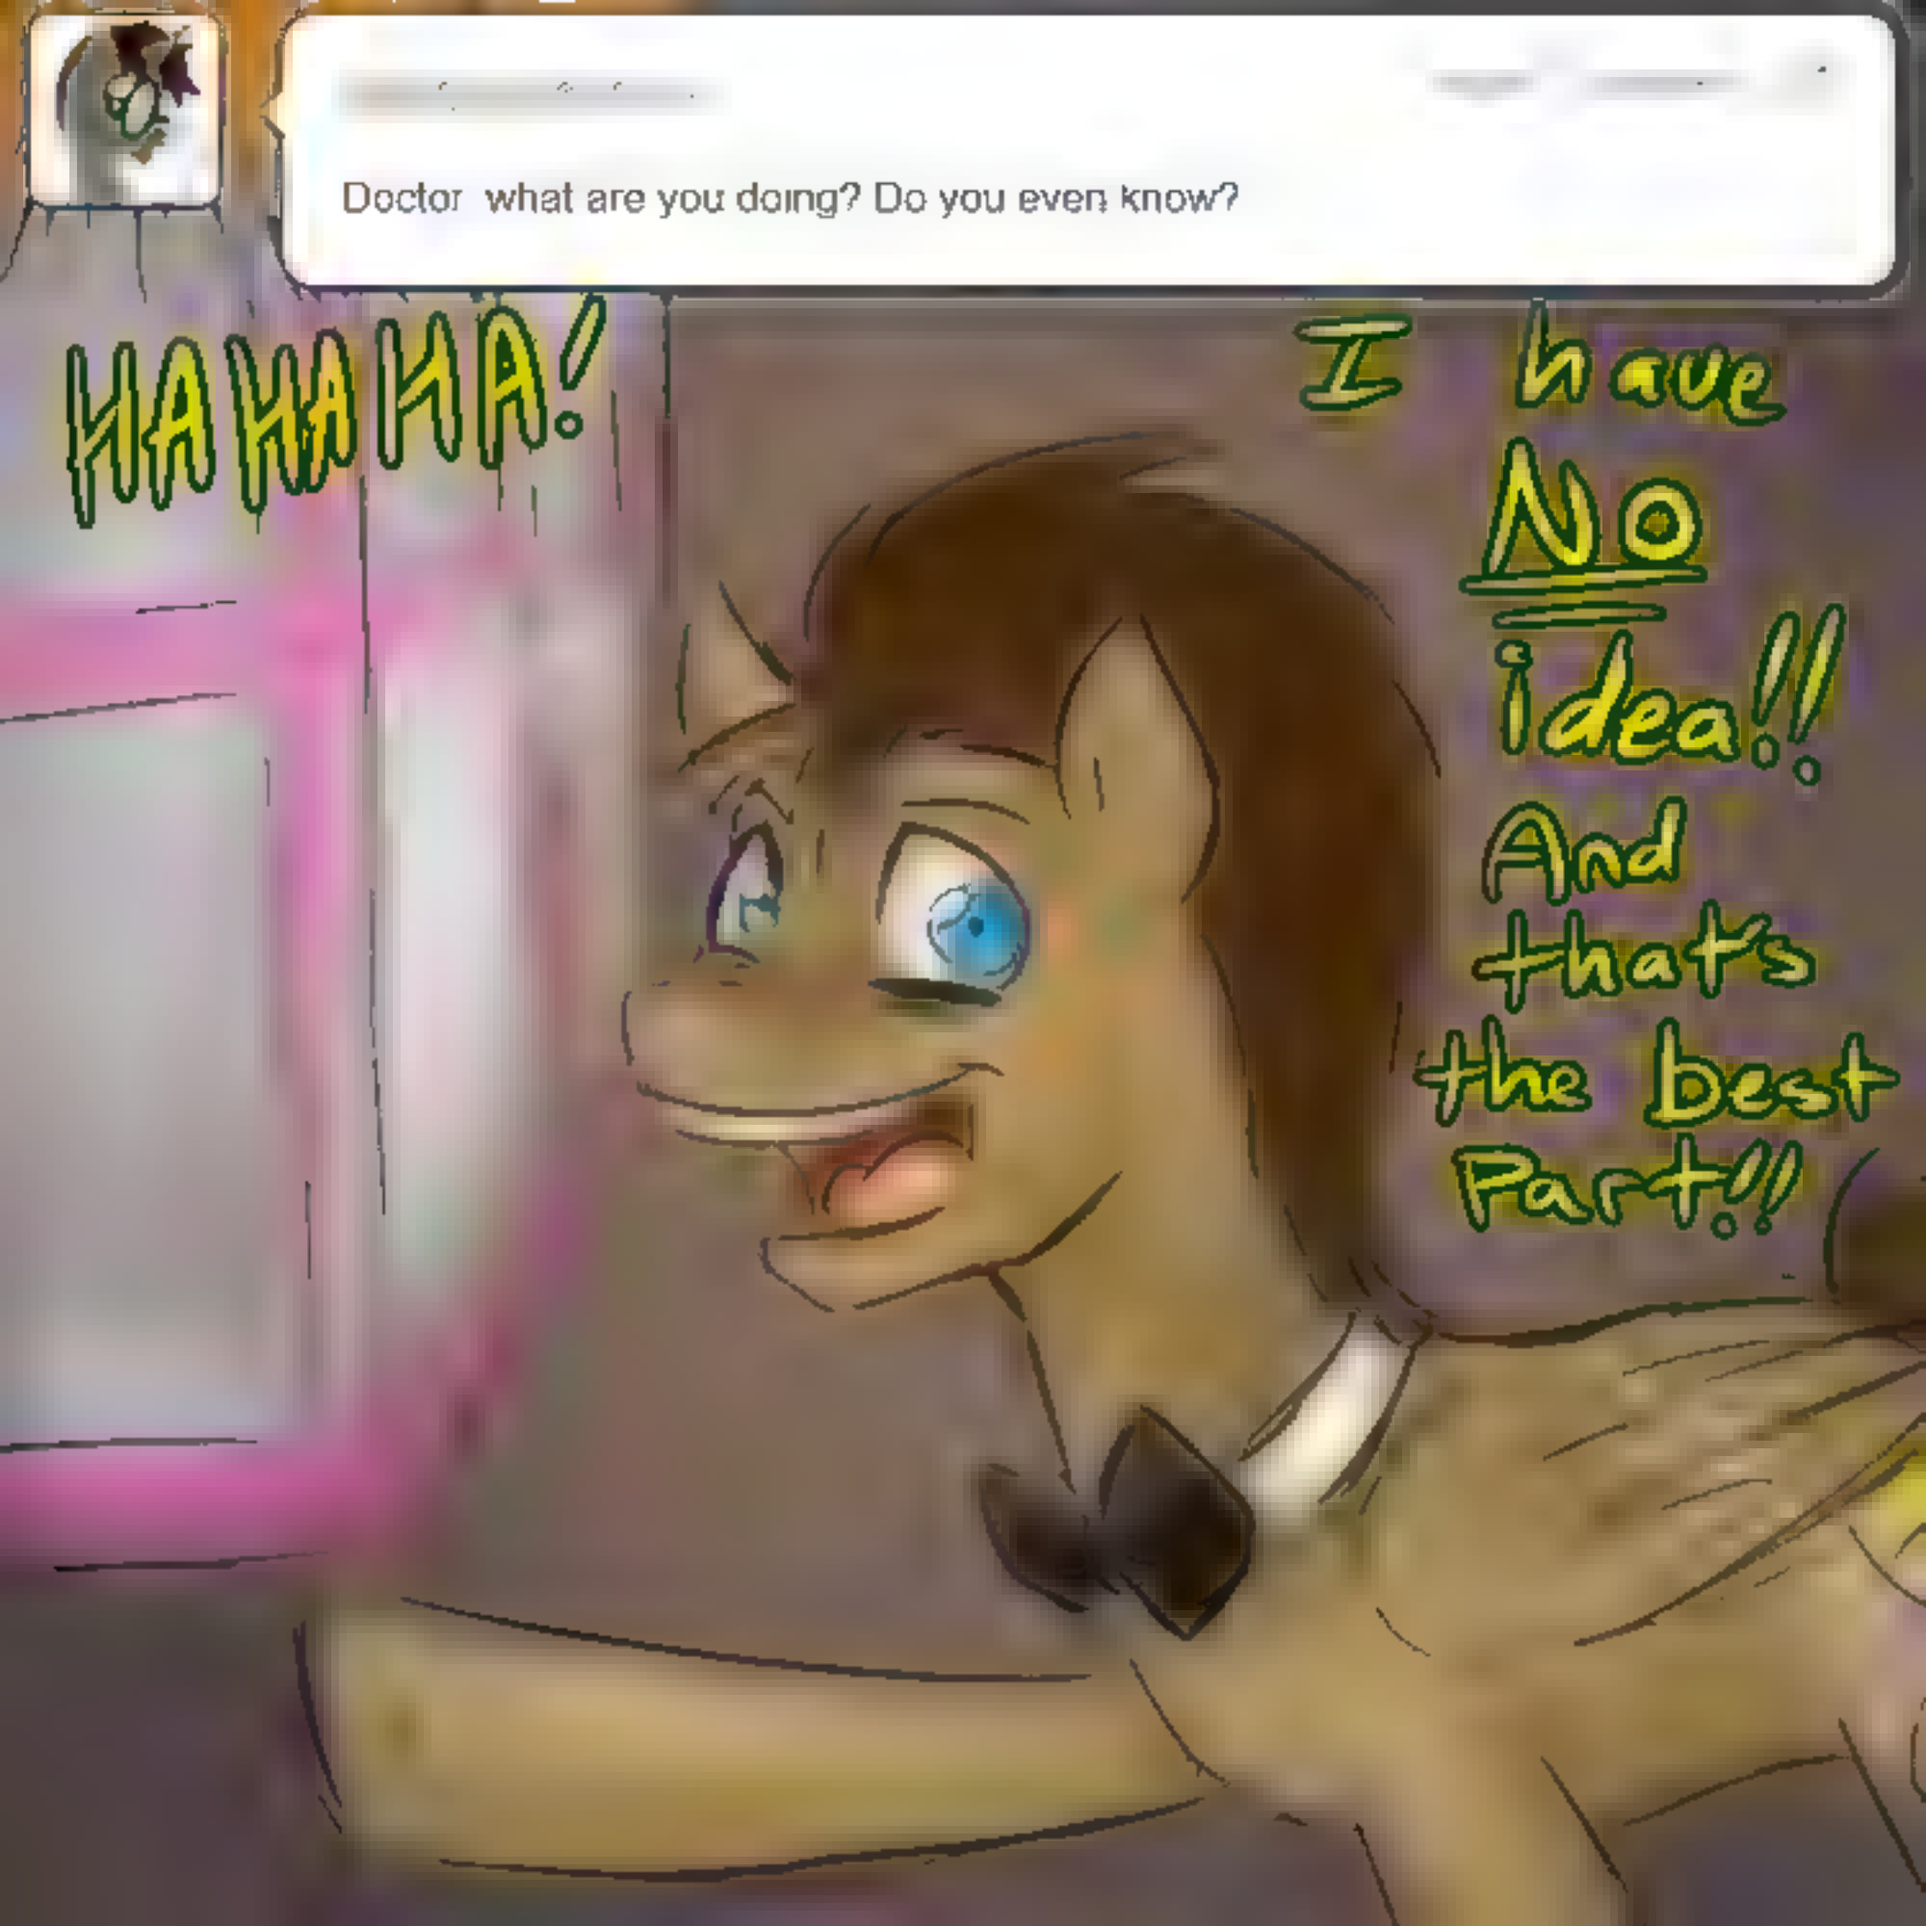
Hello!

Are you going to investigate the crime or go back to the tardis
So Doctor Are you going to help solve the mystery?
Amor-y.

Still running? Cause it doesn't seem like it from here
Why would I do that when there's a pony in danger?

WRK
Hmm...
Interesting.

Eugh, iron, yes. Bleh.
Most definitely ^ Murder, yep.
... Why do I taste Pear...?



Doctor what are you doing? Do you even know?
HAHAHA!
I have No idea!! And that's the best Part!!

Do you have any suspic on as to who is beh nd the madness in Ponyville?
so do you have an idea who could have comm tted the murder? I mean it seems kind of strange, a murder happens just before you and.
I don't have enough facts, but that bat Pony earlier did give some important details.

He said it was a 'similar case' to 'Slaughtercube Corner,' confirming it was, in fact, a murder.

Not just that. Considering what happens to the horns.
Horns. Plural. There are More Victims, unicorns, and their horns are being taken.
That much is clear. But why?

Just a heads-up You're being watched by several ponies with headsets
Doctor I think you're being watched
Eh, what?

ก ? ?

So Doctor what are your thoughts on Twilight's friends now that you know what happened?
It doesn't make sense.
It honestly doesn't...

Doctor are you going to help Twilight's friends? It might help her feel more at ease
Doctor cant you fix all this, all that has happened cant be a fixed point A single trip in the tardis is all that would take to keep them all safe, make everything as it was
No,
Somehow
those tragic
events
were all...
Locked to
a Fixed Point...
I can sense it...

But... That's
IMPOSSIBLE...

Everything that has happened to the Elements of Harmony seems suspect to me Doesn't t fee ike a concentrated effort to you Doctor? It does to me
... The Elements of Harmony...
It Must Mean Something..

I'm somewhat surprised that this only surfaced to you just now. This has been going on for a while, now
No! No, it hasn't!!
That's why this makes no sense! This was NOT supposed to happen!!

So what DO you know about your Marshmallow's Universe, Doccy? Obviously you're not too well informed on past events here. Maybe you ought to bone up on the local history instead of just boring the locals
I AM a local...
This isn't just her universe, it's mine...
Er- By that I mean... This is the one I landed in.

And that's why this makes no sense... None of this was here before...

I-I know it wasn't...

It's as if history is being altered, changed right under everyone's noses.

One thing at a time, ripped in to chaos...

chaos...

...I... I need to sit down...

I don't understand-
It's like the answer is right there and yet...

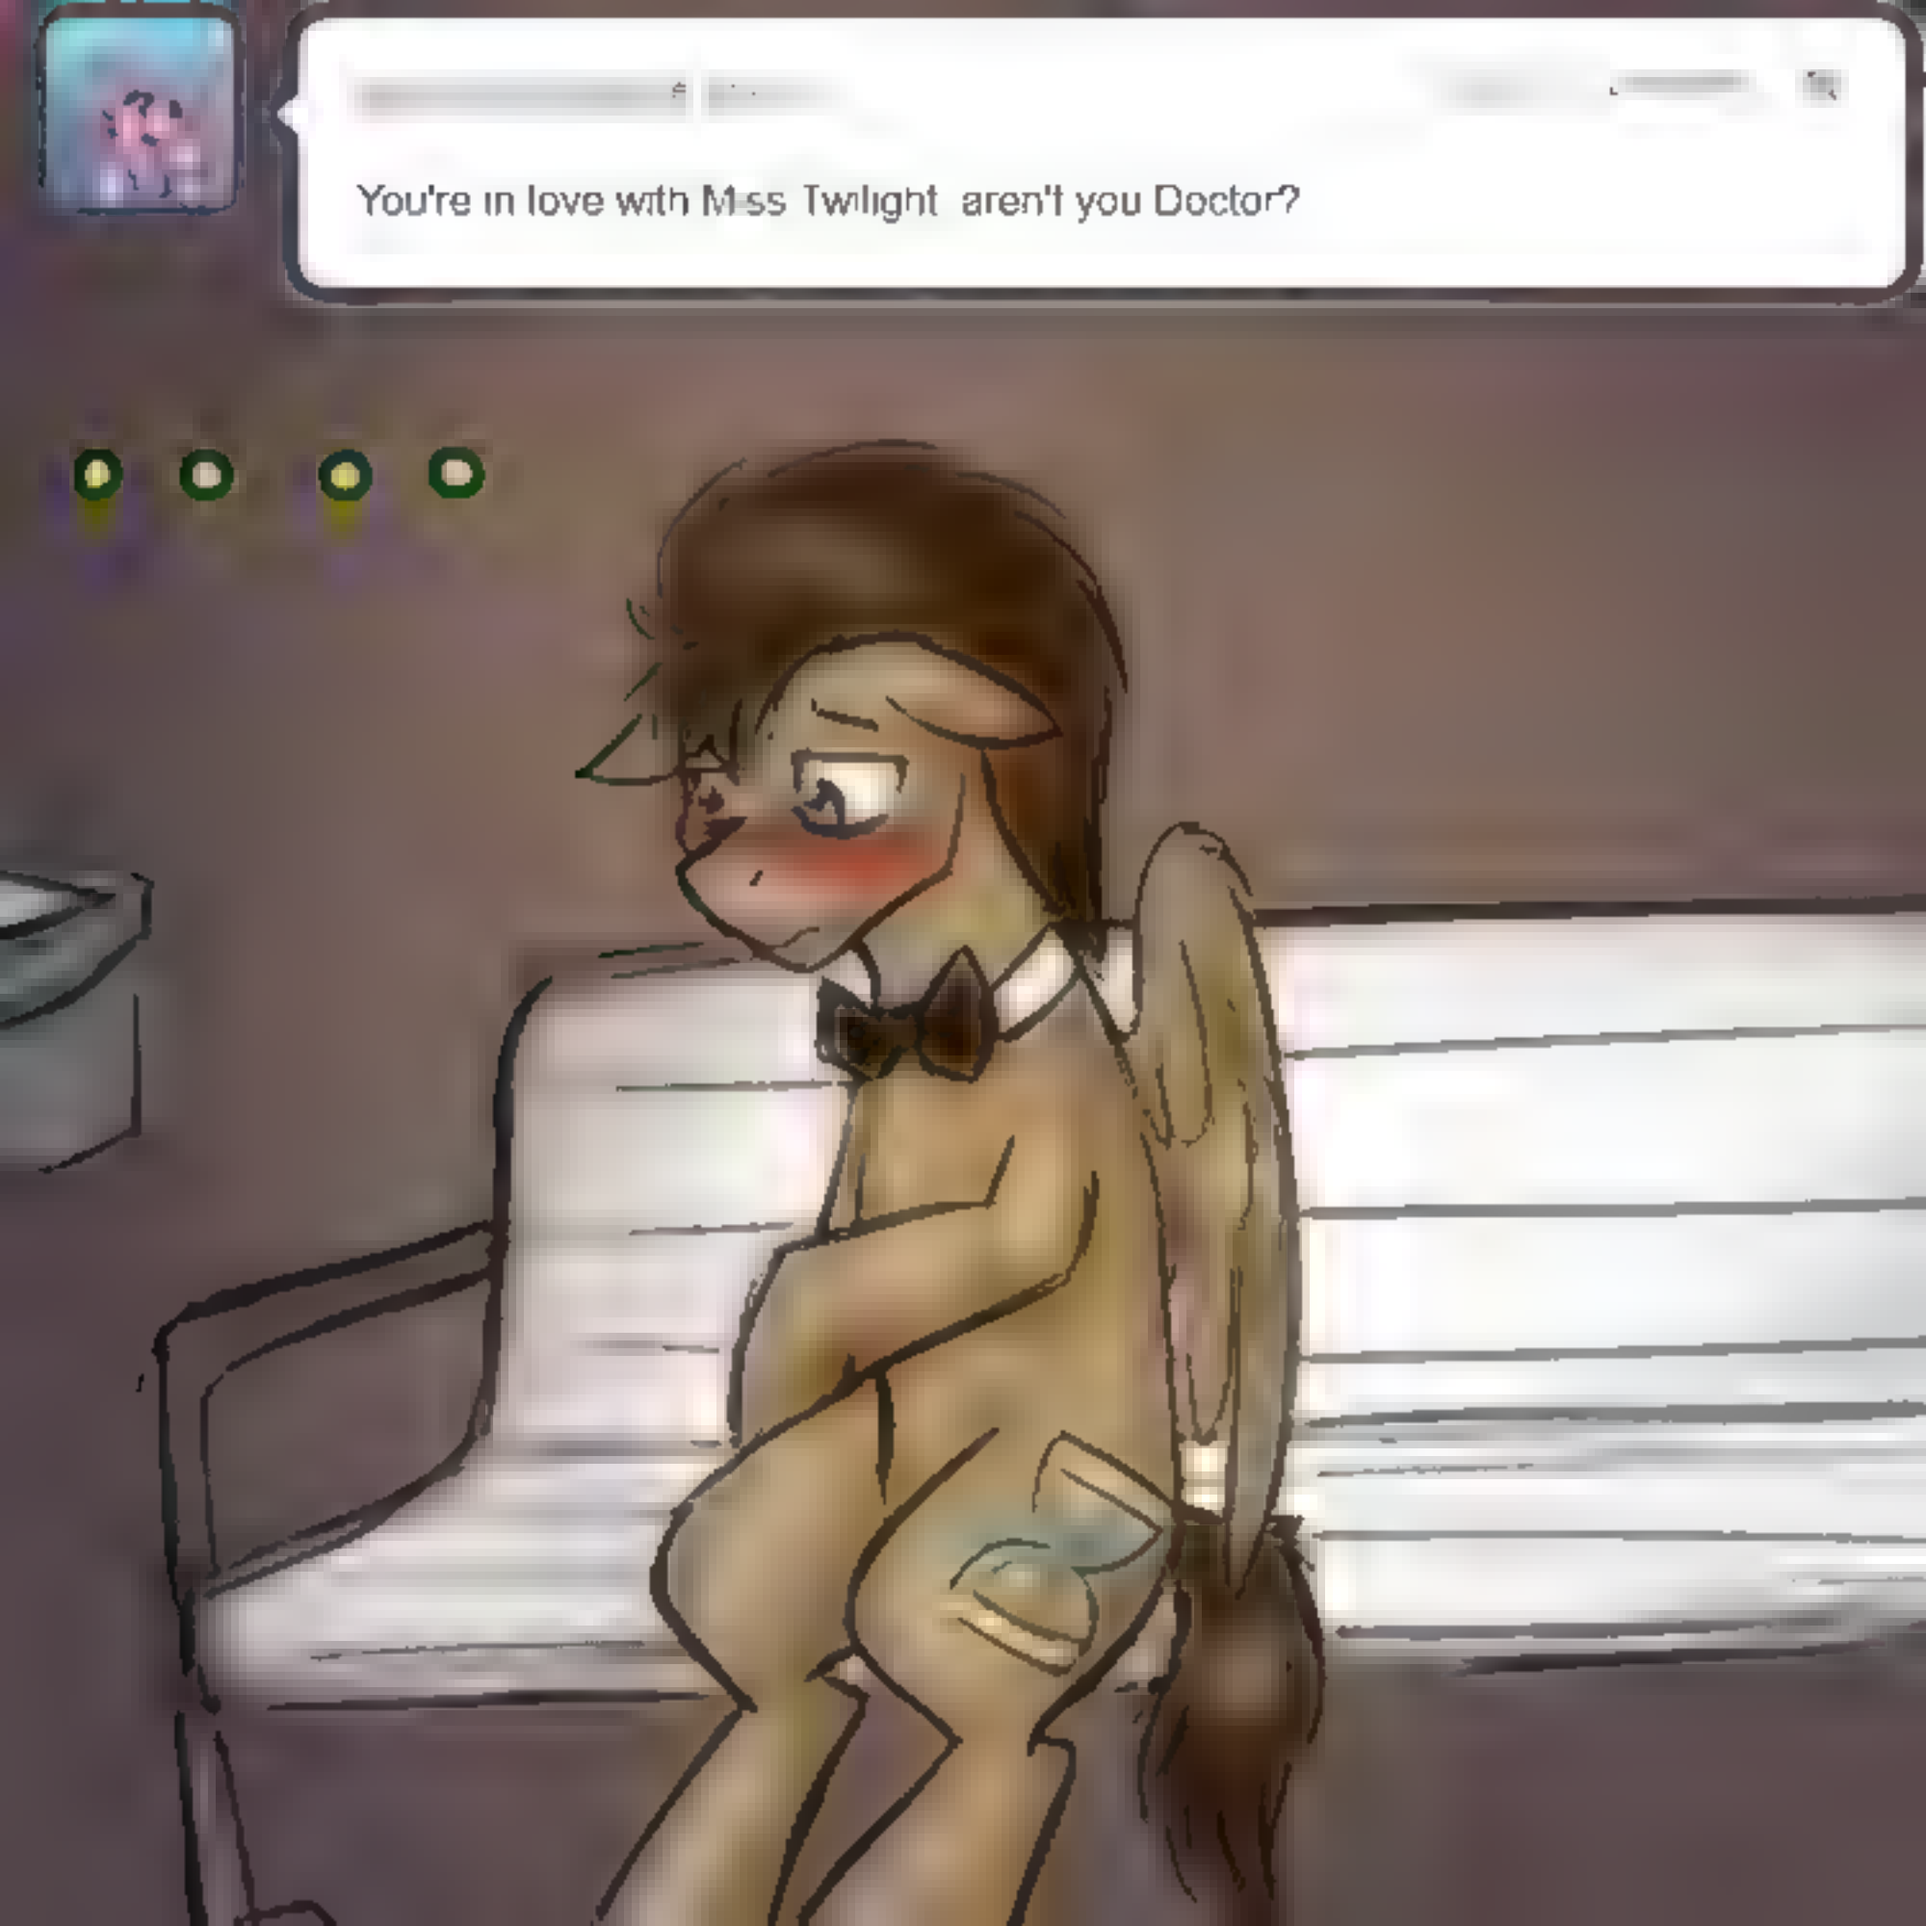
There's something clouding my thoughts when I try to find it...
Why... Why..?

Twilight... I'm so sorry... I don't know what's wrong with me...

Sterng well well well looks ike the doc is back, even though you're only gonna protect twilight it's st.ll nice to see you st ll care for someone

Doc, why do you care so much about Twilight?
Because She's... Brilliant... She's so full of hope, even after everything... So much hope... I admire her...

You and Twilight have come quite far in your relationship are you happy about this?
So are you and twilight dating now?
Wha-
No, it's not like--!
I... I really wouldn't say We're... Urhm...



You're in love with Miss Twilight aren't you Doctor?

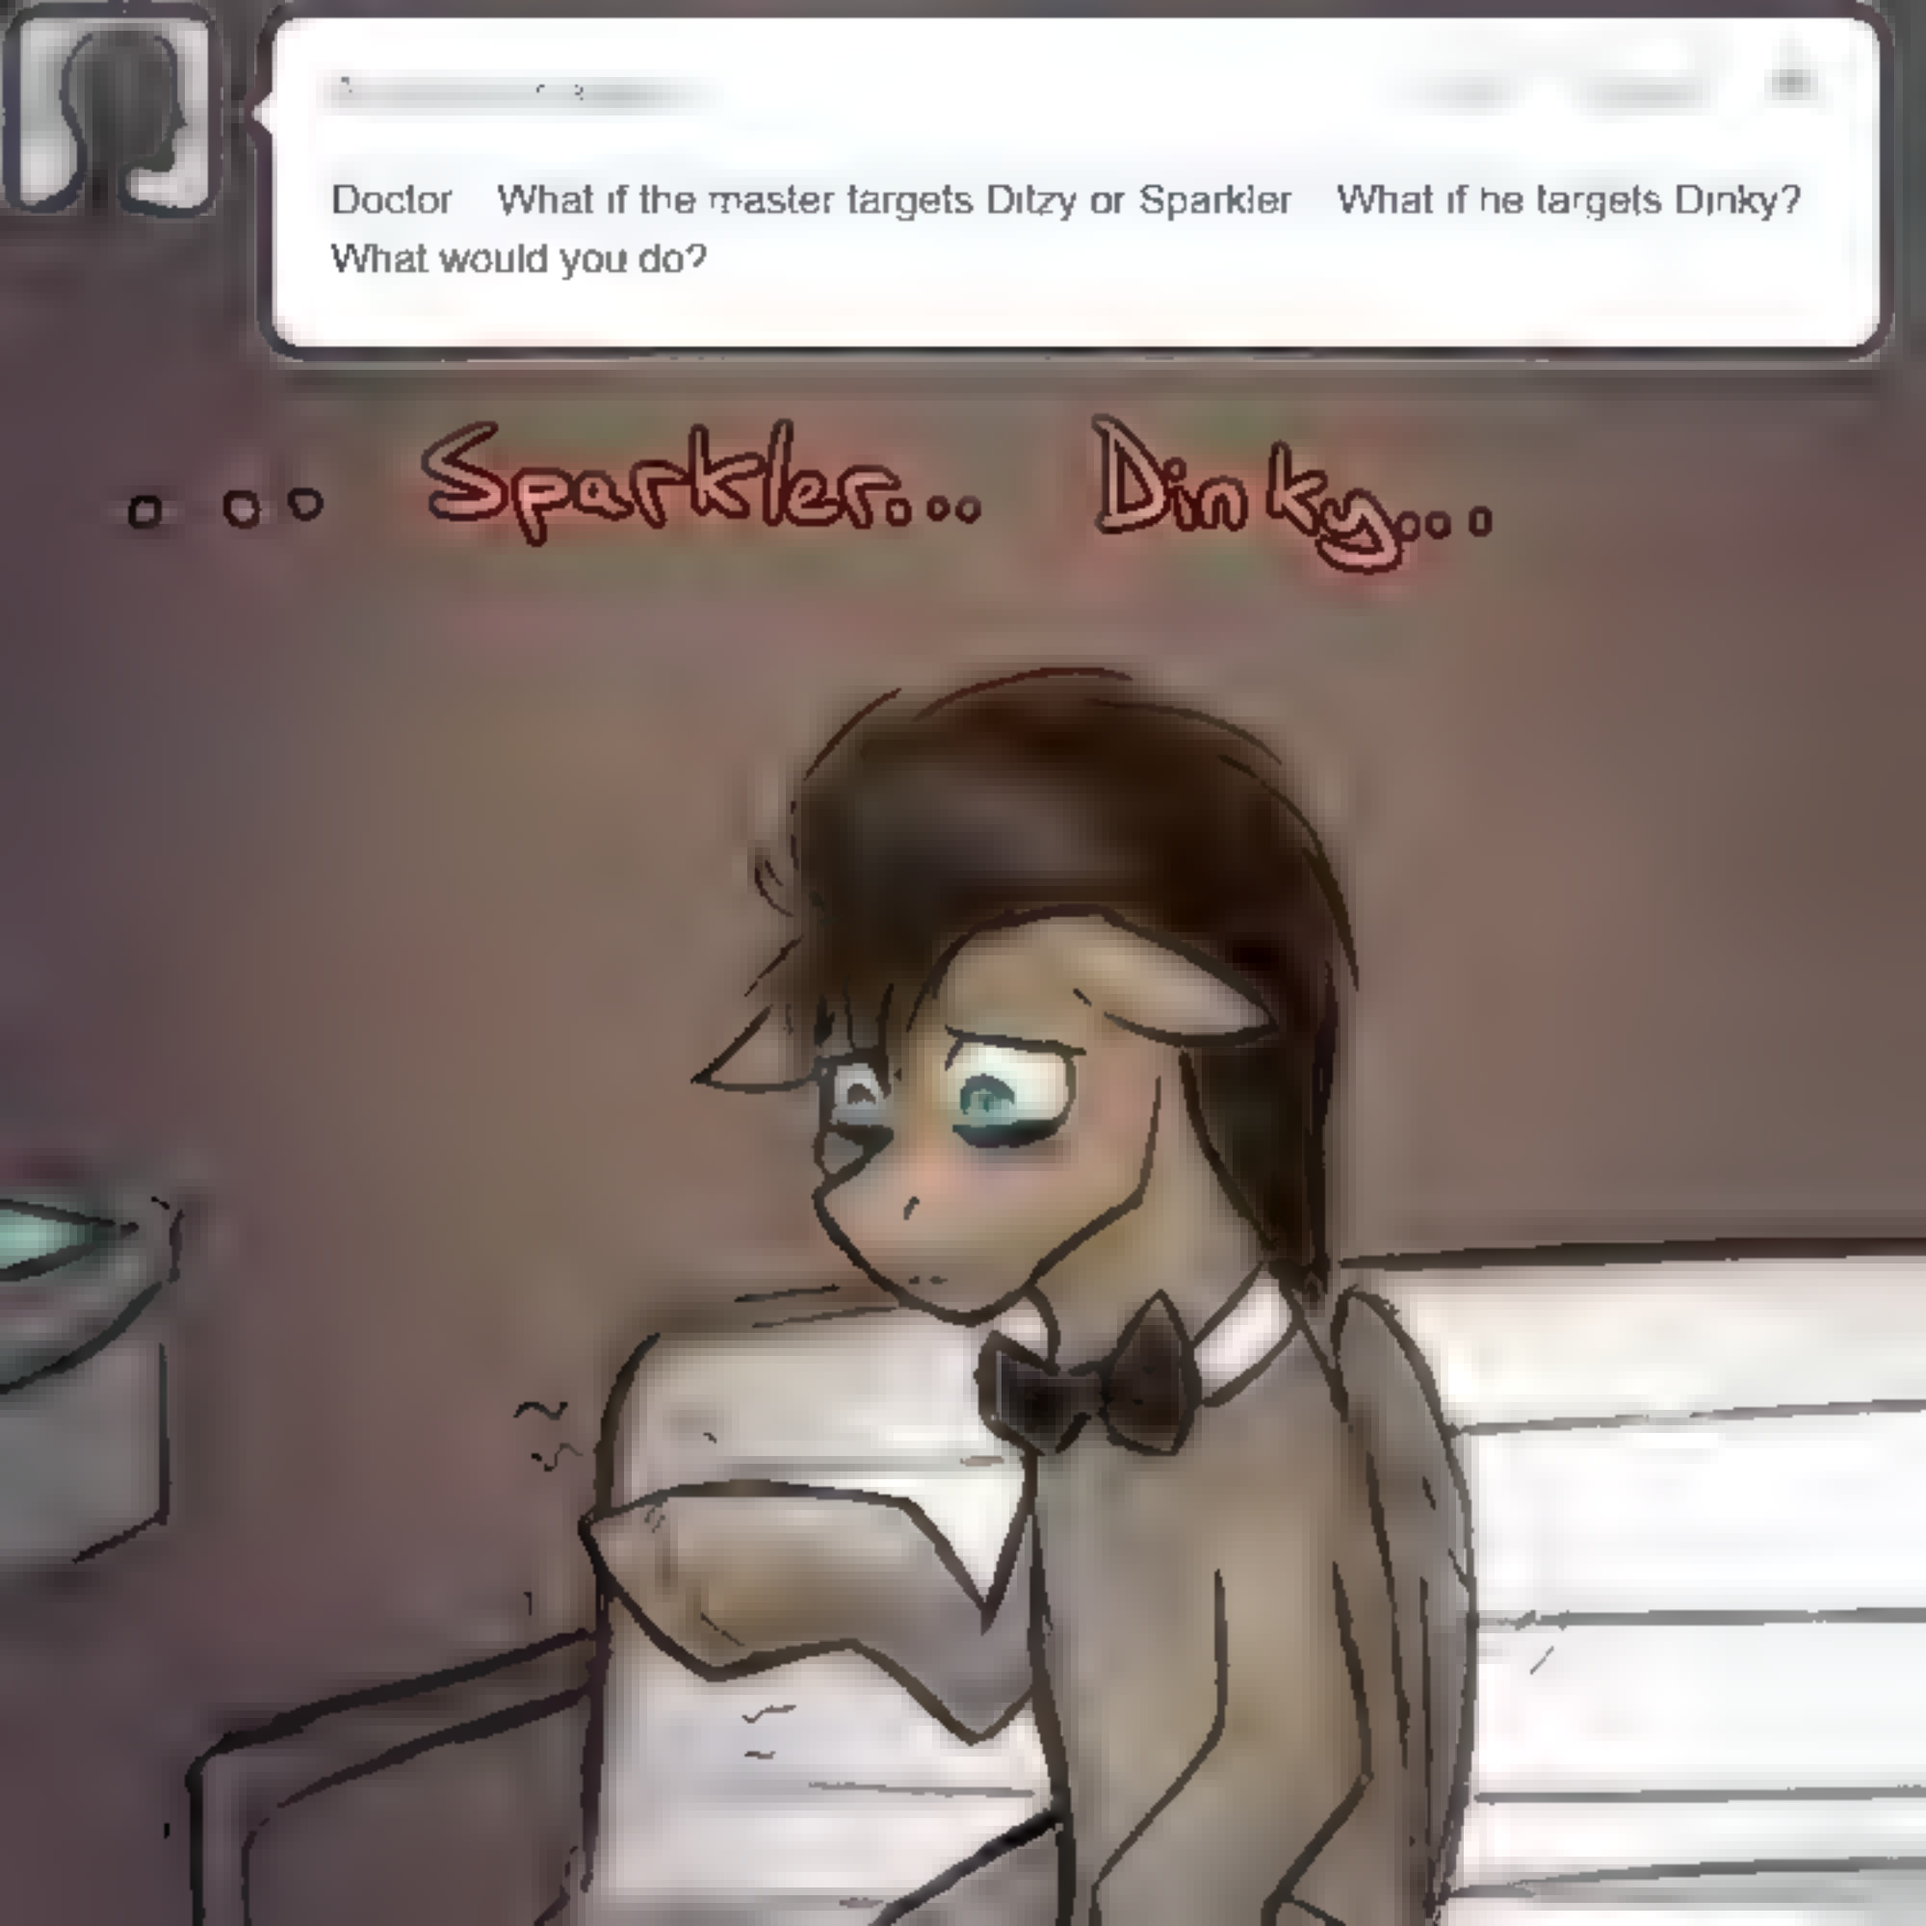
So what are you going to do if the Master makes another move against Twilight?
I...
I won't let him...
I can't.

What about Ditzy? Seriously, Doctor? How dare you! HOW DARE YOU!
What about Derpy?
WHOA WHOA WHOA WHAT ABOUT DERPY?!

What about her...?

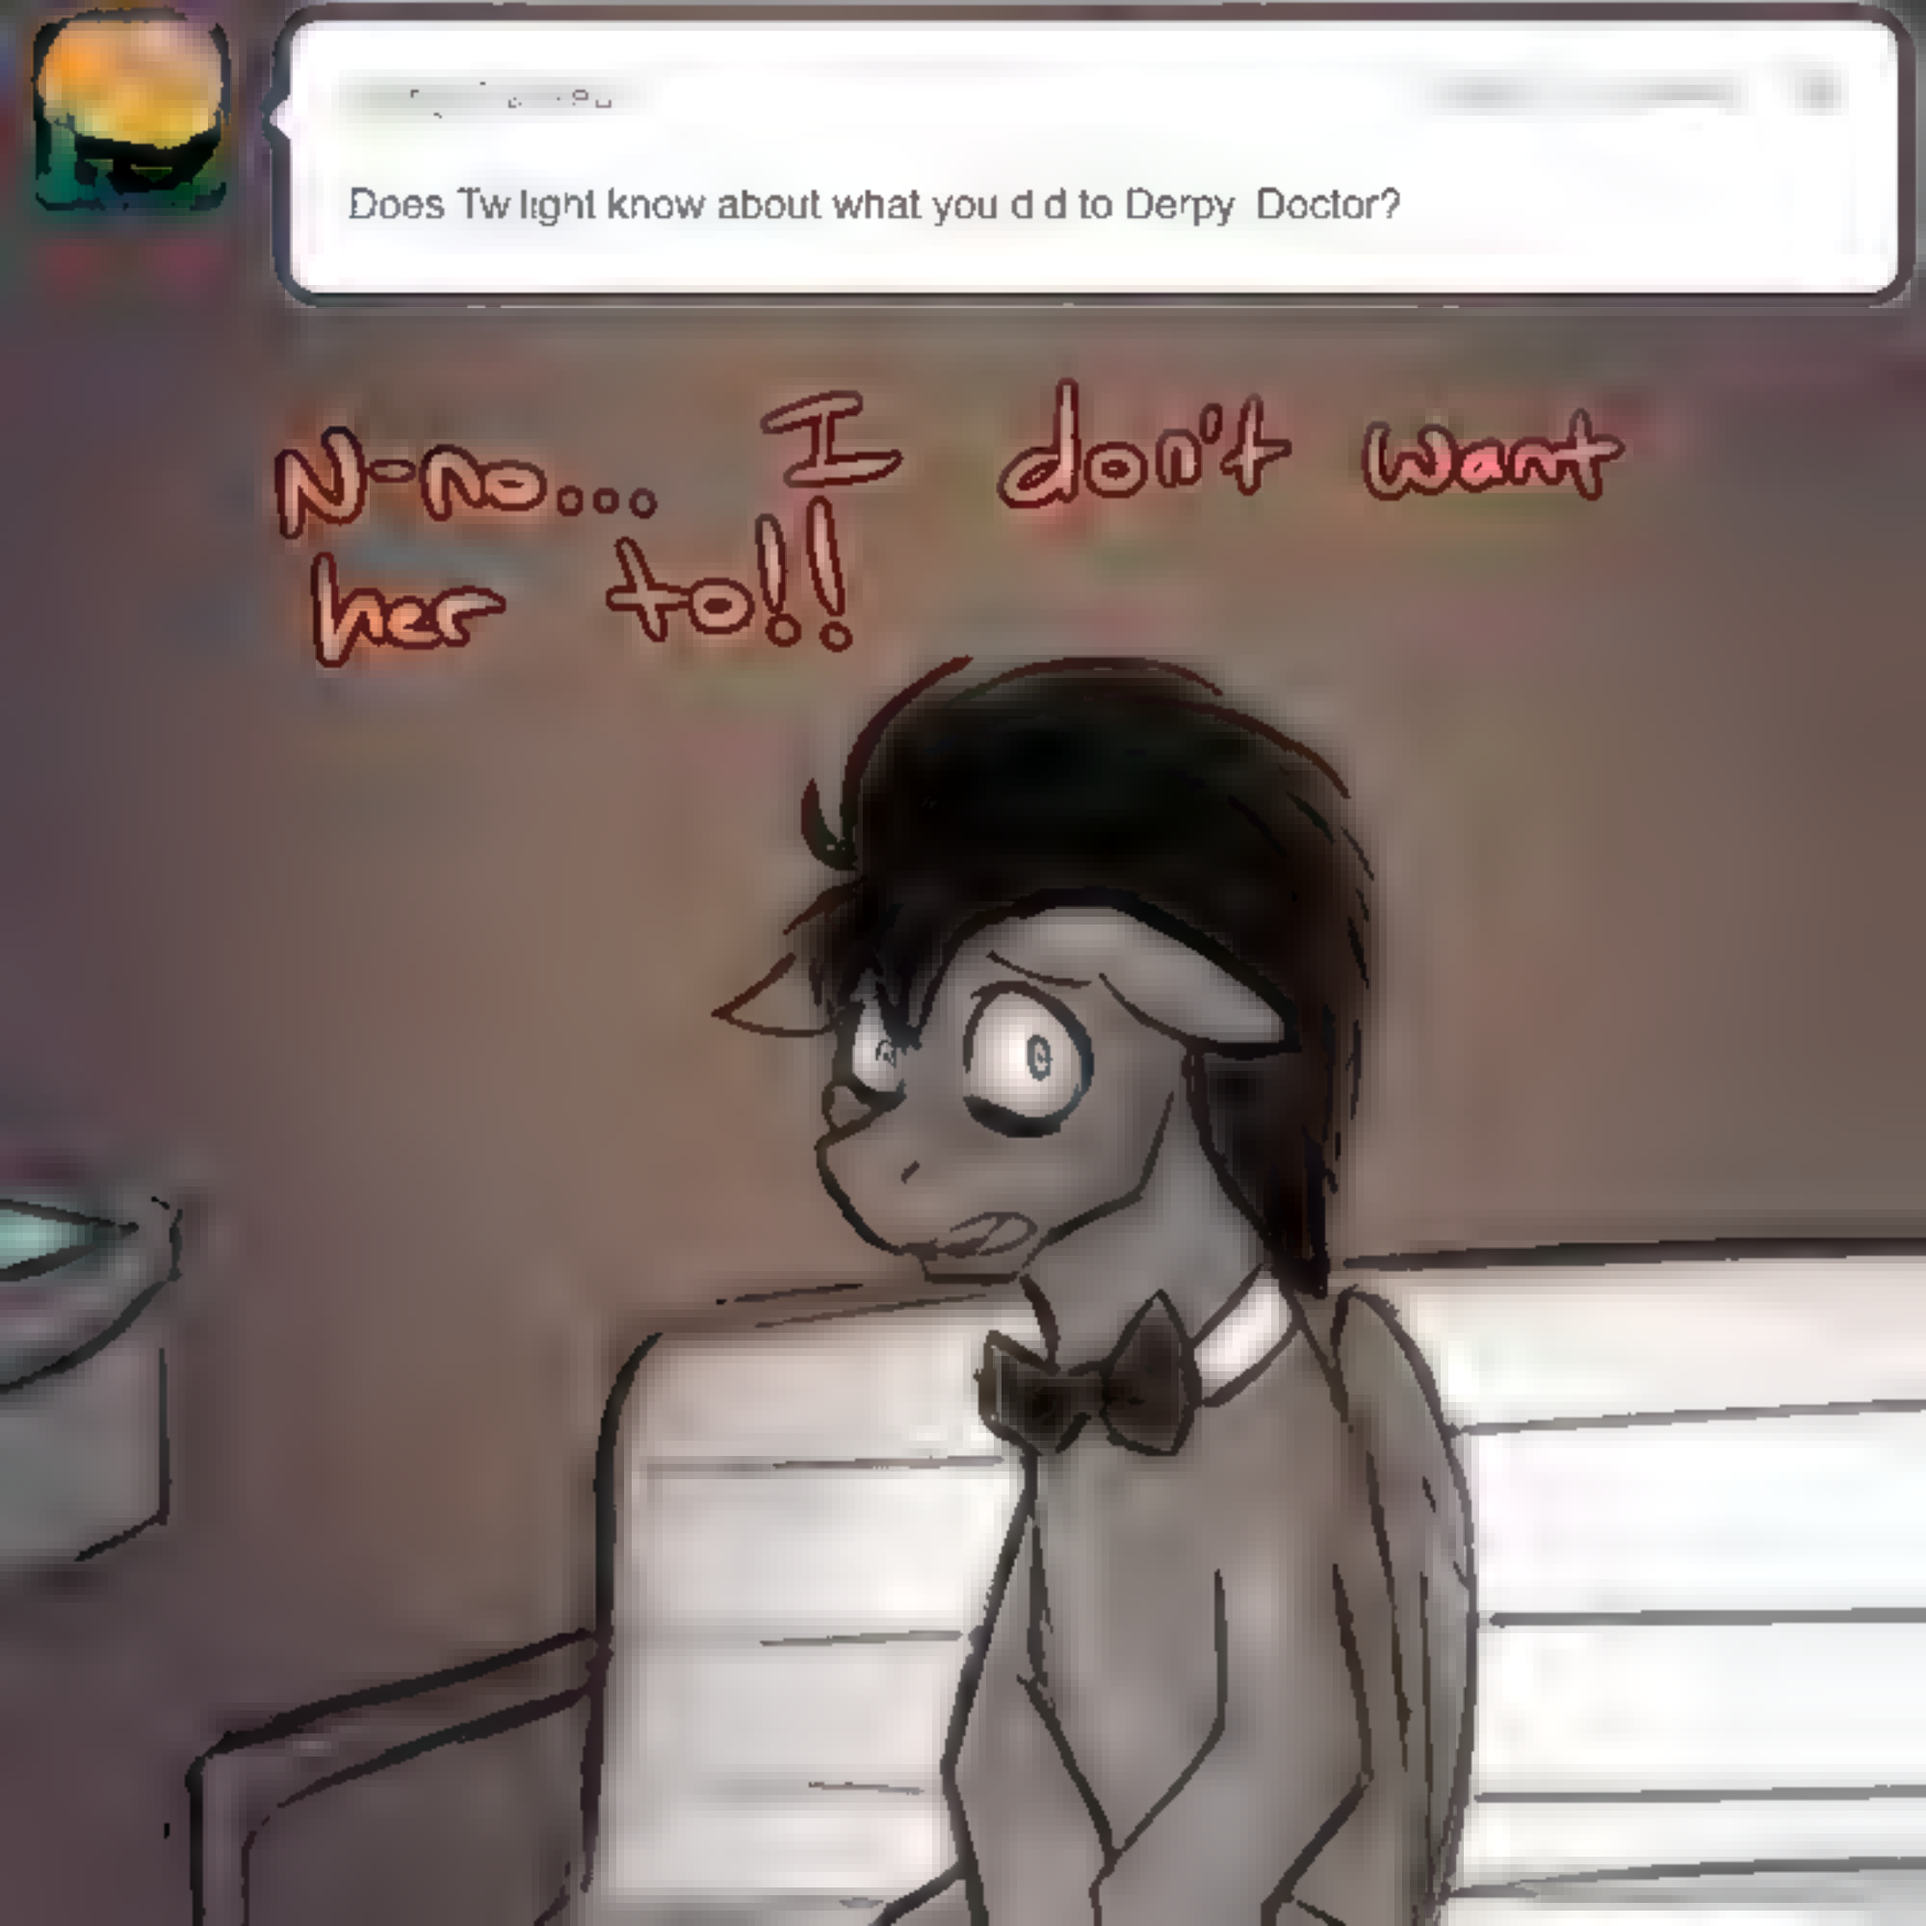
What about Derpy, Doctor? Have you abandoned her? You accuse her of abandoning you but yet you hurt her
Maybe if you Morons Would stop bringing her up she Wouldnt get hurt so Much! Ever think of that?!

have you heard from derpy/d tzy doo or the kids lately?
obviously not! "Derpy" this, "Ditzy" that, blah blah whine, I'm sick of it!!
Just let it go, let her fade from my life already!!



Doctor What if the master targets Ditzy or Sparkler What if he targets Dinky? What would you do?
. . . Sparkler... Dinky...

...He wouldn't go after something I don't care about.



Does Twilight know about what you did to Derpy Doctor?
N-no... I don't want her to!!

Are you worried Twilight is going to start seeing you differently?
If she knew I was such a monster... she'd be afraid of me... she would hate me so much...!

How do we know you wont do the same thing to Twilight as you did to Ditzy? What if you just throw her out like yesterday's garbage? Knowing you
No, not Twilight! Never Twilight! She understands me- She would never-- A-And I could never because I lo--

I... I don't Know...
I just don't...

You love Ditzy, Doctor. It's painfully obvious watching you deny it and causing her pain every waking moment. Please go talk to her. Show her you're sorry. You know she didn't do anything wrong but you're being too stubborn to acknowledge it. The TARDIS' heart must have shown you that

...Shut up... Just shut up... Please... my hearts can't take this...

wait you said heartS do you have more than one heart? o O
Yes, you heard right. I have two hearts beating in my chest... And right now...
Theyre breaking.

Your hurting hearts are a good thing doctor. It means there is still emotions like compass on and empathy within you.
Hmph...
obviously...

You love Twilight It's Obvious But you also love Ditzy I am right no?
Doctor, I think we all saw that, you talking like you care about Sparkler and Dinky Its so obvious you have feelings for Ditzy AND Twilight
o o o o
I don't.. Care about Ditzy any More..

Doctor, Listen You aren't going to want to hear this but I don't care You made Dinky hate you She doesn't call you dad, or papa, or anything I hope you're happy

...Good.. The more she hates me the less I have to worry about.

So you admit that what you did to Derpy was horrible? There may be hope for you yet

I admit to being a Monster, yes...

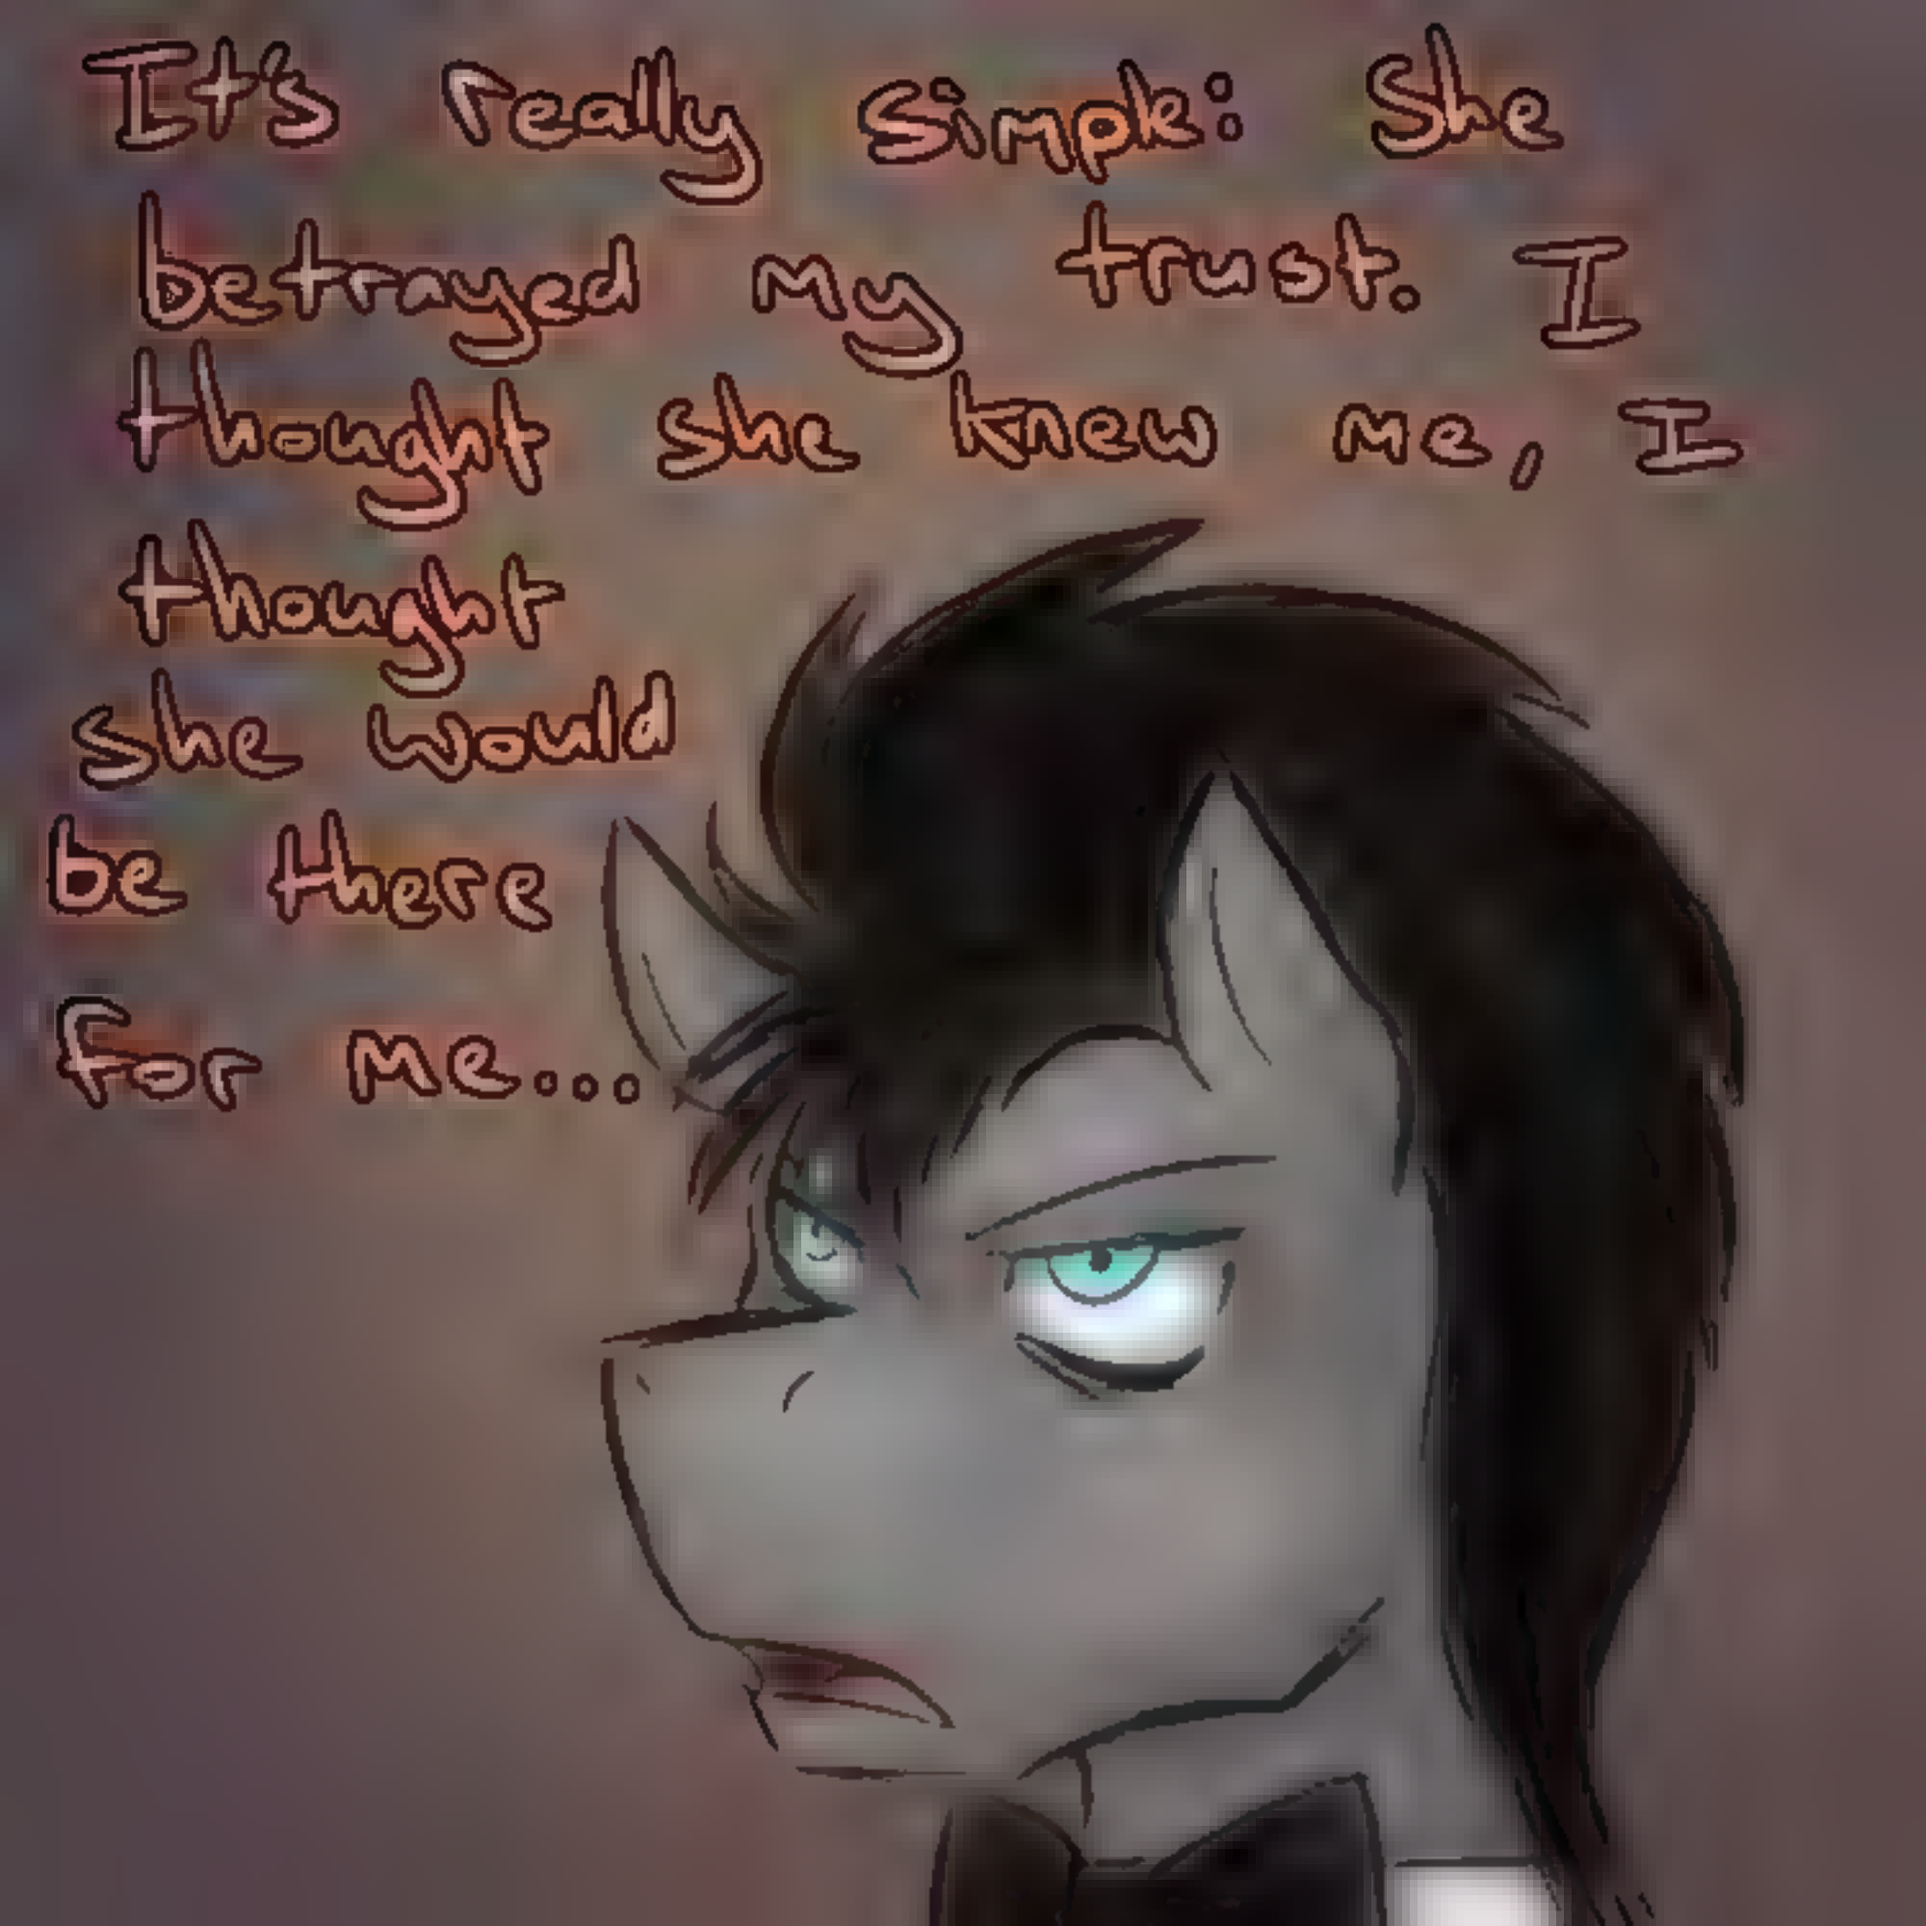
But I never said she didn't deserve it.

Quick question Doc You say the Master wouldnt go after something you DONT care about So would that mean by not caring for Derpy Dinky or Sparkler you are somehow protecting them?
O O O O O

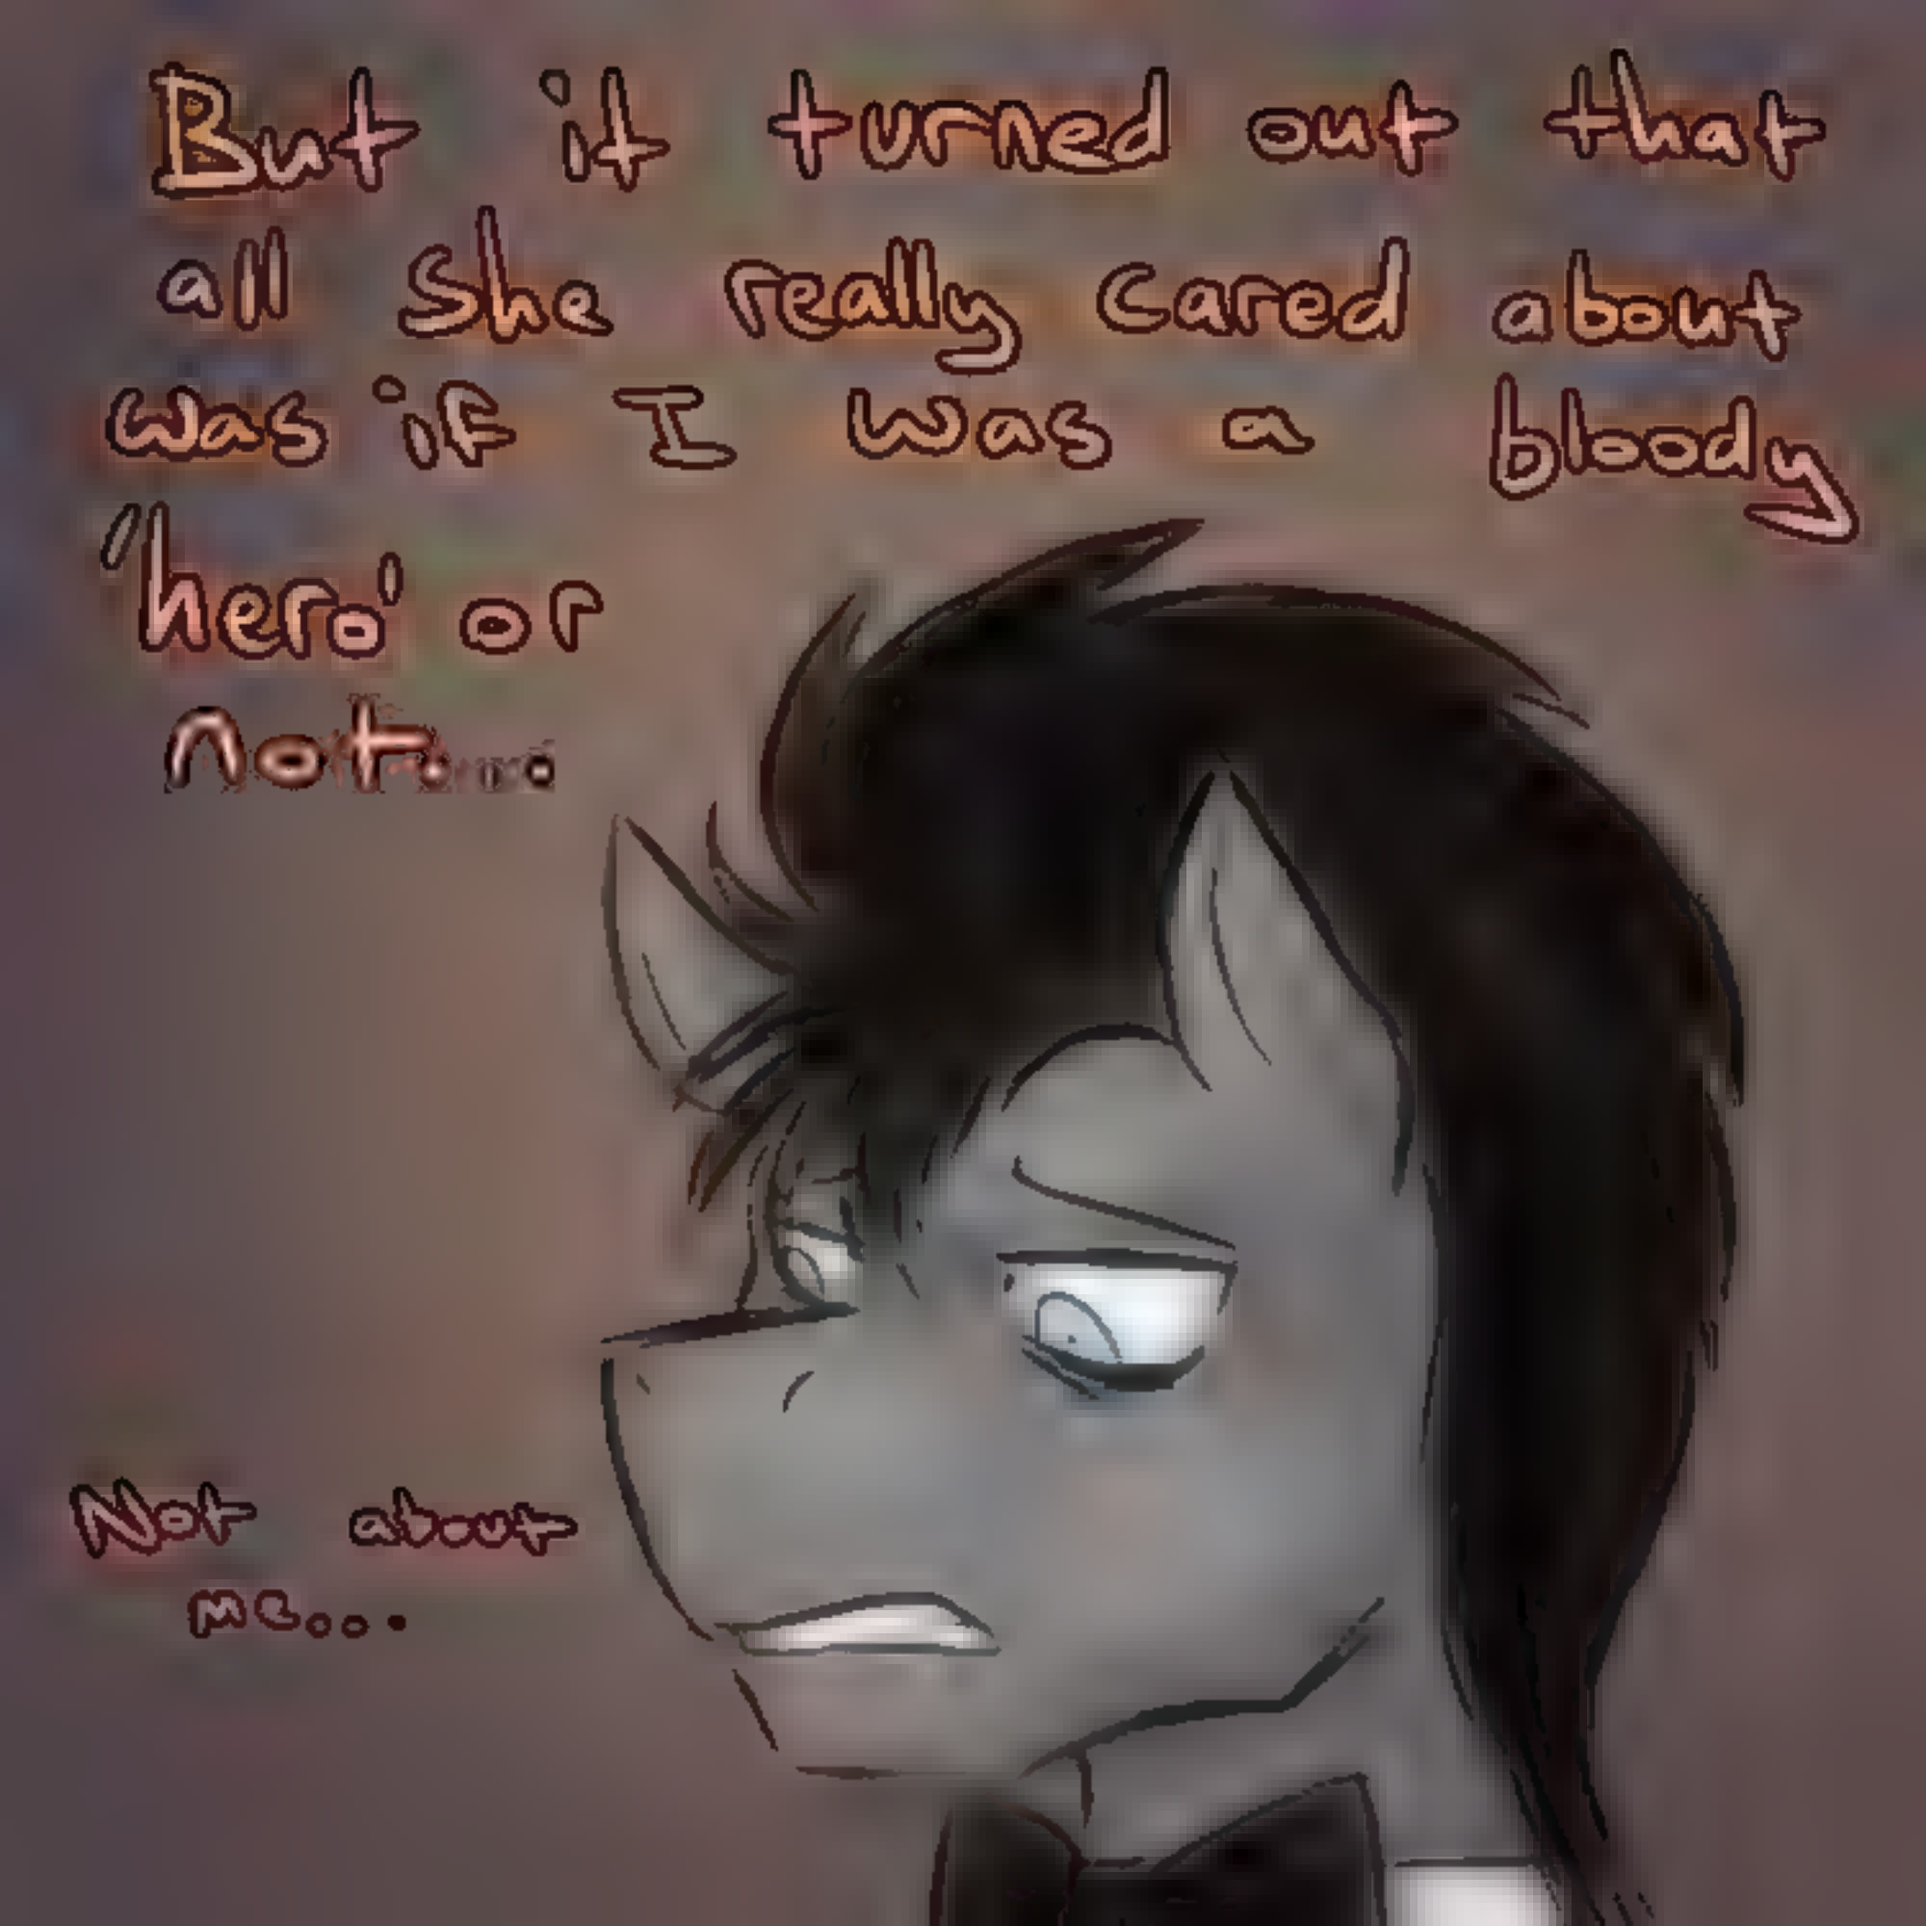
Doctor just go see her Make things right with her Doctor!

...I... I'm Scared to look at her...

I see whats going on Its Derpy, Doctor There is something about Derpy that is driving you down a dark path Is it because you were with her when you "Changed" You unleashed your anger on her, and now your mind s driving you down a dark road because you hurt her
What kind of stupid analysis is that?!



It's really simple: She betrayed my trust. I thought she knew me, I thought she would be there for me...



But it turned out that all she really cared about was if I was a bloody 'hero' or not.
Not about me...

If you won't approach Derpy for emotional reasons, then do it for practical reasons. She's the only other time traveler you know. Could she be unaffected by the changing timeline because of that?
...I...

...Maybe you're right...
Just a... small visit...

You care about Dinky and Sparkler, Doctor To pretend that you don't is
r diculous You gave Sparkler her name Speak ng of which, what's the story
behind that?
I...
Named her 'Amethyst Star,' but she and Miss Hooves had a hard time remembering it...

And since both gems and stars sparkle, we called her 'Sparkler' as a nickname...
They liked it.
But she'll always be Amethyst to me.

But...
I sometimes called Amethyst 'Amy' for short...
L-Little Amy...

...Amy...
I...
I'm
so
sorry...

Alright...
I'll...
check
on them.
Just
for
Sparkler's
sake...

Oh, no.
Sorry. She and the girls are staying in Fillydelphia right now. Warden said her shift's so she could recover and relax.
Oh...

W-Well
that's...
Good,
I Suppose...

Oh but look on the bright side, handsome—
E-eh...?

You have me all to yourself—♥
URK—

U-uh, look, I'm really not-

You were so
confident and

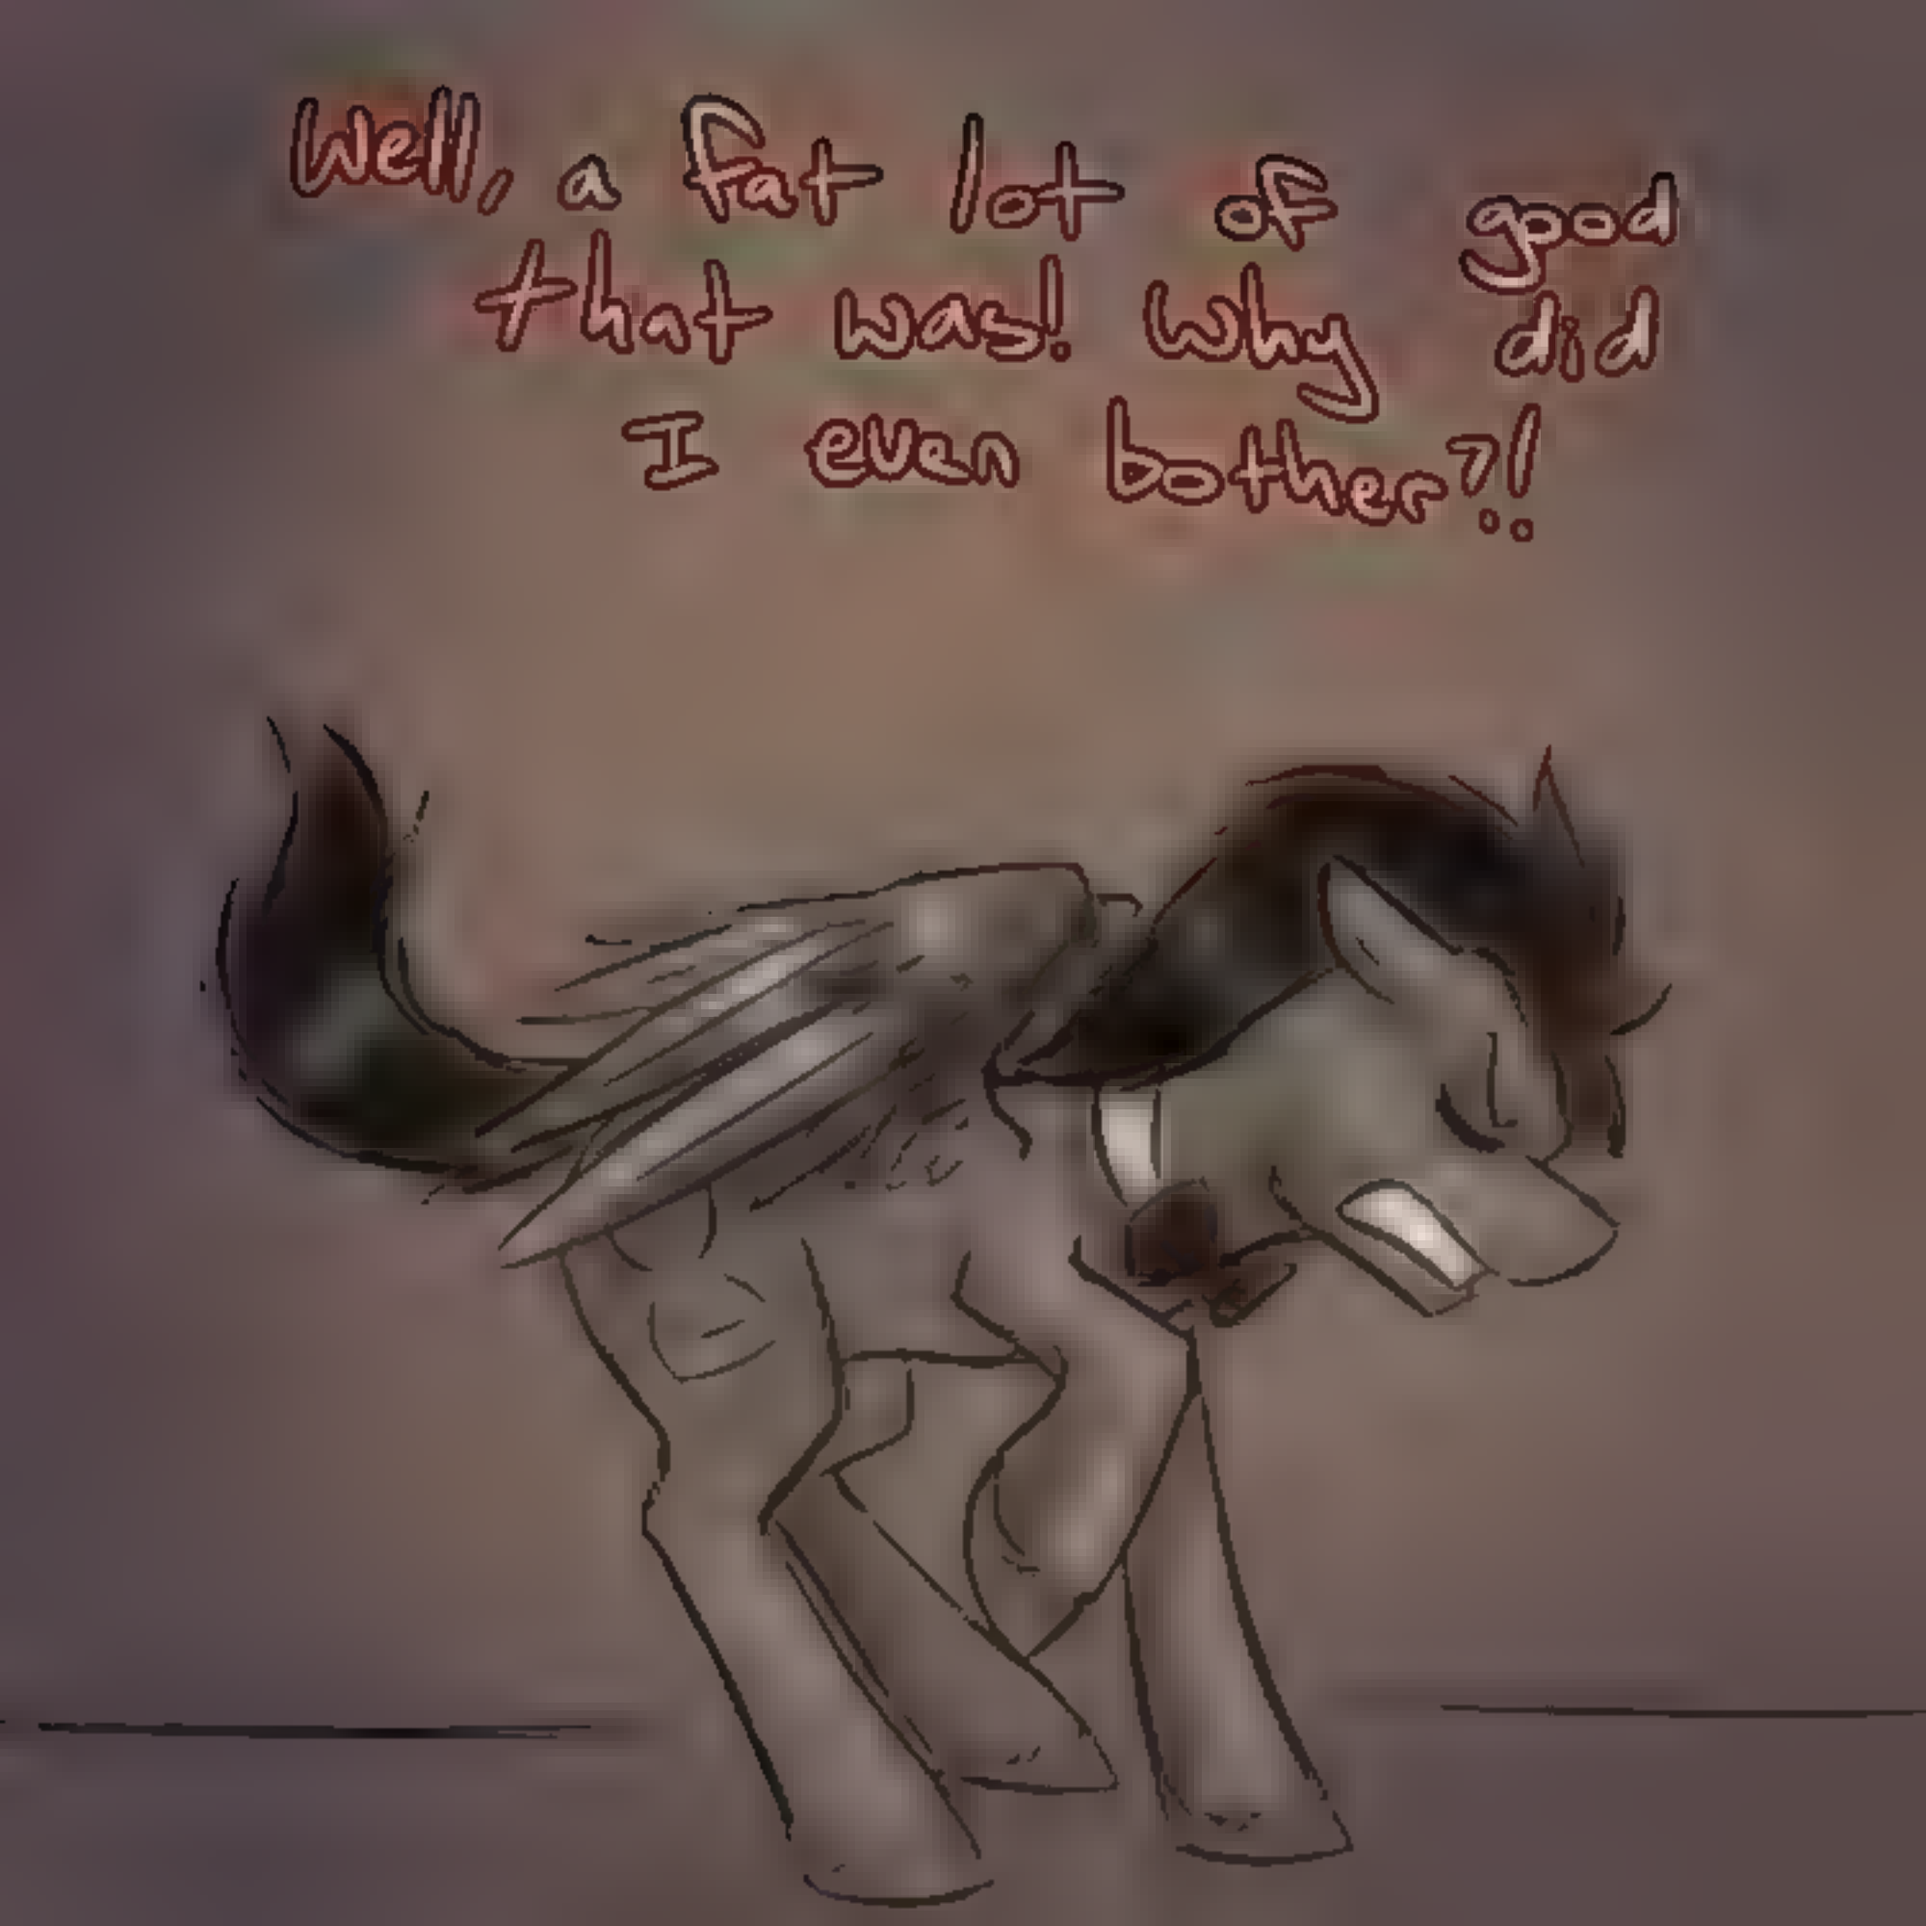
Tempting. Very. VERY tempting...
But I can't.
I... Need to go.
One Night Stand. It figures.

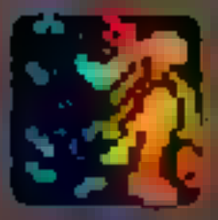
Thanat was close... Way too close...
So hard to control Myself...



Well, a fat lot of good that was! Why did I even bother?!

Forget it! Just forget it, I'm not wasting a trip to go bother with that putz!
She's clearly avoiding me now.
And who the hell could blame her?!

...I'd avoid myself too if I could...



No Doc, you need to stay here and find out what's going on before Twilight becomes the next victim

Ignore ponies who bring up Derpy and focus on the problem at hand So you can keep Twilight safe That is all that matters right now

Doctor this isn't about Derpy right now! You must help Twilight!

Pagan says Uhm, wait! Doctor you can't leave! What about these murders? You need to find out who's doing this! Focus Doctor! FOCUS!!

No Doctor! You have to go back and solve the mystery! For Twilight!

You're right, I don't have time for this drama.

So, back to-

Ah.

Get out of this town. NOW.
wh-

Don't. I know you. I know what happens when you stay too long and I've worked too hard to let you ruin these ponies' lives.
So go.

Wait, you can't just ask Me to leave when y-
I'm not asking, Theta. I'M telling.

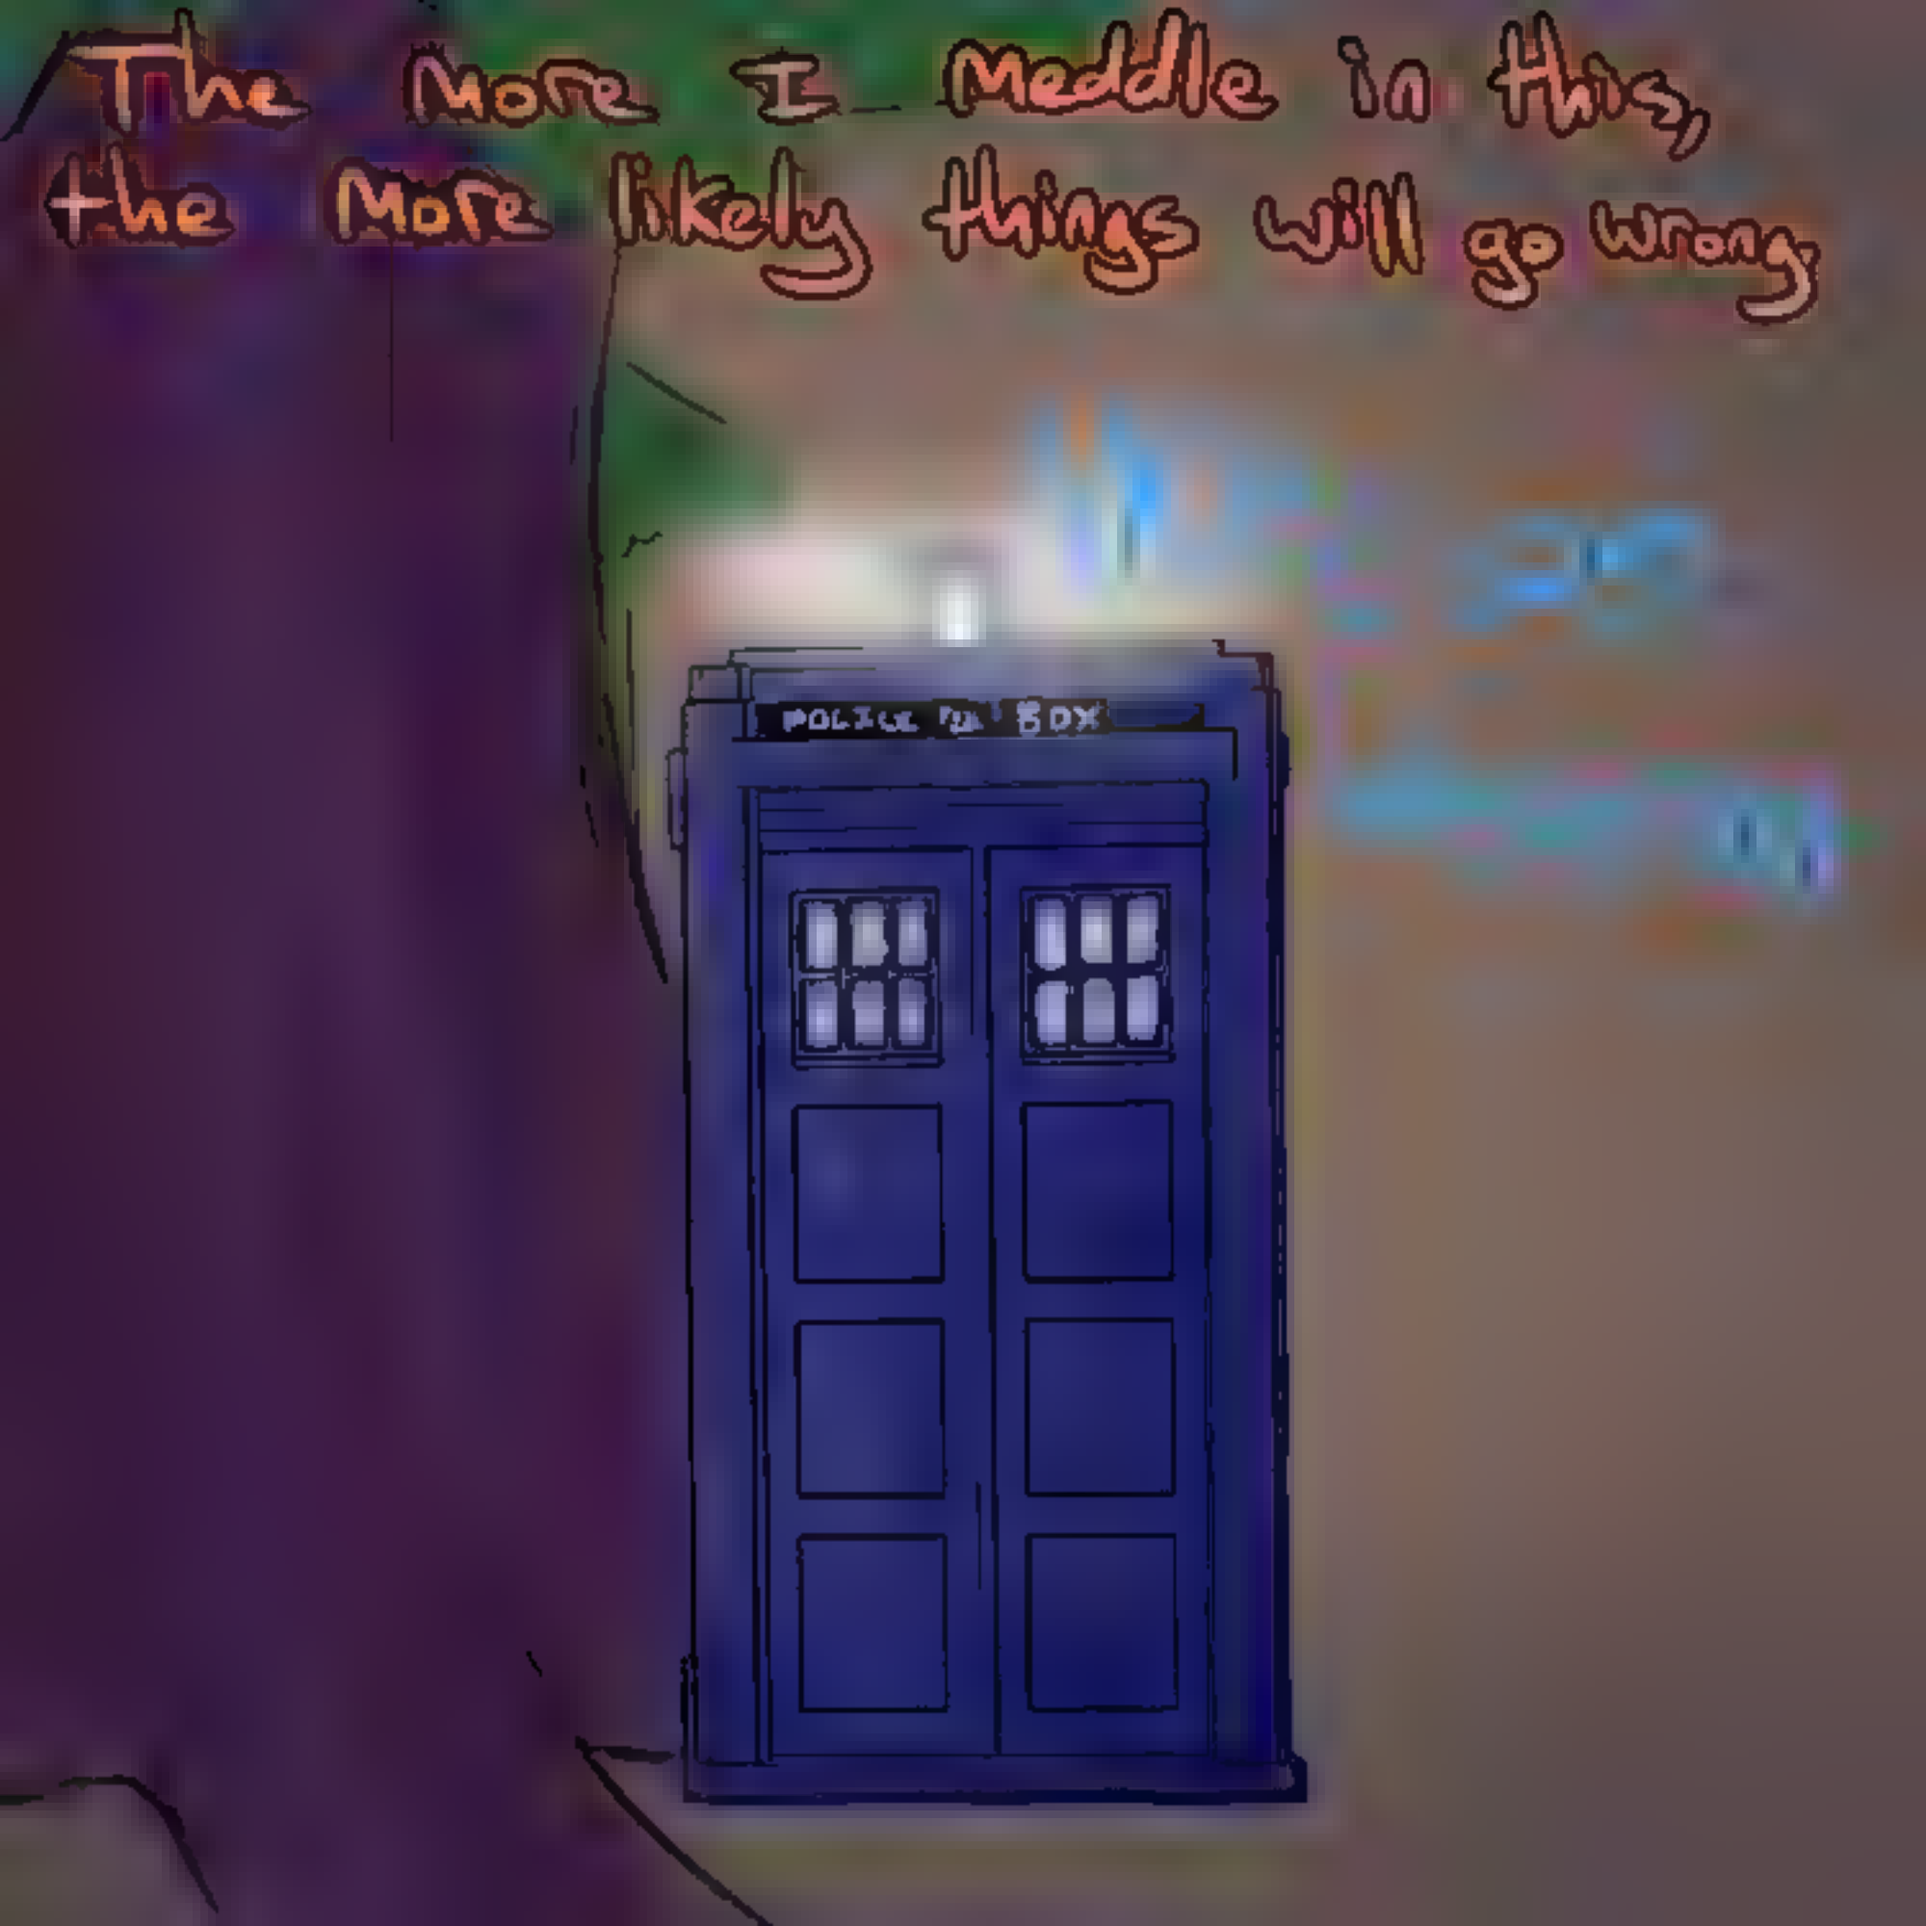
But wont you just expla-
Oh of course! The One time you SHOULD be running and you're not!

Well, not this time!
I wont let you back,
not ever again!!
LEAVE!!

Oh doctor you have an awful lot of running to do
POLICE PUBLIC BOX

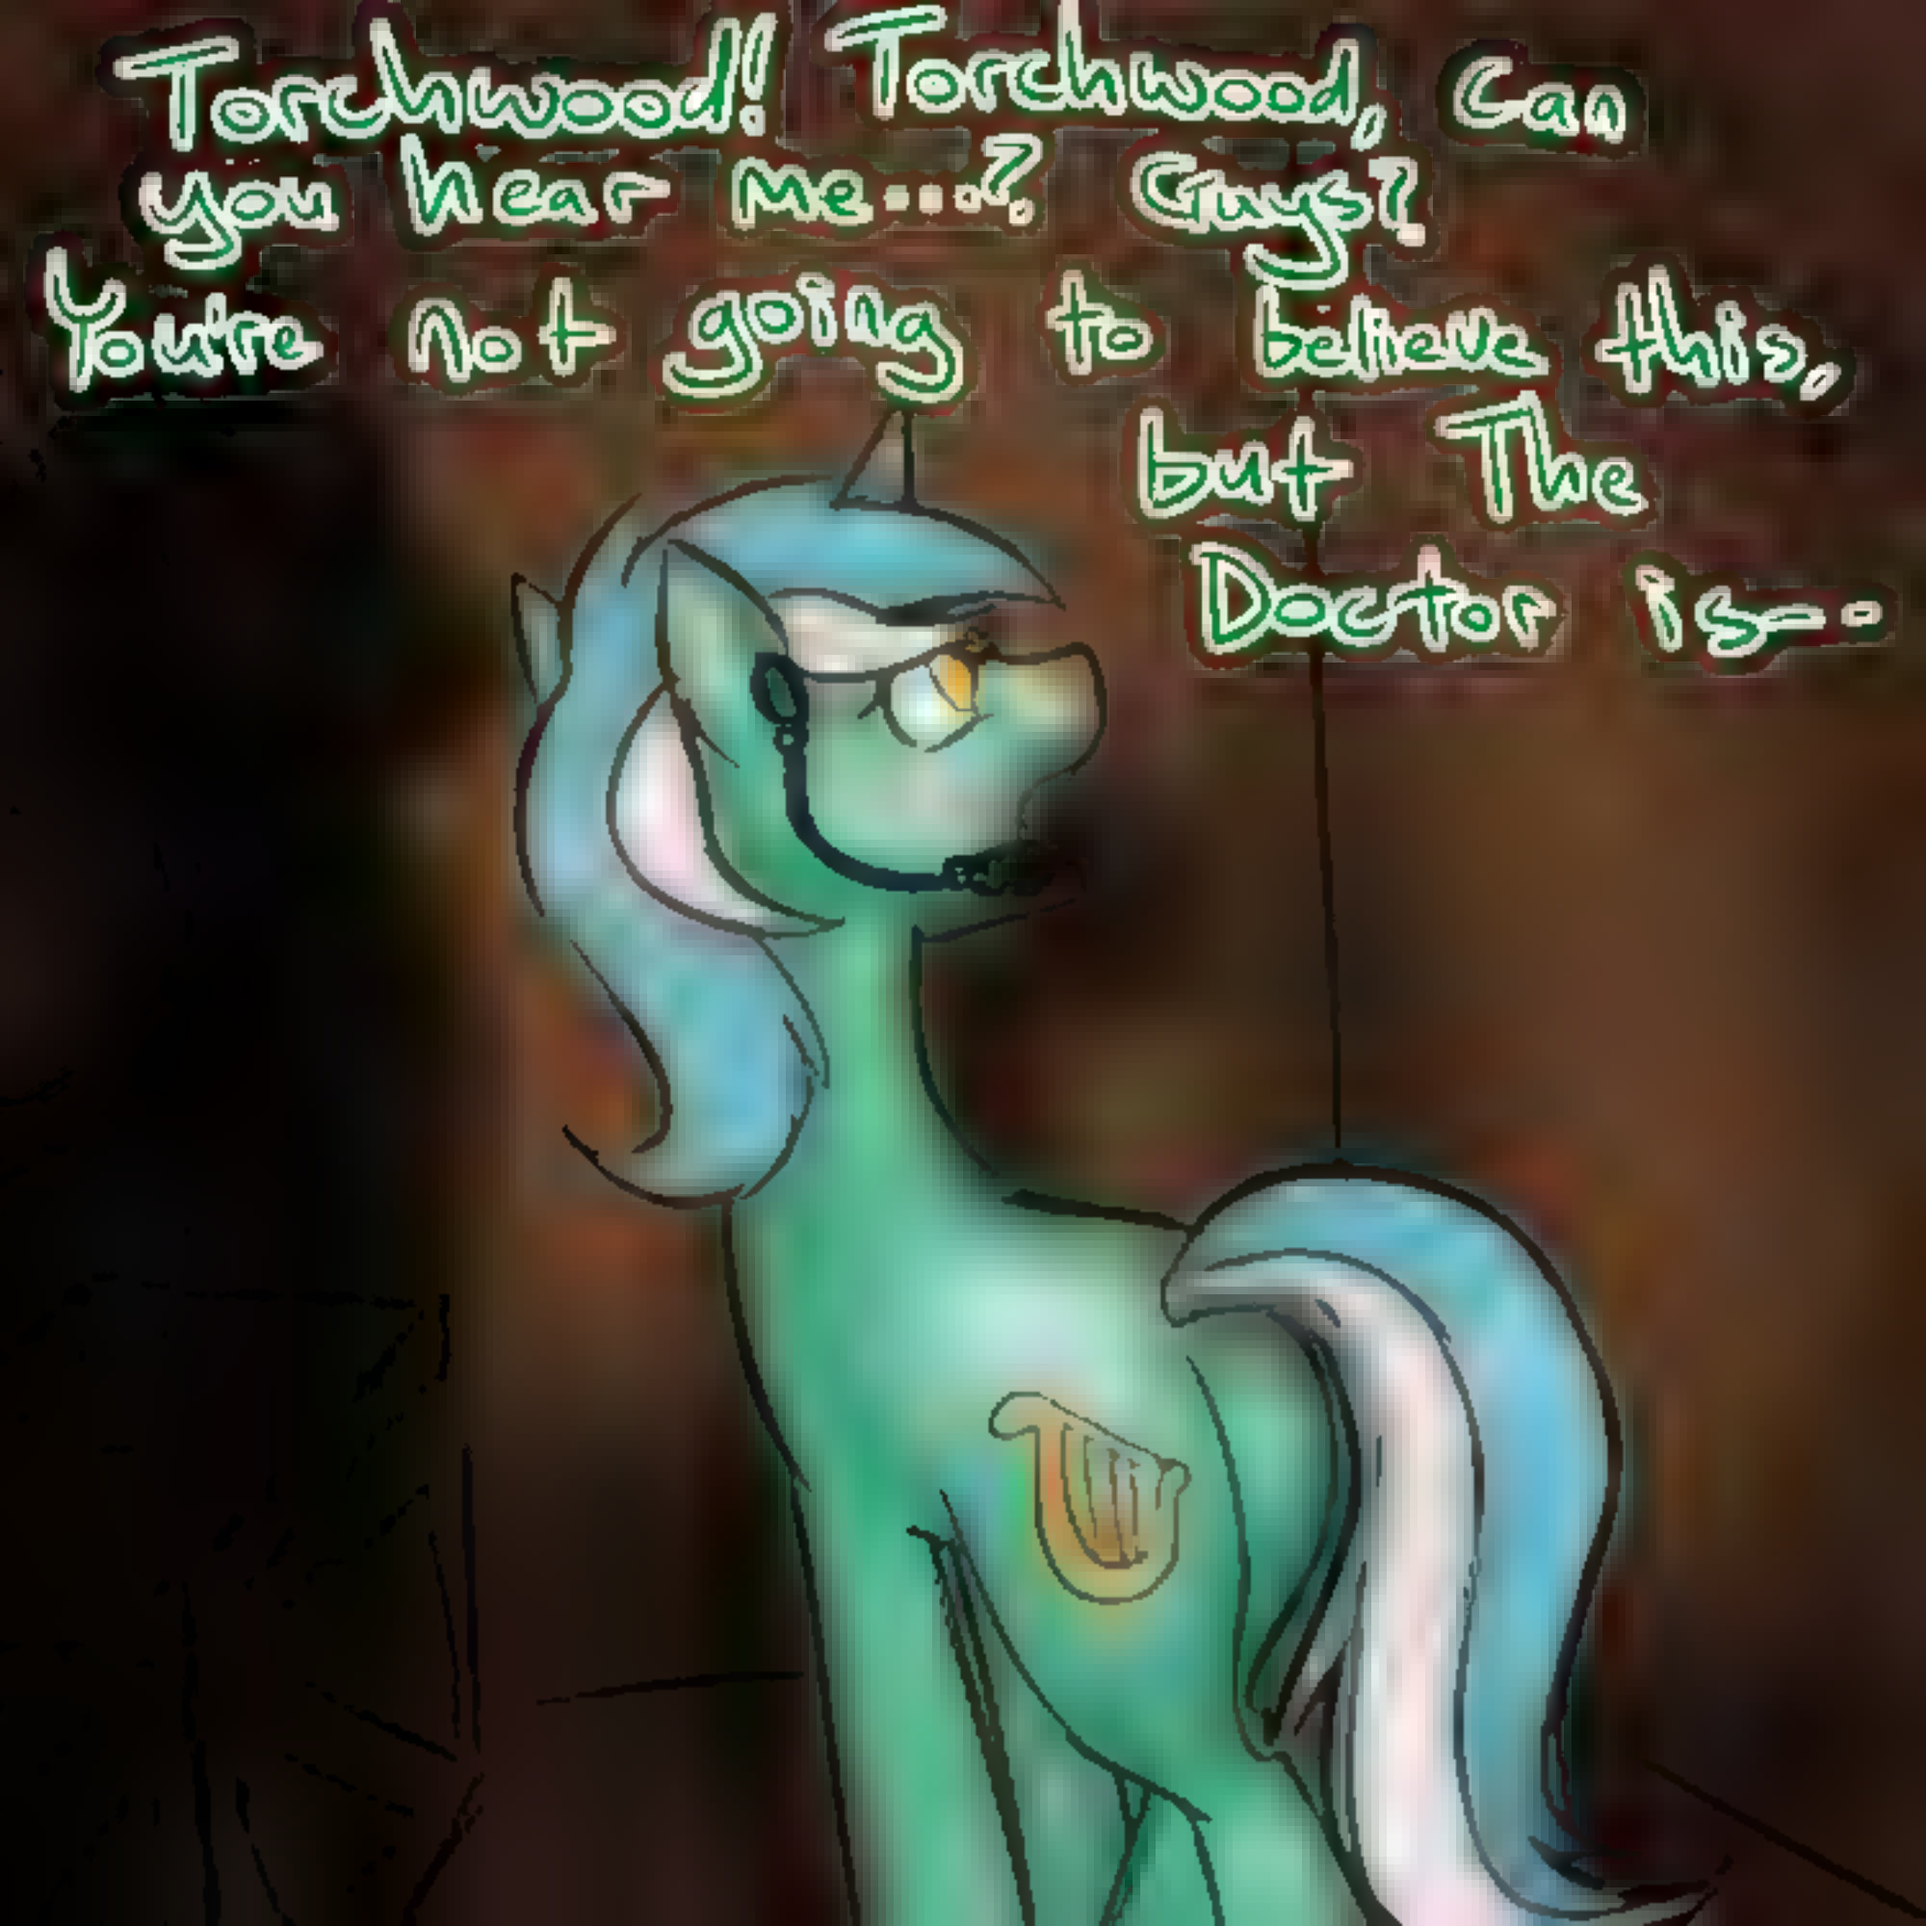
Who was that And why did you buck.e so easily?
So to address the elephant in the room when the world was that?
Doctor, who was that exactly?
Patience. I'll explain later.

In a way, she's right though...
So I guess it's time to hide back in the TARDIS like you always do?



The More I Meddle in this,
the More likely things will go wrong.
POLICE BOX

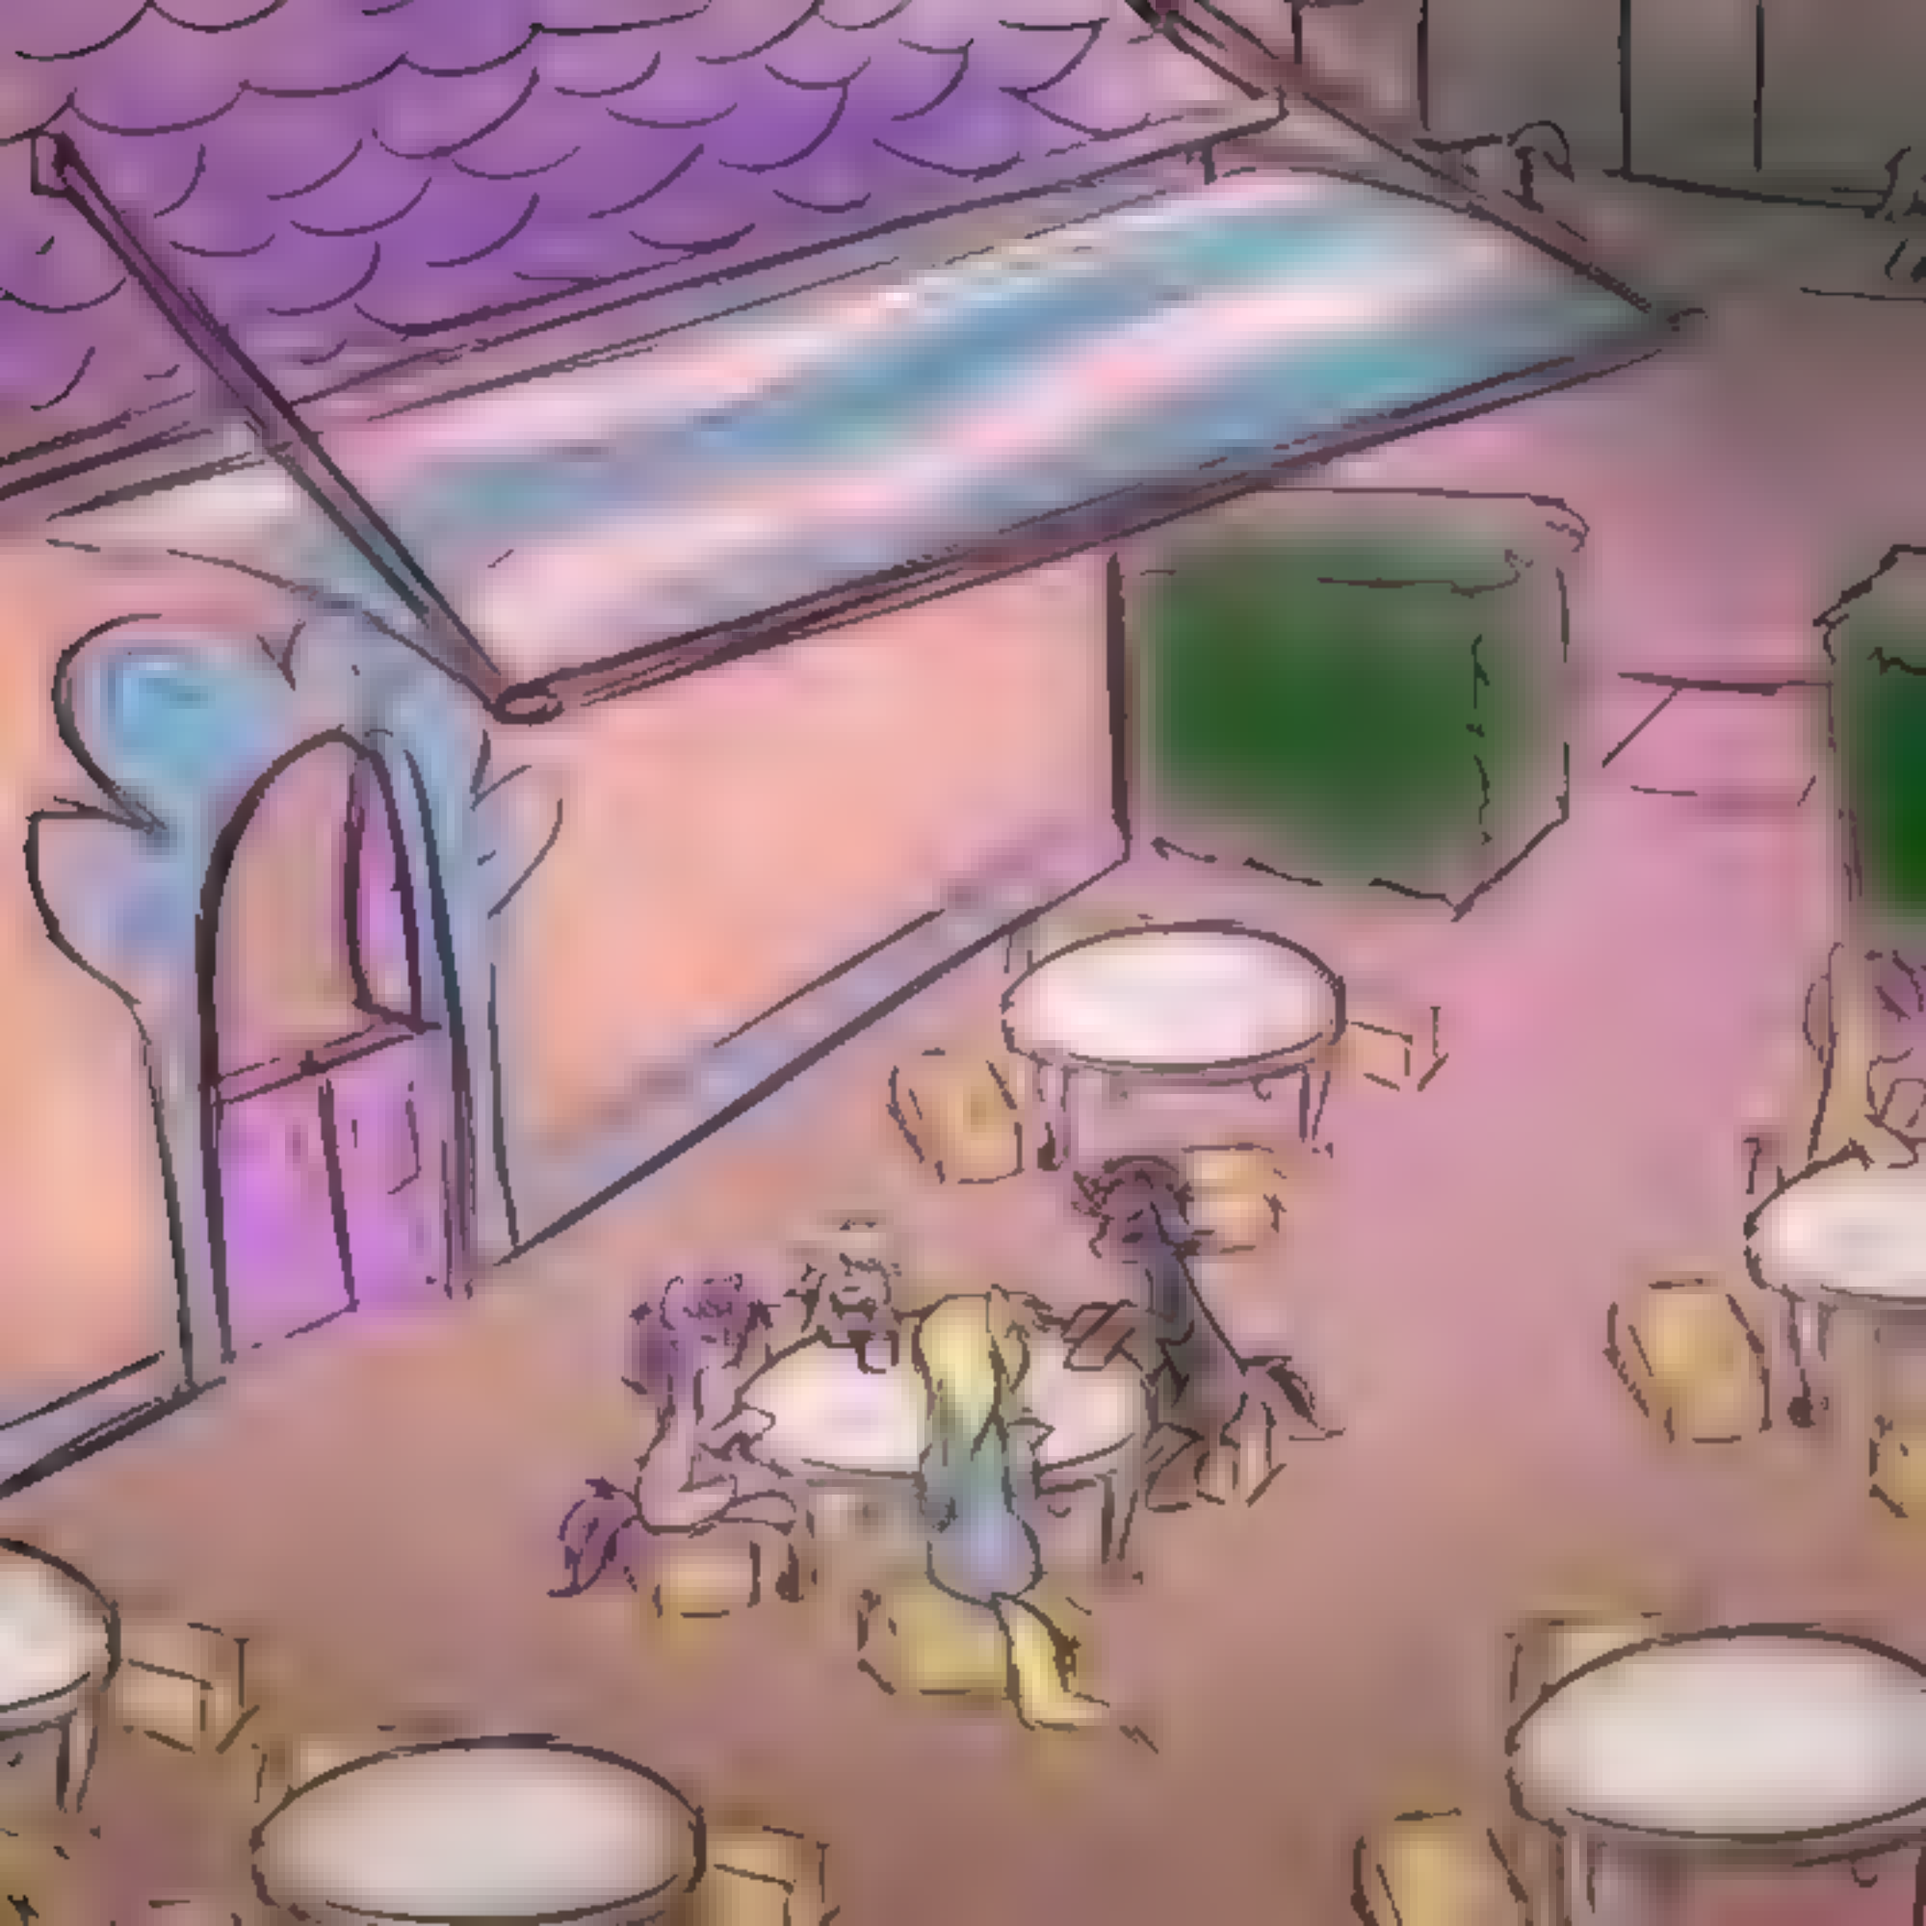
So I should leave.
Get Out of this town maybe you should even get out of th s p anet as wel , this technicolor pony we rdos world is just causing trouble to you
WRREORRR
WRREORRR



Torchwood! Torchwood, can you hear me...? Guys! You're not going to believe this, but The Doctor is-

Before I Make things worse.
Oh Merciful Celestia!!

I'm sure it's better when I'm gone.



Thank you for this, it's great to be out and about again. You're like the big brother I never had, y'know that?

It's alright, you and the girls needed to get out of Ponyville, and with My parents in town, I wanted to see them before they headed back to Fort Neighers.

Oh, oh!! If you're like Mamma's brother, that makes you 'uncle', right?!

I guess it does. Now, how about you two go get yourselves some cheesecake.
Oh, yay! Cheesecake!
...Okay.

...That's not the only reason I got you out of town.

I want you to keep an eye on those two. Something bad is going down.

With unicorns being the main targets, I can't afford to lose them in another slaughtercube incident...

Slaghtawhat?

Slaughtercube Corner? Don't you remember? One year ago, Pinkamena Diane Pie went nuts, slaughtered the Cakes, Rainbow Dash, a few others, cooked them in to her cakes and ate them?

Th-that's not funny! You shouldn't make up stories like that... Especially not ones about Ponies as nice as Pinkie!!

Wha, Derpy, I was assigned to Ponyville BECAUSE of that case. After Princess Celestia condemned her to death by decapitation, Ponyville went in to a Panic and begged for a police force.

No, you came here because Princess Celestia wanted you to relax after all you've been through... You're not making any sense, none of that stuff hap-

Wait a minute... IF you're serious, that means... The Doctor

T...Time is being altered!

I don't... Understand? What do you mean "time is being altered"? The Doctor? Him AGAIN!?

I don't know how to explain it, but if this is happening I HAVE to tell him!!

I have to find The Doctor!!

No. You can't see him again.
Wha-

Listen to me, Derpy. The last time you saw him, he was trying to hurt you! And before that, he beat you! You spent four months in the hospital. I watched you suffer through depression, and the difficult process of recovery. I WONT see him do that to you again, or do something worse.
I'll kill him first.

... I
knew it...

I know what he did was bad but. But somethings wrong with him - If I could just-

Mr. Script!
Mr. Script!
?!

Oh! Written Script is here! What a Pleasant surprise!
Wait, who?

oh, yeah, you haven't met him yet. He's been foalsitting the girls when you weren't available. He's really sweet.

Hold on a bit I wanna go talk to him, Maybe introduce him to you!
"Who what now?

Excuse Me.
?

Tesseract Comet? I'm going to need you to come with me.
!?!?
How-

Who the hell-

We're
Torchwood.

SIUU

Ugh... I can never catch a bloody break.

Are you still just going to stay in the TARDIS waiting for Twilight to call?
Honestly, it's all I can and should be doing. None of this "meddling" business.

Doctor can you fix it? Couldn't you prevent the Slaughtercube Corner event from ever happening? In a subtle way, I mean Like getting Pinkie on some heavy psychotropic drugs before it happened?
I can't...
That moment was anchored in history. If I even tried to touch it, it could rip apart the universe.

That unicorn guard I think his name was Warden? He seems to know you or about you Certainly seems to have a grudge against you Any idea why?
So you met Warden, Derpy's protector/guardian How did it fee seeing him again? Also who drew that symbol in blood on Twilight's door?
Yes, Warden... One of her friends. Always hated me, even before I...

. . . Before she left.

Doctor If I may be so bold, how long do you plan to keep that dreadful matter with your previous compan on from Twilight? It would be far better for her to hear it from you first than for that impolit c Warden fellow She needs somepony to trust and rely upon right now And if she loses that trust in you we l l shudder to think
"Trust the Doctor." The worst advice you'll ever hear. I just can't tell her. I can't.

"gives you some Jammy Dodgers" For you You look like you really need these right now
Oh! I havn't had these in ages!!
Christmas came early!!

Looks like the old doctor attitude is showing through again
Oh piss off, I can enjoy biscuits if I want.

Doctor I don't know what to tell you Al you've done to help, even like this, and you don't get any thanks, aside from Ms Sparkle Tis not you that needs to change, I think it's everypony else
Finally, Someone who sees My point.

Just
When
I was
about to
do something.
SHE had to
show up. didn't
she?

Was that a time ord? Thought it was just you and good old drummer boy left
Apparently not. And of all Time Lords... Her. It just had to be her.

Well Doctor care to explain or are you clue ess to what she's talking about
Oh. I know
Very well
What she's
talking about.
Anyone who
knows me
long enough
would know that
nothing but Pain
and destruction
follows Me.

You're just going to let her talk to you like that?
She has every right to, believe me.
She's right. I can't argue with her.

Now wait just a second SHE worked too hard to et YOU ruin these pon es lives?! It's a b t late for that, .sn't it? The r lives are already ruined! What's SHE doing to make things better?! Your marshmallow may be the next one dead if you don't fix th s
Just WHO do you think ruined them in the first place?! Chasing me out was the best option!!

-Sigh-
Alright...
Calm...
Relax...
Phew...

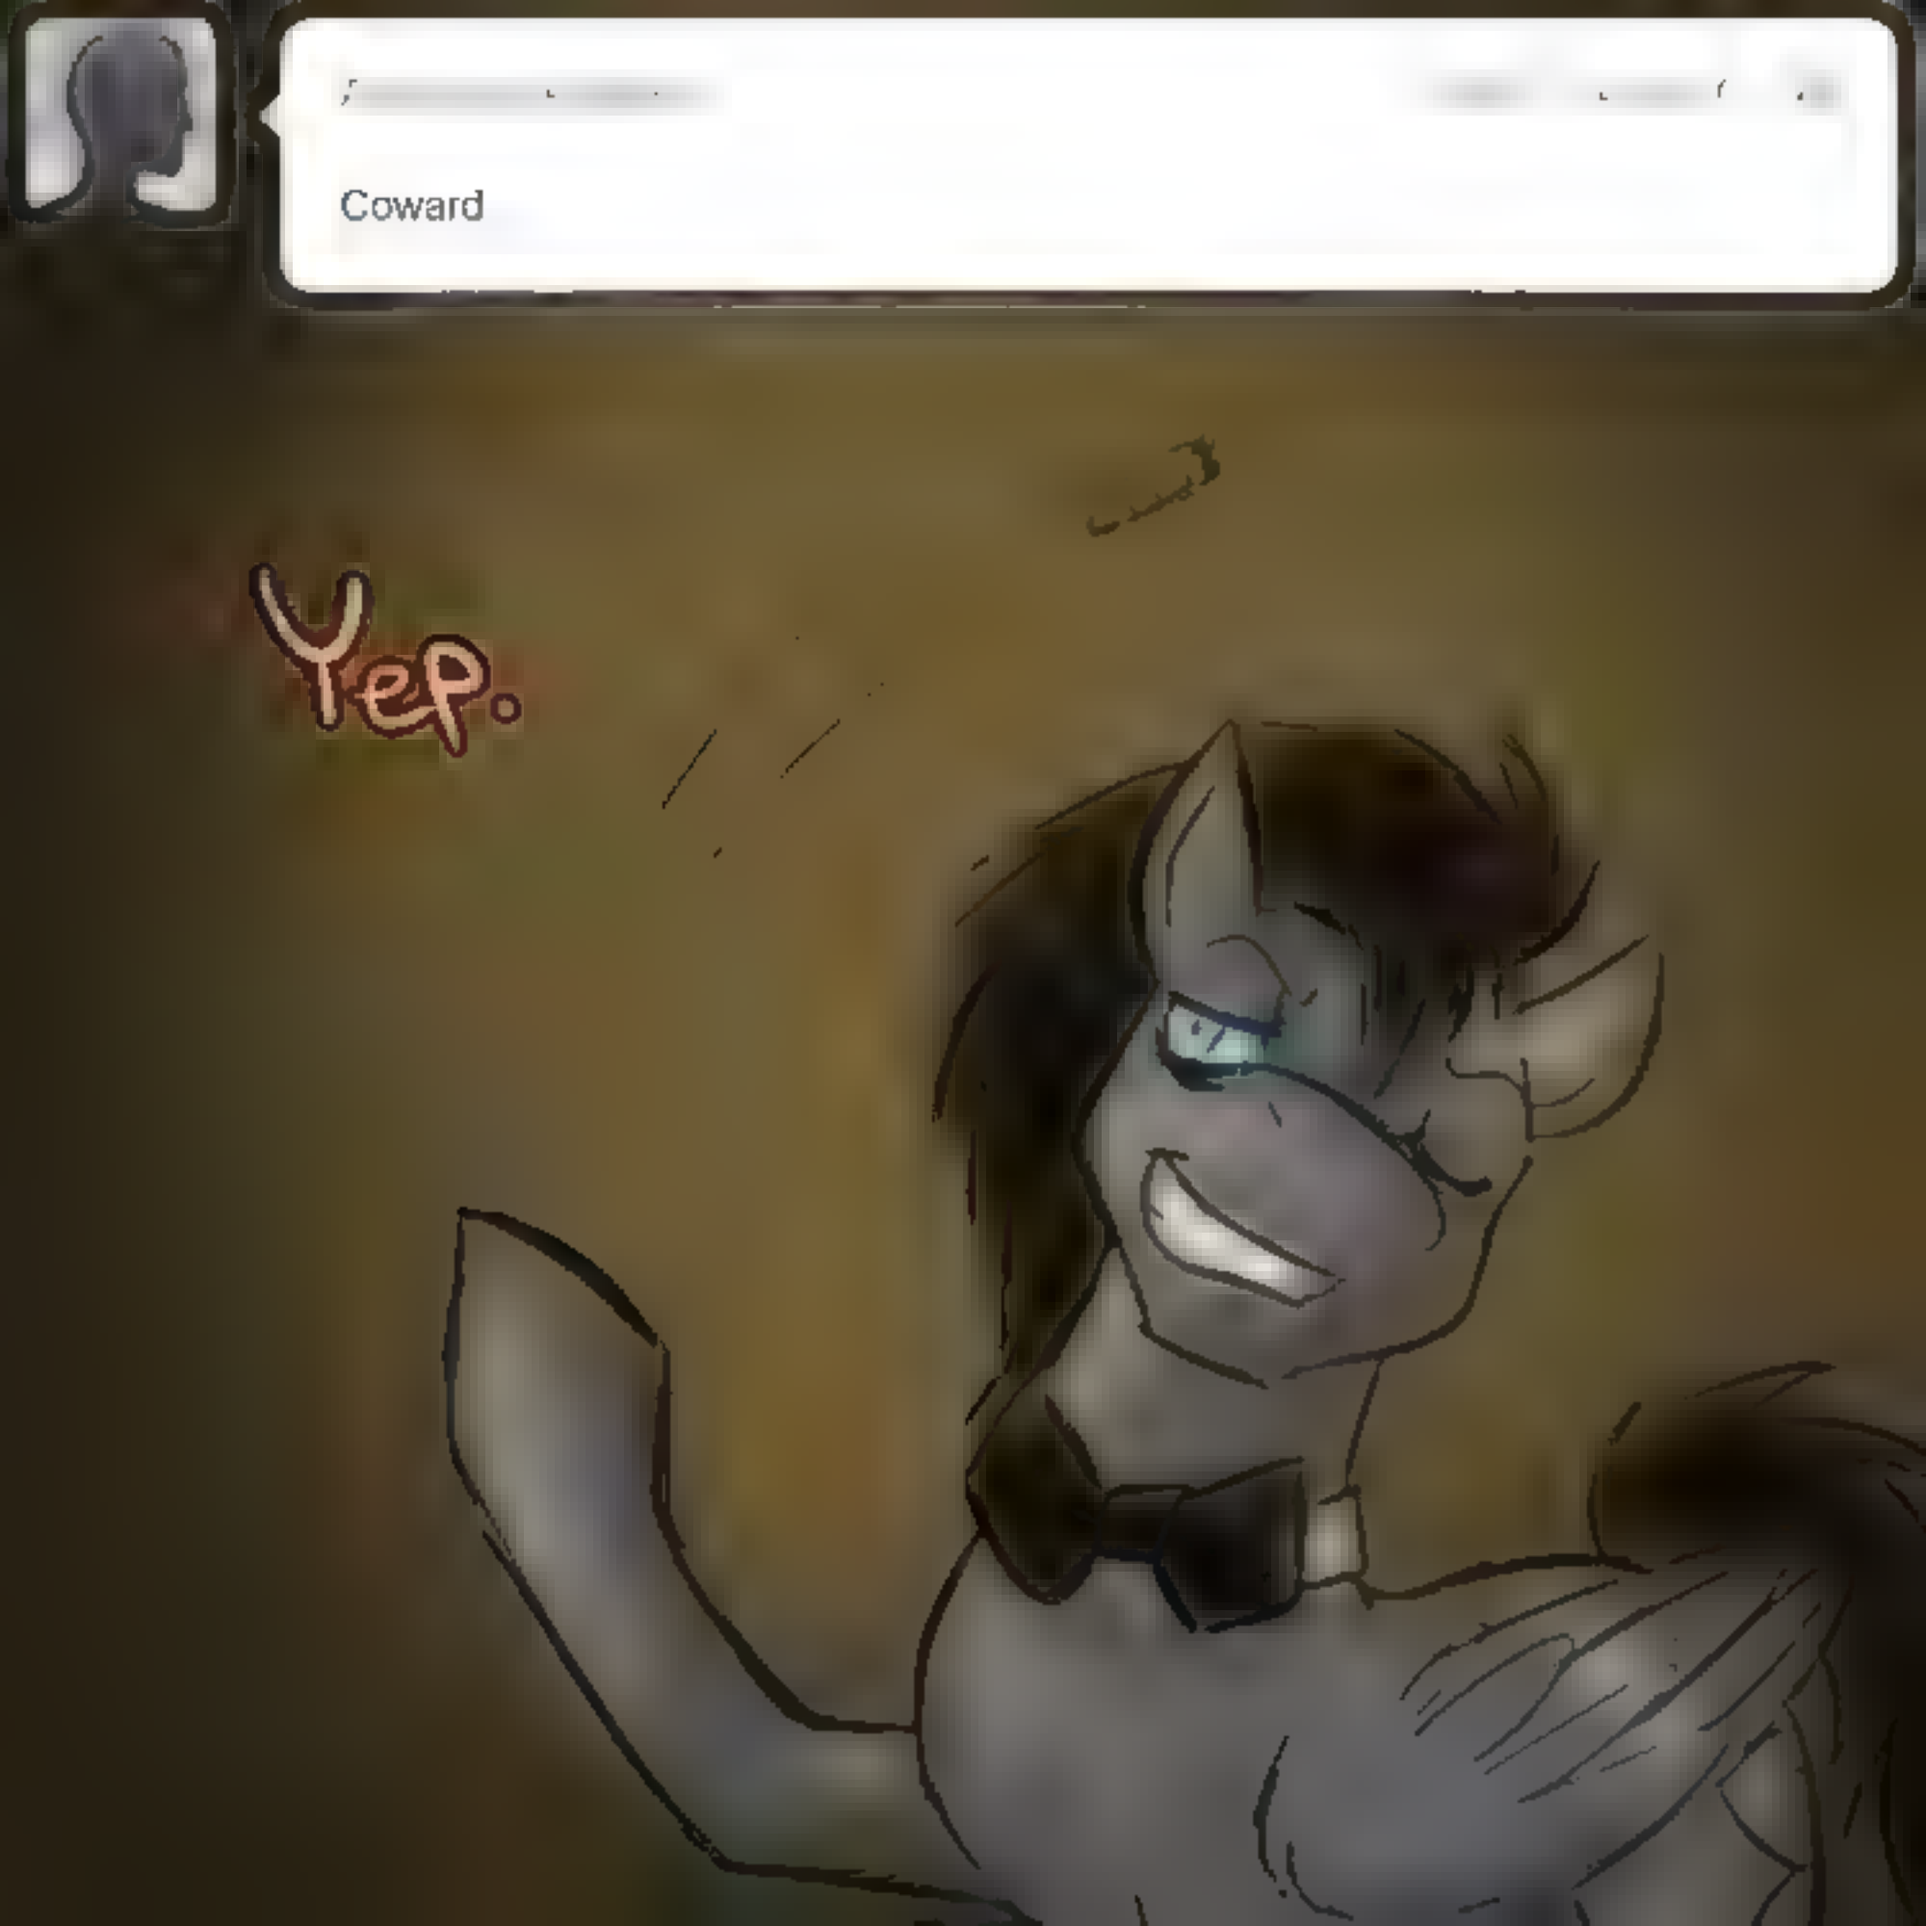
If I stayed in Ponyville it would be like poking your finger in a tiny hole in some cloth. It just makes the hole bigger.

shes crying what d d you do doc or what d d the future you do to the past her?
It's what I did in the past. She's got every reason to hate me. Two times over, in fact.

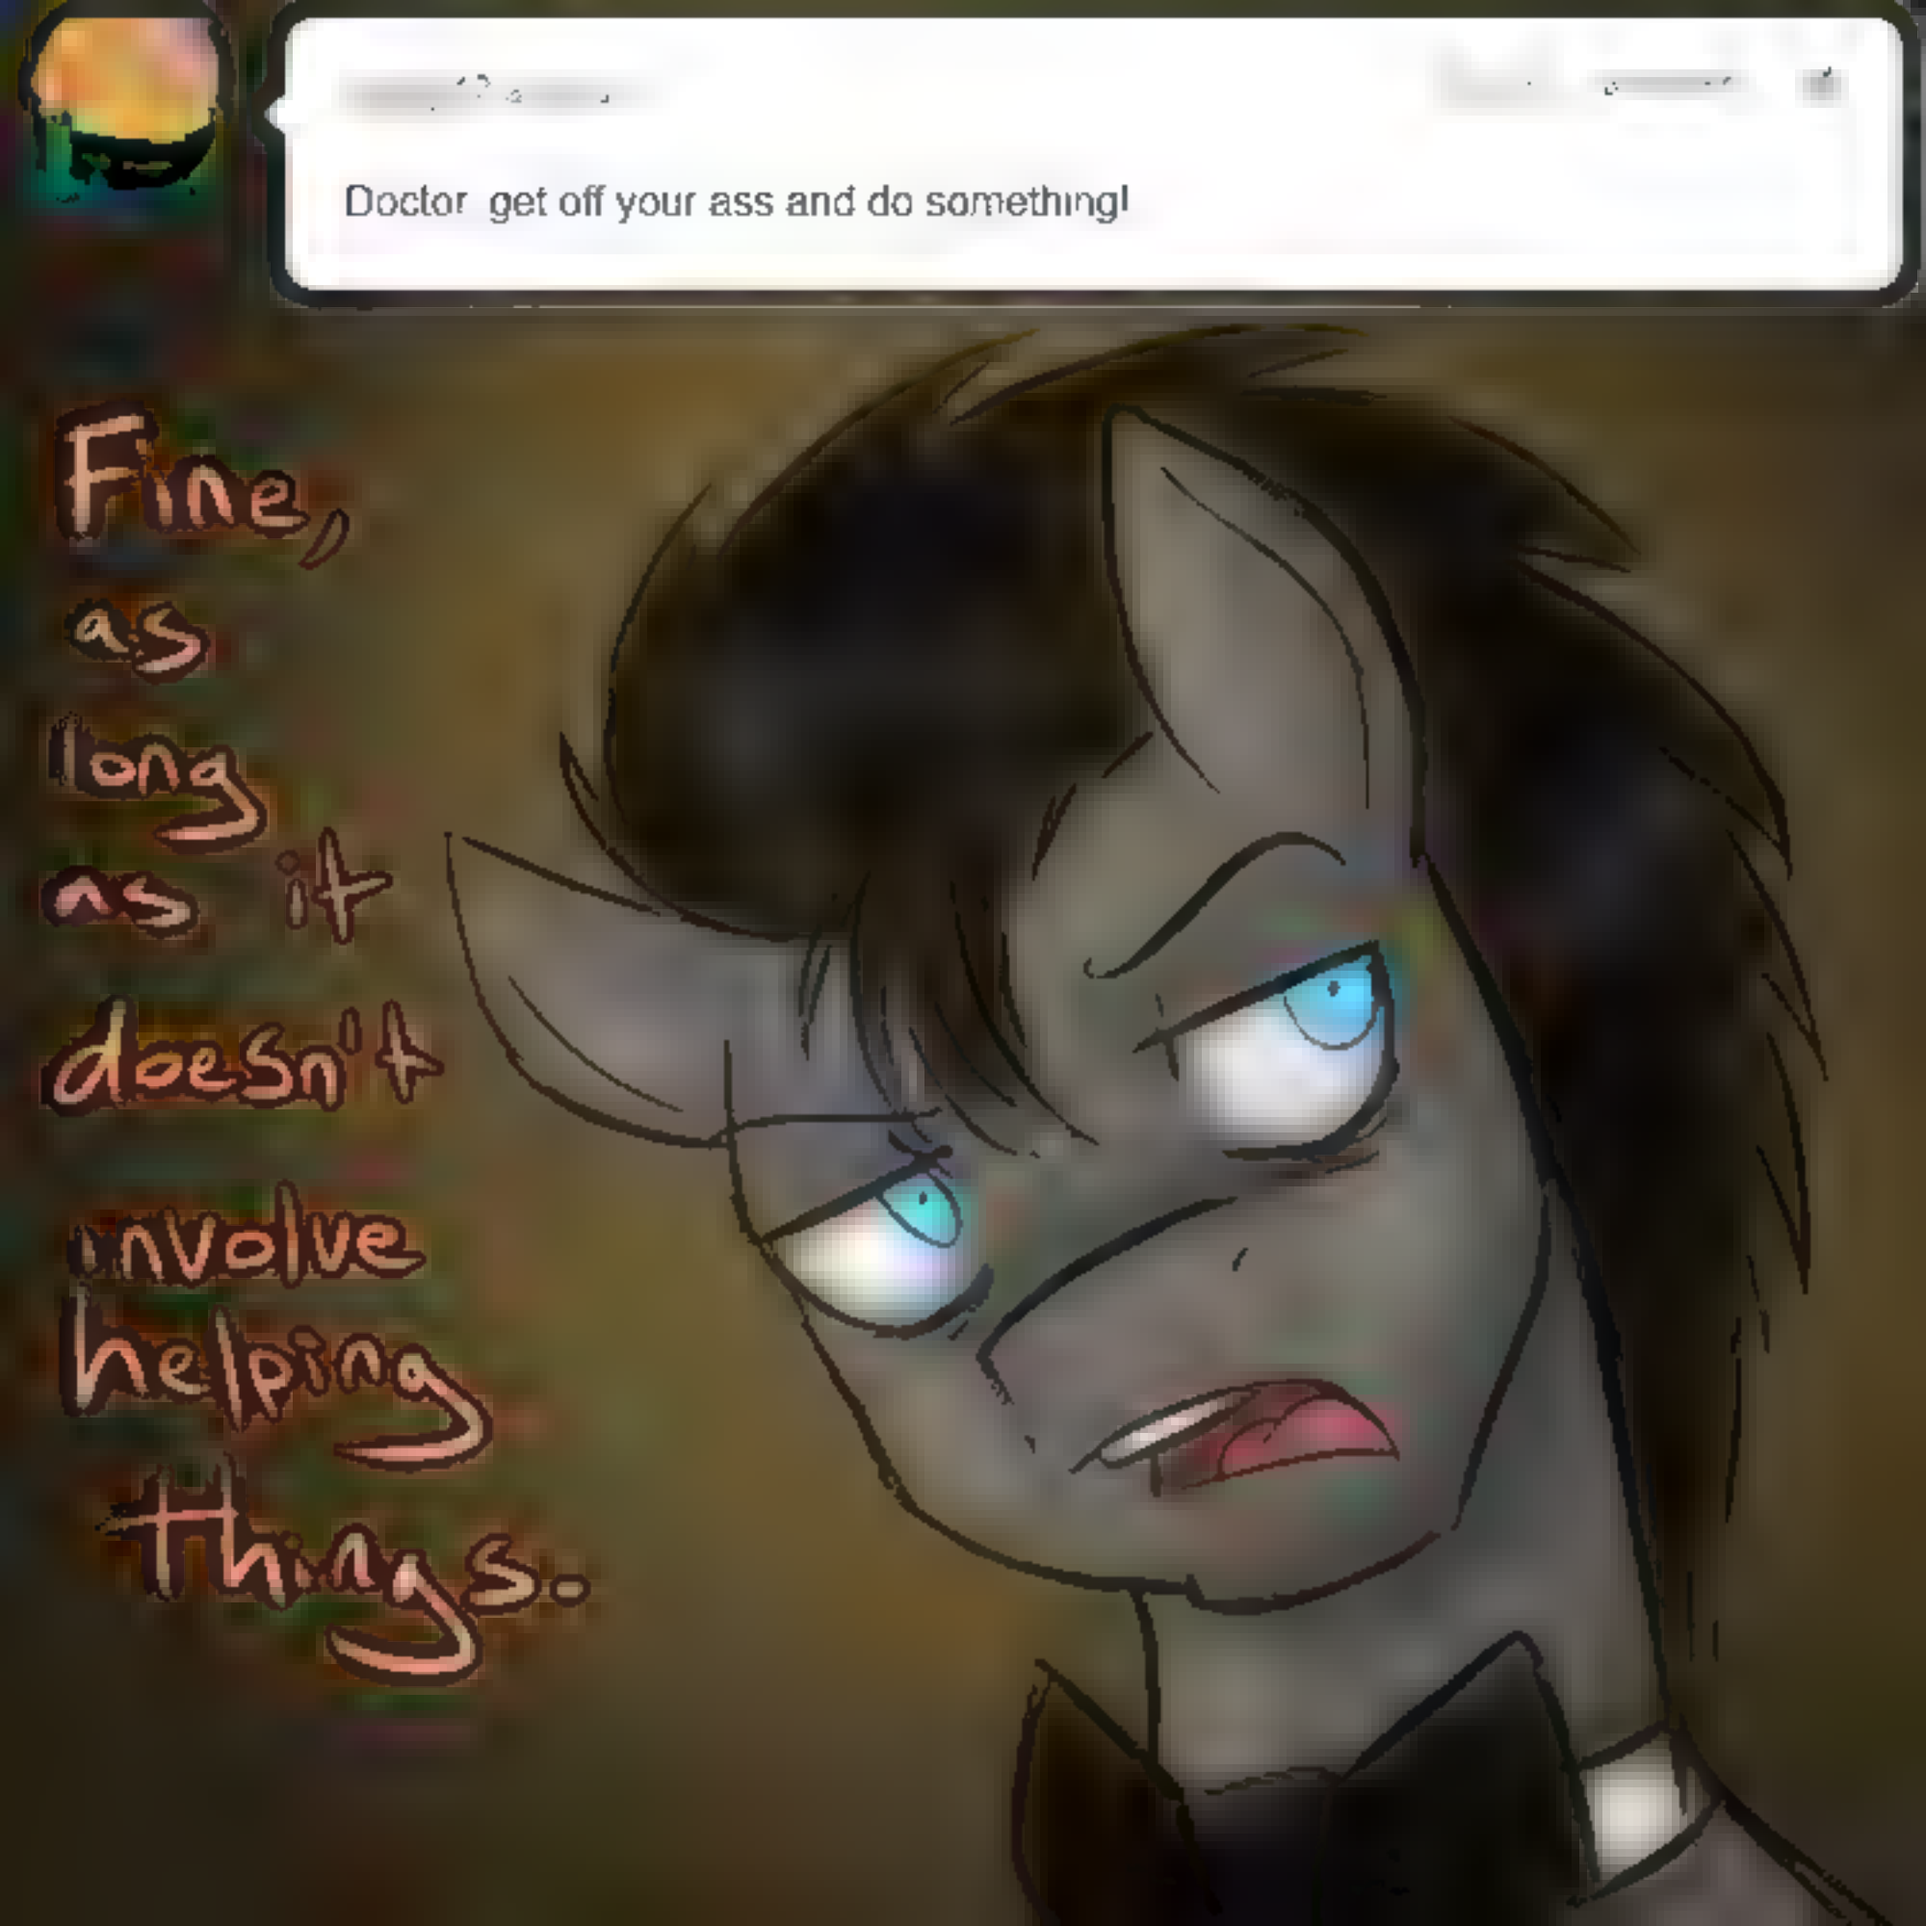
Theta? Interesting, in some senses that it has been used such a nickname holds a cruel weight when aimed at one such as yourself. And that very well be how she meant it, as she seemed to know you and of your historical tendencies. Are we dealing with another very wibbley wobbly temporally disjointed problem again? What do you know of that crystal blue mare, my Doctor?
...Let's just say we were... Close...
I wouldn't have my TARDIS if it wasn't for her.

Wouldn't have your TARDIS? Did she g ve it to you or he p you find t then Doc?
Neither. She helped me get away with Steal- er... "Borrowing" it.

Tell us who that mare was!! Please!!
No,
I'd rather
not.



Coward
Yep.



Doctor get off your ass and do something!
Fine, as long as it doesn't involve helping things.

I know your answer might be "noth ng," but g ven your track record, I don't think that's the case What are you go ng to do next, Doctor? Wait for Twilight to give you a signa ?
I'll always be keeping an ear out for her, but noo. I'm rather curious about something, actually.

So if you know what happened to pinkie pie Do you have an ideas what happened to the others? Rarity for example
Funny you should mention her, that's what I was concerned about... Twi Mentioned 'Scars' but... That's... Not possible.

The only Rarity I know of with 'Scars' was from a different dimension. Called herself "Momm y."

And I left my jewel encrusted whip with her by accident.

What's that jewel encrusted whip you said? Bigger question HOW did you leave it there? Hmm?
Er, well... I gave her a visit a long time ago... We were having so much 'fun' that I forgot to take it with me.

Hey Doctor, maybe you should pay Little Miss Ranty a visit I know you said you would give up on, uhh "intimate" ordeals, but she could really use some advice with some interesting dreams
Dreams? Parallel dimension, Twilight knowing her even though it's impossible, and 'interesting' dreams? You're right, this does call for some investigation..

.....And I really
Miss that whip.

Ah, there she is-
...Why is she on the ground?

Don't mind me, gorgeous, I'm just here to retrieve the jewel encrusted whip I accidentally left in your stocking drawer earlier.
Whoa the fuck.?

Erm, are you alright, Mommykins? Let me help you up, you look awful...

Chrysalis's daughter!

[illegible]!
[illegible]
[illegible]?
UMM...? You don't remember me?

Hold up, you're you, but -not- you, I mean, not like yourself or the you that I knew...
Doubt
Told Me

I-Impossible... You're seeping over with dimensional energies that don't match up to anything! This is bad- really beyond timey-wimey...

hope "re ationships" with ponies is not back on your agenda. E specia ly not with Ranty in the state shes in. You' regret t A lot
Will you cut that out, what the hell is wrong with you?! I can't read you- I can't- MMm- take me~!

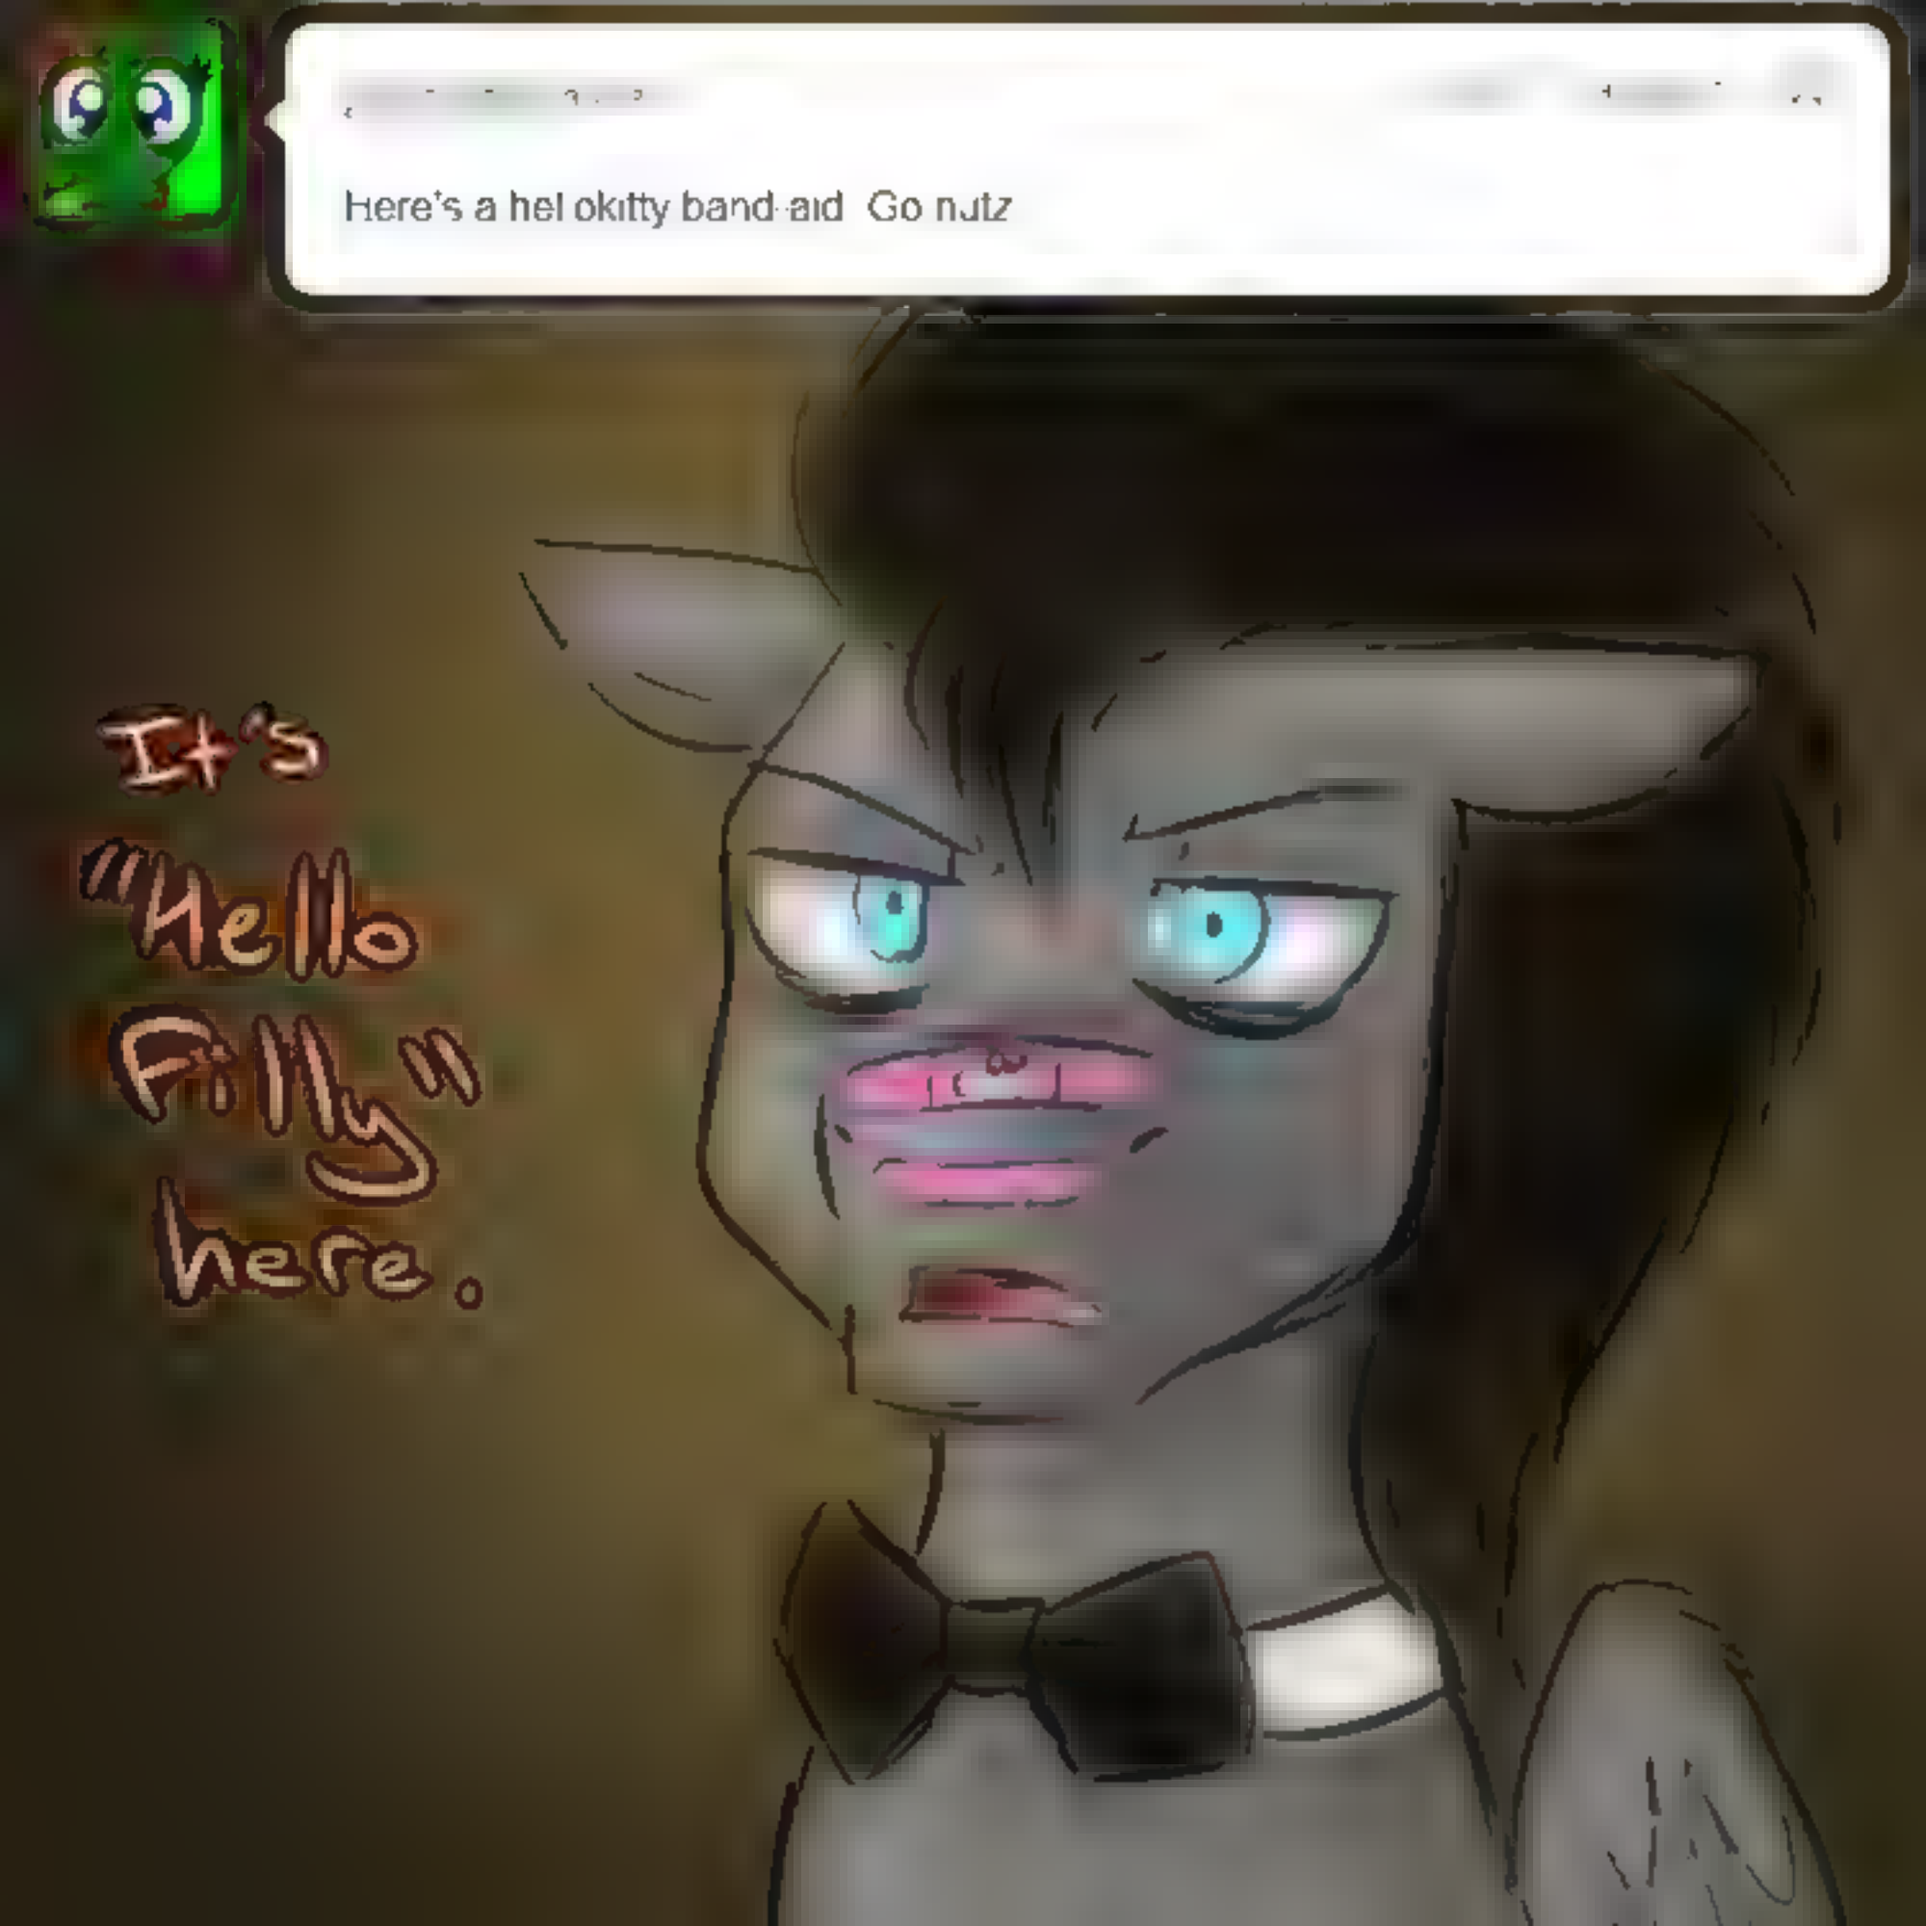
EAUGH!!

Um what are your feelings for Little Miss Rarity as in do you like here or " Like like her "
She BIT me!!
She bloody bit me!!
What the hell!!?...

I'm sorry Doc, but that your reaction to the bite was funny Need a band aid?

You should probably bandage that up - the last thing you want s for it to get infected, Doctor

Ugh, good idea...



Here's a hel okitty band-aid Go nutz
It's "Hello Filly" here.

I What the hel just happened Doc?!
Doctor, what was going on with Rar ty? What was a l that d mensional seeping? Why can't she remember you?
Well, apparently the dimension of the 'Mommy' I knew was locked away. I can't get to it any more, so I wound up in a 'New' dimension with an alternate Rarity who had the closest pattern to the original.

What was up with that strange flash when she hugged you?
I'm sensitive to dimensional disturbances. It was like she had communication wires hooked up to her from multiple realities, all tied to her specificly. And I don't know how or why.

It gave me a terrible headache and I might have gotten sick if I'd stayed much longer.

So whats the diagnosis on Miss Crazy? Paradox? Got lost and wound up here? Ticking time bomb of energy? And s someone to b ame for this?
I'm... Not sure. Her first dimension was already a mess, then it started 'bleeding' in to my own universe according to Twilight, and now that it's been locked away it's as if it's trying desperately to break through another reality.

How can so much of the world change without breaking space and time? I thought only the TARDIS had enough power to make and sustain paradoxes
In my original universe with humans, maybe... But here in the 'ponyverse' the massive amounts of magical energy seems to be holding things together like glue...

The glue is starting to get old, though. If no one fixes it, it can only hold so much damage before everything breaks...

MEH
You say you won't nterfere yet here you are, out and about again, messing around in the world outside your big blue box You just can't stay out of trouble can you?
I- That's not-!!
Shut up!
I'm only takin a Peek, I'm not getting involved!

Doctor, I ove you but not I ke this. Tell me, you always to d us that you were gonna stay n the TARDIS and do nthing So, if you're dead to the universe, why keep living? You're so unappy most of the t me? You gave up caring, why are you still breathing?
. . . .
Because I'm too Scared to die.
I want More than anything to...
Exist...

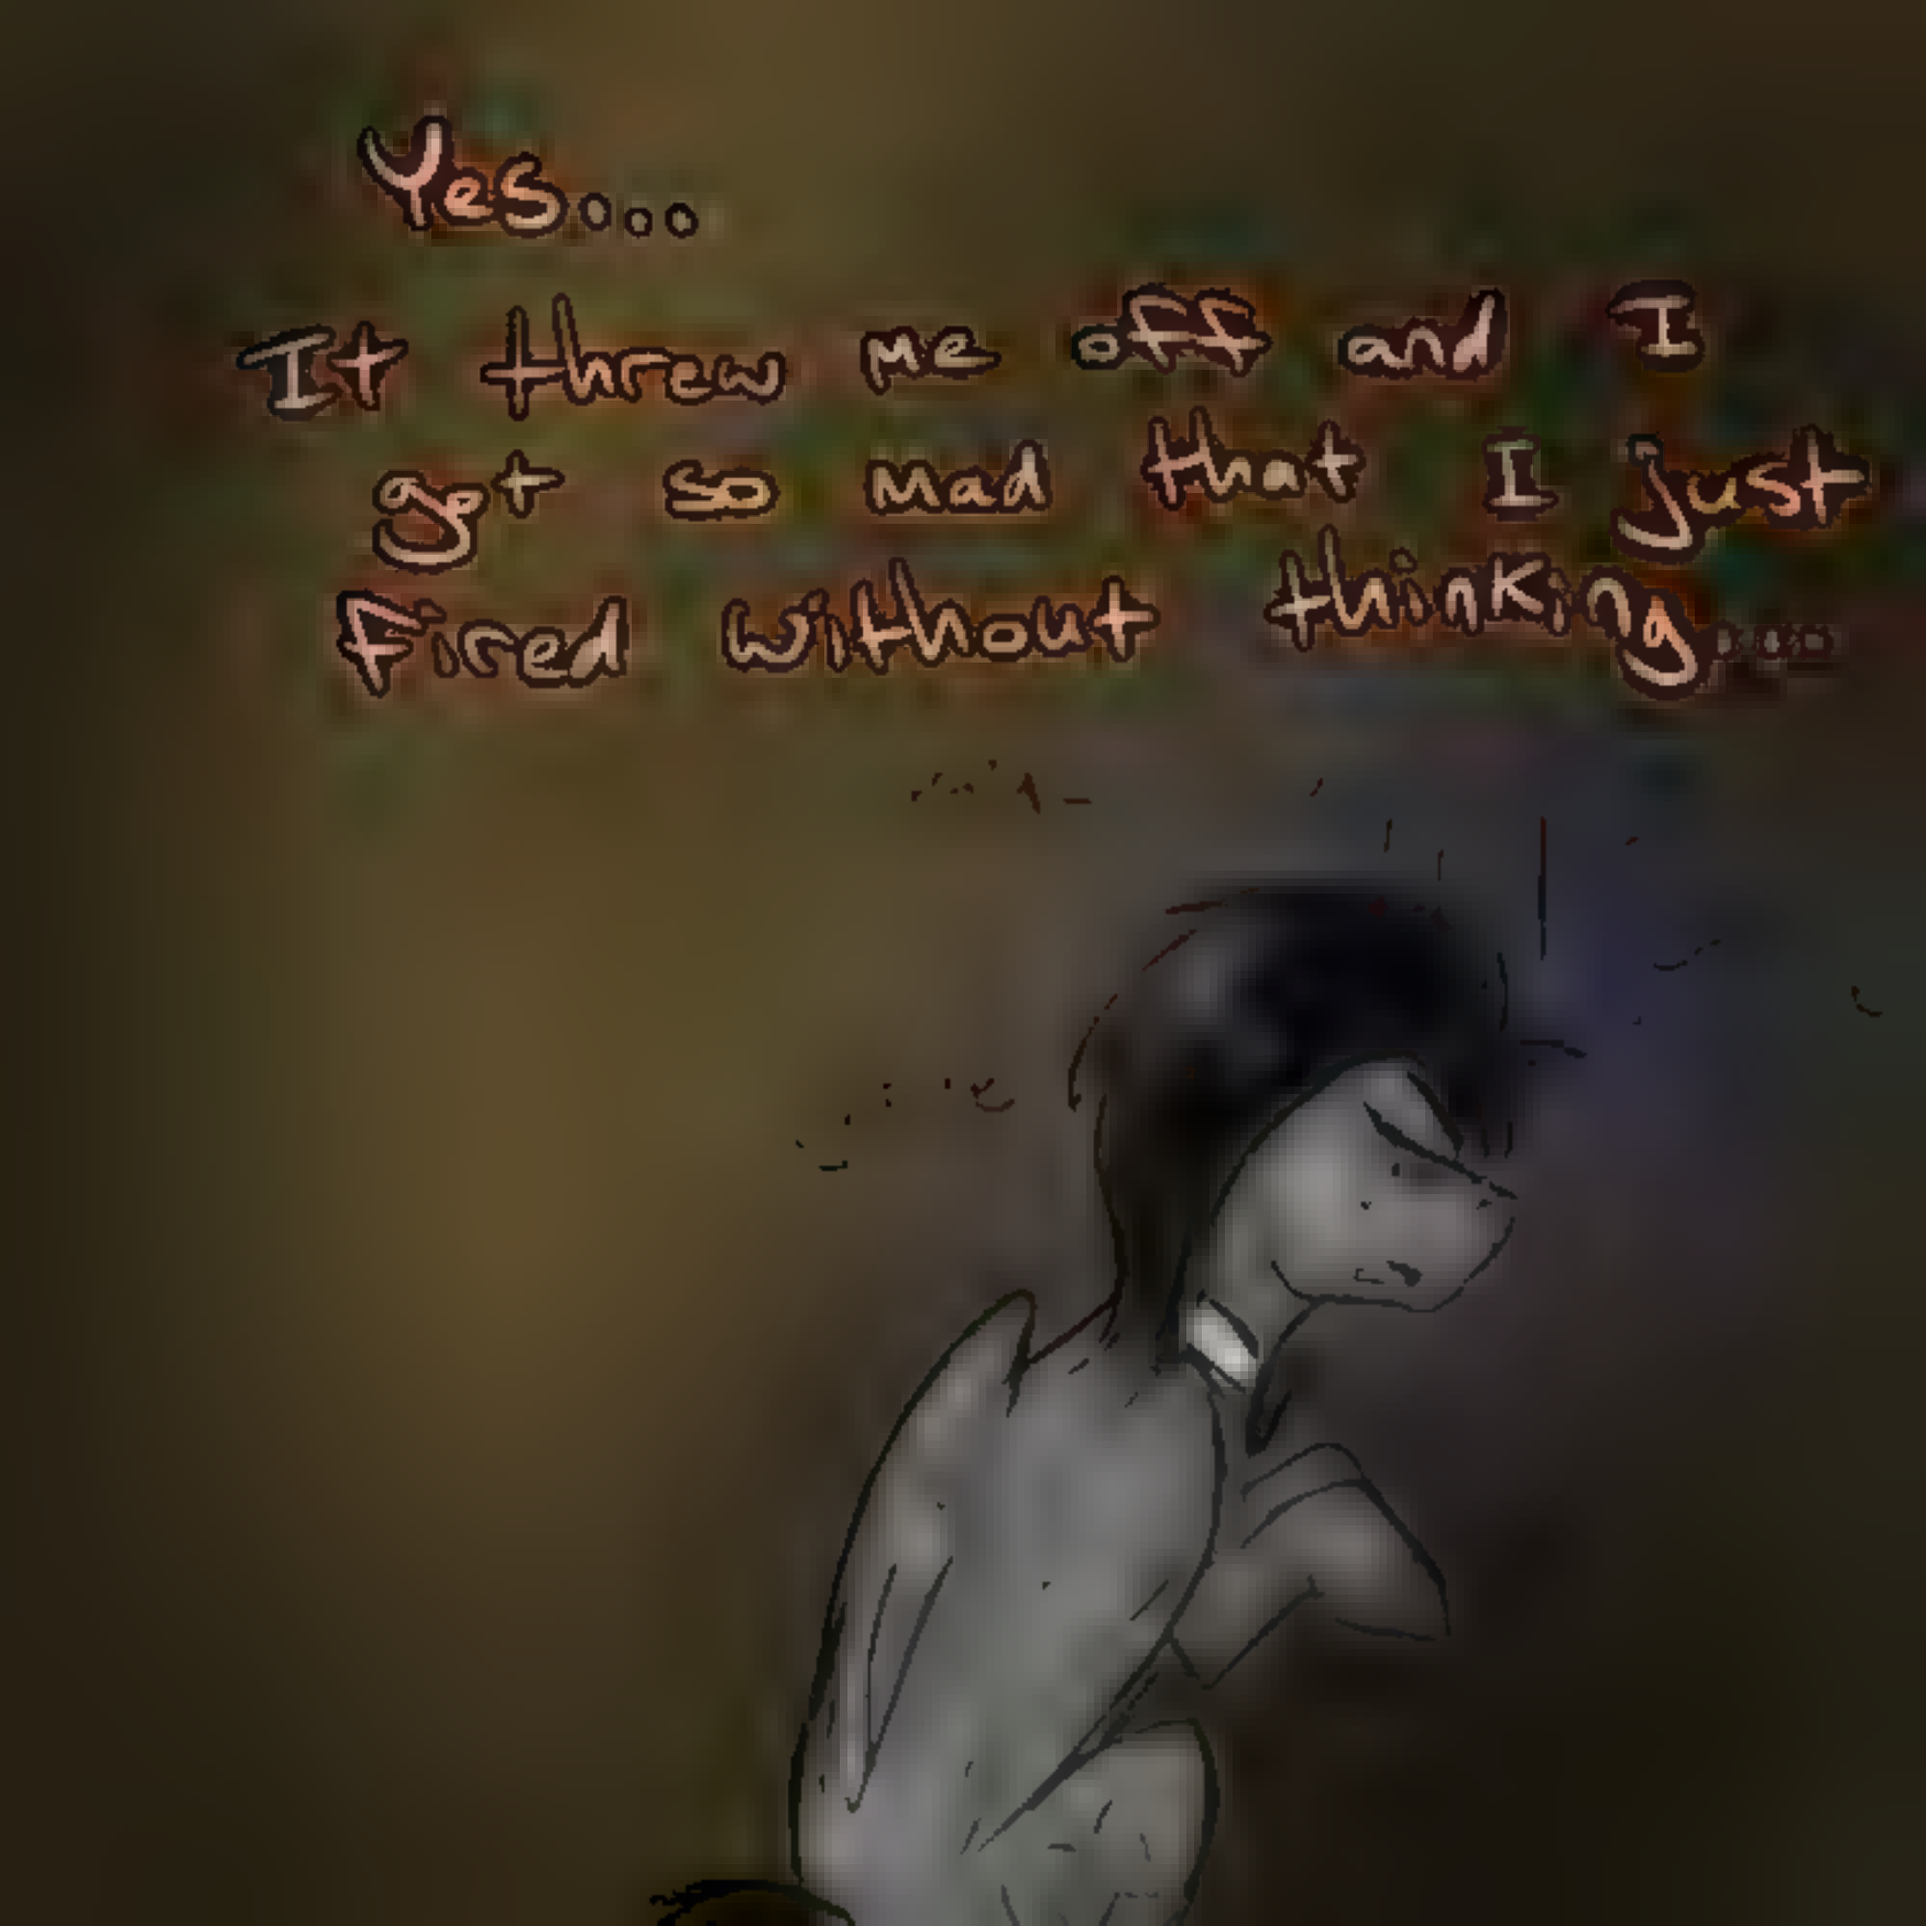
Hey Doctor, what ever happened to Octavia after your confromtation with the Master?
O-Octavia?

How should I know?
She ran off.

And what was she even doing with him in the first place?!

Hmph! If she's hanging around Captain Blueballs then I don't care about her.

Why did you hesitate to kill The Master? Was it because of Octavia?

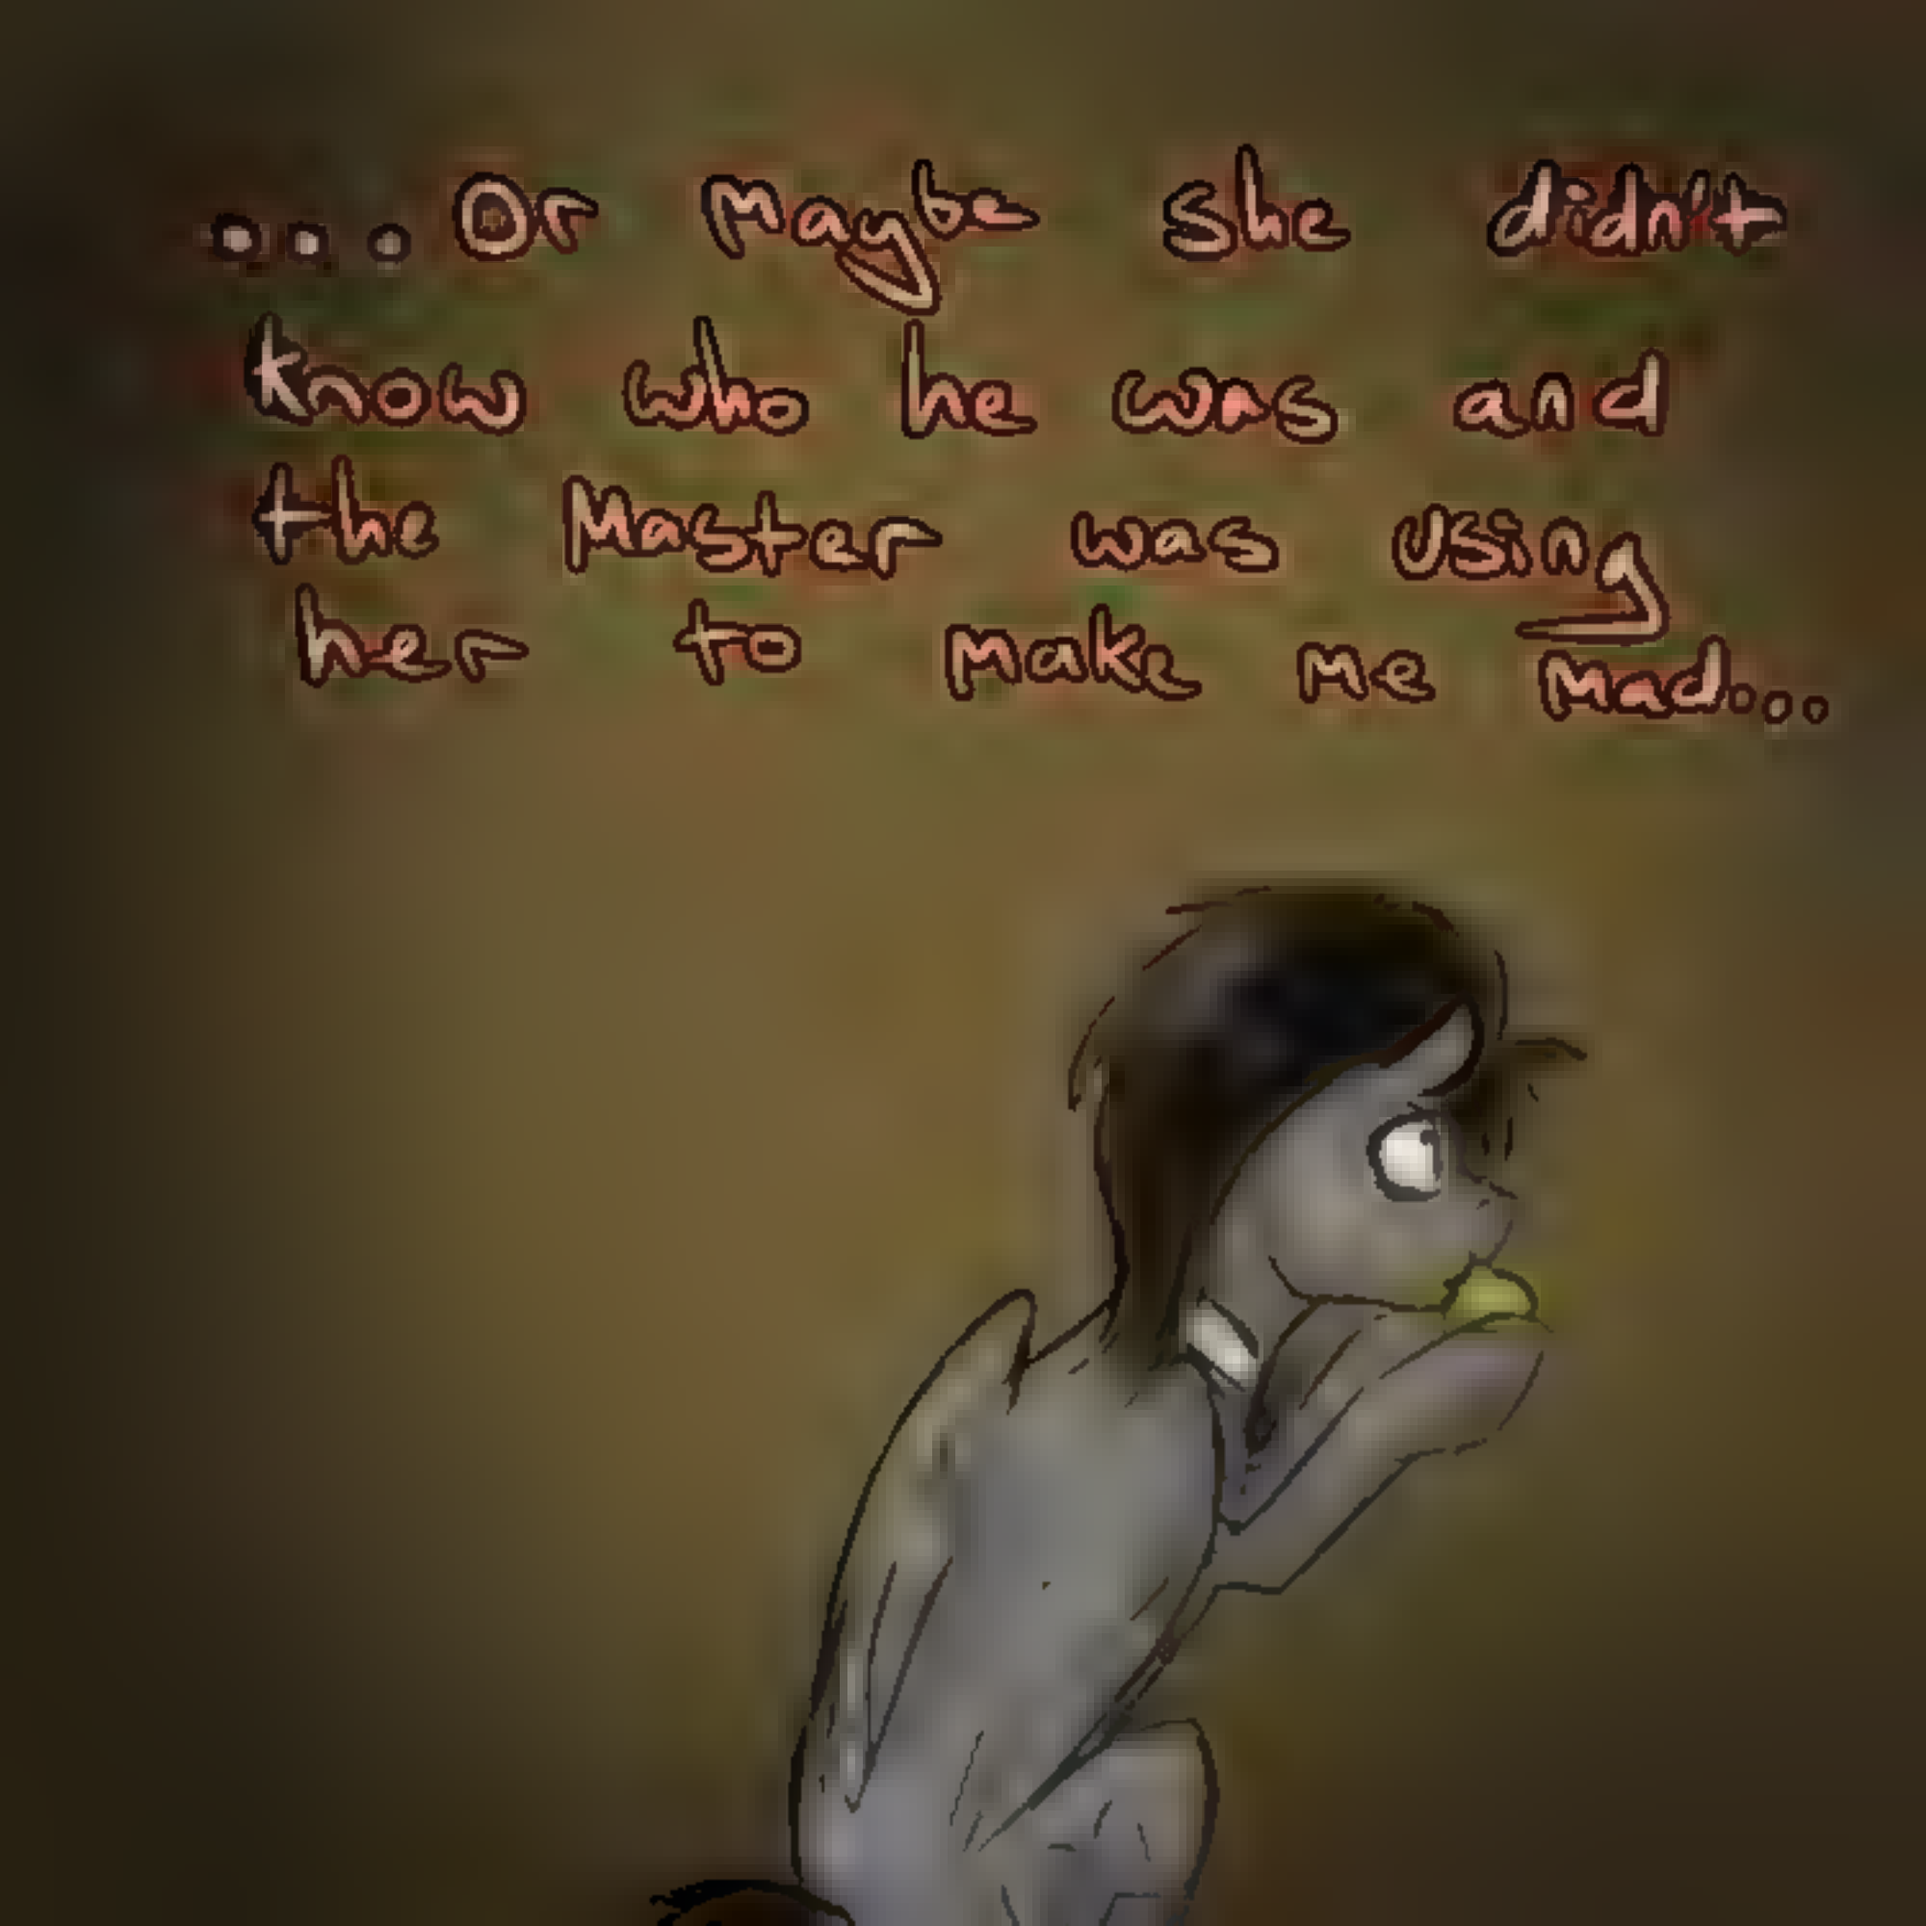


Yes...
It threw me off and I got so mad that I just fired without thinking...

...I DON'T CARE!!
Really!! I don't!

Hey Doc why don't you have a pear? For old times sake?
I bet she's a traitor, too.
Hph.

...Or maybe she didn't know who he was and the Master was using her to make me mad...



. . . . . Hm.

You love that little Marshmallow don't you, Doctor? But you're a coward, now
When she calls for you, will you stand and fight for her? Or will you run?

...But it's her I'll be running to.

Hey Doc, you know how the ponyverse b eeds into several different mu t.verses? Why not take Twilight to one of those where her friends are still alive and sane? She'd probab y be safer there, anyways At least, i'm pretty sure it d be better than being caught in The Master's warpath
Oh, if only it were that simple.

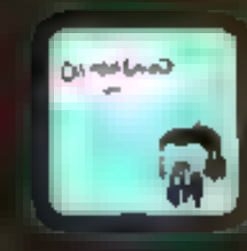
I'm a Time Lord, I can safely travel to alternate dimensions. But if I brought her to one, it would be too risky. She might meet her alternate self and that's very, very bad.

Why don't you stay with her? The universe wi l survive without you and your a time traveler All the time you spend with her and you could be off saving peop e literally at the same time
I couldn't.
I would only cause more problems and I'm really not the... Settling down type.

Doctor, why don't you take Miss Twilight with you? Wouldn't she be safer with you than in Ponyville? You could create so many different rooms whatever she wants or her in the TARDIS The Master won't be able to get his hooves on her as easily as he did when you're around

Hey Doctor, Why can't you bring Twilight Sparkle with you on your adventures? She can be of a good use on your adventures after all

Doctor why not take Twilight with you? Her world is falling apart and there's something bad going on



Why not just make Twi a companion? Be easier to keep an eye on her, and I bet she'd love to see the world er, universe whatever

Want to keep her safe so much why not just take her with you?

Doctor maybe you should consider asking Miss Twilight if she'd want to stay with you in the TARDIS? Even if just for a while Just you two spending time together, maybe it'd be good for both of you?

Why don't you take Twilight with you Doctor?

So then, you've given her the pendant, but wouldn't it be more efficient to just let her travel with you? You could be with her all you wanted and then you wouldn't be so lonely, she'd be with you and you don't be so depressed Two birds with one stone 'm sure Twi would love to see the world, or universe

Are you all insane?!
No! No, absolutely not!!

Taking her as a companion would be the biggest risk of all the options!

Don't you know what happens to those who become My companions?
I can't do that to her..!

Doctor I know you mean well and I know you really do care for twilight but I think you've broken enough hearts don't break another
I'm trying...

'Ich

You realize there's no way you'll be able to be there for her every time right?
Somewhere along the line you won't be able to protect her
You know you can't be there for her all the time right?
you know damn well that you cant ALWAYS be there for Twilight you
shouldn't have made such a promise
I- I know... I know that --
But I'll still try to do as much as I can...!

I find it amusing how you can l e to her face and then kiss her

You do realize this is all because of you, right? Because you stopped caring, stopped trying. Twilight's friends went mad or died, or both. Her whole world falling apart because you wouldn't get off your ass and save the day like you've done a thousand times before. Planning to keep hiding in your little blue box?
Just... shut up.

But... No, darling, you're crying. You can't tell me nothing's wrong.

It's stupid, really... I was just... lonely...
What about that little dragon of yours?
I sent him back to Canterlot again. This time, I told him not to come back. Ever. It's too dangerous here now, with the murders...

It absolutely killed me to send him away, but I had no choice...

This isn't FAIR Twilight!

You PROMISED!

I know it's really selfish of me, but... is there any way you'd be able to stay with me? I know you can't stay forever, but maybe... one night? I just want to see you when I wake up once...

Of course, my sweet Marshmallow.

You better stay with her, Butter Boy, if you knowmwhat's good for you
Shhh... I have to keep my voice down, she's sleeping...

Doctor, what will keep you from leaving her like Derpy? And Dinky? And Sparler? Or should I say AMY?
You make it sound like I want to leave her...
I really don't have a choice...

In the end Twilight will d e if she stays in ponyville with that murderer doctor what will you do ?
That's why I gave her that charm...

I'm just a coward, really... What good am I...?

Doctor you are not a coward! When you thought your marshmallow was in trouble you jumped in to her rescue, deep inside I know you are still the loving man who saved the universe and never asked anything in return

You are the doctor Protect the innocent It is your redemption
I know, I know, I know...

Mmh...
Oh, I'm sorry, did I wake you..?
It's alright...
